bread givers pdf: Self-Made Women in the 1920s United States Matthew Niven Teorey, 2022-05-16 Women of the 1920s led a revolt against the old standards of womanhood that were dominating US culture. Flappers and feminists, they spoke and acted out, inspiring other women to follow. This book analyzes the work of eleven important 1920s female authors who chronicled this revolt: Anzia Yezierska, Anita Loos, Mae West, Josephine Lovett, Nella Larsen, Mourning Dove, Djuna Barnes, Amy Lowell, Gertrude Stein, Bessie Smith, and Dorothy Parker. These trailblazers wrote counter-narratives to the sexism, racism, classism, and homophobia women faced during the Jazz Age. The author brings their novels, poems, plays, film scenarios, and blues lyrics into conversation with each other for the first time to show different approaches female readers could take to become autonomous individuals and full citizens. The works also encouraged readers to maintain supportive relationships with other progressive women. The author argues these works presented female readers with examples of how they could act individually and collectively to attain the political power, social status, economic independence, sexual freedom, and artistic recognition they deserved.

bread givers pdf: *Immigration Structures and Immigrant Lives* David W. Haines, 2017-10-20 Immigration Structures and Immigrant Lives provides a concise, comprehensive, interdisciplinary introduction to United States immigration and immigrants. The book is presented in two parts. Part I addresses the history, structure, dynamics, and politics of United States immigration from colonial

times to the present. Part II focuses on the lives of immigrants with separate chapters examining the immigrant struggle simply to live, the challenges and opportunities of work in America, the different beliefs and commitments that fortify immigrants in their new lives, and the many different ways in which immigrants come to belong in the United States. The introduction and epilogue bracket the United States experience within a broader consideration of human mobility and current global migration trends and issues. Tables, case examples, and a timeline help illuminate both the general shape of immigration and the details of immigrant life. This text is accompanied by an ancillary package of digital tables and illustrations in order to enhance the learning experience of both the instructors and students.

bread givers pdf: *The Migrants Table* Krishnendu Ray, 2004-09 To most of us the food that we associate with home—our national and familial homes—is an essential part of our cultural heritage. No matter how open we become to other cuisines, we regard home-cooking as an intrinsic part of who we are. In this book, Krishnendu Ray examines the changing food habits of Bengali immigrants to the United States as they deal with the tension between their nostalgia for home and their desire to escape from its confinements. As Ray says, This is a story about rice and water and the violations of geography by history. Focusing on mundane matters of immigrant life (for example, what to eat for breakfast in America), he connects food choices to issues of globalization and modernization. By showing how Bengali immigrants decide what defines their ethnic cuisine and differentiates it from American food, he reminds us that such boundaries are uncertain for all newcomers. By drawing on literary sources, family menus and recipes for traditional dishes, interviews with Bengali household members, and his own experience as an immigrant, Ray presents a vivid picture of immigrants grappling with the grave and immediate problem of defining themselves in their home away from home.

bread givers pdf: *Daily Life of Women in the Progressive Era* Kirstin Olsen, 2019-06-24 This book illustrates the social change that took place in the lives of women during the Progressive Era. The political and social change of the Progressive Era brought conflicts over labor, women's rights, consumerism, religion, sexuality, and many other aspects of American life. As Americans argued and fought over suffrage and political reform, vast changes were also taking place in women's professional, material, personal, recreational, and intellectual lives. In this installment of Greenwood's Daily Life through History series, award-winning author Kirstin Olsen brings to life the everyday experiences, priorities, and challenges of women in America's Progressive Era (ca. 1890–1920). From the barnstorming bloomer girls who showed America that women could play baseball to film star, tycoon, and co-founder of the Academy of Motion Pictures Mary Pickford, and from the highly skilled Hello Girls—telephone operators who helped win World War I—to the remarkable journalist and civil rights activist Ida Wells-Barnett, women led both famous and ordinary lives that were shaped by and helped to drive the dramatic social change taking place during the Progressive Era. All of this and more is described in this book through topical sections as well as stories and profiles that reveal to readers the daily lives of America's women who lived during the Progressive Era. Readers will benefit from Olsen's characteristically sharp eye for detail, power of description, and breadth of historical knowledge.

bread givers pdf: *No Place in Time* Sharon B. Oster, 2018-11-12 An exploration of the temporal function that the Jew plays in literature. *No Place in Time: The Hebraic Myth in Late-Nineteenth-Century American Literature* examines how the Hebraic myth, in which Jewishness became a metaphor for an ancient, pre-Christian past, was reimagined in nineteenth-century

American realism. The Hebraic myth, while integral to a Protestant understanding of time, was incapable of addressing modern Jewishness, especially in the context of the growing social and national concern around the Jewish problem. Sharon B. Oster shows how realist authors consequently cast Jews as caught between a distant past and a promising American future. In either case, whether creating or disrupting temporal continuity, Jewishness existed outside of time. *No Place in Time* complicates the debates over Eastern European immigration in the 1880s and questions of assimilation to a Protestant American culture. The first chapter begins in the world of periodicals, an interconnected literary culture, out of which Abraham Cahan emerged as a literary voice of Jewish immigrants caught between nostalgia and a messianic future outside of linear progression. Moving from the margins to the center of literary realism, the second chapter revolves around Henry James's modernization of the noble Hebrew as a figure of mediation and reconciliation. The third chapter extends this analysis into the naturalism of Edith Wharton, who takes up questions of intimacy and intermarriage, and places the Jew at the nexus of competing futures shaped by uncertainty and risk. A number of Jewish female perspectives are included in the fourth chapter that recasts plots of cultural assimilation through intermarriage in terms of time: if a Jewish past exists in tension with an American future, these writers recuperate the Hebraic myth for themselves to imagine a viable Jewish future. *No Place in Time* ends with a brief look at poet Emma Lazarus, whose understanding of Jewishness was distinctly modern, not nostalgic, mythical, or dead. *No Place in Time* highlights a significant shift in how Jewishness was represented in American literature, and, as such, raises questions of identity, immigration, and religion. This volume will be of interest to scholars of nineteenth- and turn-of-the-century American literature, American Jewish literature, and literature as it intersects with immigration, religion, or temporality, as well as anyone interested in Jewish studies.

bread givers pdf: Girlhood in British Coming-of-Age Novels Soňa Šnircová, 2018-01-23 The book discusses a selection of coming-of-age narratives that offer a revisiting of the classic Bildungsroman heroine – the young white middle-class woman – and present her developments in postwar and postmillennial British literature. In terms of theoretical approaches, the study draws on works by the feminist critics whose incorporation of gender into the studies of the Bildungsroman resulted in the delineation of the female version of the genre, the female Bildungsroman and its specific twentieth-century variation, the feminist Bildungsroman. The selected coming-of-age novels present further transformations of the female Bildungsroman. The classic heroine of eighteenth- and nineteenth-century Bildung narratives reappears in twentieth-century novels as a modern girl who experiences a significant rise of feminist consciousness. In more recent works, she becomes a postfeminist girl who questions “victim feminism” and tests the potential of “girl power” to subvert the patriarchal tradition. Relating the postfeminist developments of the girl heroine to the influence of contemporary media culture, the book explores whether these literary representations of girlhood incorporate antifeminist backlash messages. It will be of interest to scholars and students in the fields of literary and girls’ studies, particularly those who want to see new trends and issues in young adult fiction in the context of a literary tradition.

bread givers pdf: *A Cultural History of Shopping in the Modern Age* Vicki Howard, 2022-06-02
A Cultural History of Shopping was a Library Journal Best in Reference selection for 2022. In the modern consumer age that emerged after the First World War, shopping became a ubiquitous cultural practice. Despite its apparent universality, the historicity and contingency of shopping should not be ignored: its meaning was always inextricably linked to the political, material and economic contexts within which it took place. Gendered female for the most part, shopping continued to evoke different cultural responses, embraced as liberatory by some, condemned as frivolous by others. Business decisions and public policies helped construct the frameworks within which new, often American-led, shopping cultures emerged, from downtown department stores to chain stores to suburban shopping malls. The digital revolution in shopping that began in the last decade of the 20th century has changed the face of cities and towns and led to the closure of many bricks-and-mortar stores but, as this volume explores, the shopper remains very much at the center of Western capitalist societies. A Cultural History of Shopping in the Modern Age presents an overview of the period with themes addressing practices and processes; spaces and places; shoppers and identities; luxury and everyday; home and family; visual and literary representations; reputation, trust and credit; and governance, regulation and the state.

bread givers pdf: *Doubting the Devout* Nora L Rubel, 2009-11-06 Before 1985, depictions of ultra-Orthodox Jews in popular American culture were rare, and if they did appear, in films such as *Fiddler on the Roof* or within the novels of Chaim Potok, they evoked a nostalgic vision of Old World tradition. Yet the ordination of women into positions of religious leadership and other controversial issues have sparked an increasingly visible and volatile culture war between America's ultra-Orthodox and non-Orthodox Jews, one that has found a particularly creative voice in literature, media, and film. Unpacking the work of Allegra Goodman, Tova Mirvis, Pearl Abraham, Erich Segal, Anne Roiphe, and others, as well as television shows and films such as *A Price Above Rubies*, Nora L. Rubel investigates the choices non-haredi Jews have made as they represent the character and characters of ultra-Orthodox Jews. In these artistic and aesthetic acts, Rubel recasts the war over gender and family and the anxieties over acculturation, Americanization, and continuity. More than just a study of Jewishness and Jewish self-consciousness, *Doubting the Devout* will speak to any reader who has struggled to balance religion, family, and culture.

Marie Griffith, 2021-05-04 Political polarization and unrest are not exclusive to our era, but in the twenty-first century, we are living with seemingly unresolvable disagreements that threaten to tear our country apart. Discrimination, racism, tyranny, religious fundamentalism, political schisms, misogyny, fake news, border walls, the #MeToo moment, foreign intervention in our electoral process—these cultural and social rifts charge our world, and we have failed to find a path toward agreement or unity. *Making the World Over* is Marie Griffith's thoughtful response to an imperiled nation that has forgotten how to listen and debate productively, at a time when it needs vigorous discourse more than ever. Griffith performs the urgent work of examining the histories behind the issues at the root of our country's conflicts both past and present, from race and immigration to misogyny and reproductive rights. This is more than a study of the issues; it is an attempt to shed real light on how to encourage constructive dialogue and move society forward.

bread givers pdf: *Institutionalizing Gender Equality* Yulia Gradska, Sara Sanders, 2015-10-08
Forty years have passed since the first UN-organized World Conference on Women in Mexico City in 1975. In that time, women's rights, and later gender equality, have become firmly established as an important area of global politics and human rights. What shape have these processes taken in different parts of the world? How do global and internationally designed institutions adapt to local cultural, religious, political, and economic contexts? What are the problems and contradictions embedded in this process when viewed from a global perspective? What effects do grassroots, local,

and national actors have on transnational institutions? In answering the questions, the book draws on historical and global perspectives, beginning in the 1960s, an important moment for internationalization during the Cold War, and looking to a global selection of case studies. Providing a series of “snapshots” of historical and contemporary global gender equality politics, the chapters allow for an examination of how local, national, and transnational actors have interacted in ways that affect the dissemination of gender equality institutions, both formal and informal. The case studies demonstrate the relationship between the supranational, regional, national, and sub-national or “local.” They explore the power dynamics, interactions, and mutually constituting nature of two analytic levels of organizations and actors involved in the institutionalization of gender equality—the transnational level as well as the level of activity within specific national political systems (as represented by states, grassroots organizations, and other sub-national actors). The findings reveal that the institutionalization of gender equality is dependent on national and local context, the potential for interactions between gender equality policies and other state agendas, the depth of informal institutions, and the degree to which a given state is integrated into the norms of the international system.

Phillips, 2023-03-30 When disaster strikes, our instinctive response is to make things better, not only as individuals but also as groups, organisations, communities and major institutions within society. With increasing climate-related disasters and the potential for future global pandemics, philanthropy will continue to play an essential role. Yet our knowledge of how philanthropic responses to disasters are motivated, organised and received is fragmented. This book is a step toward curating our existing knowledge in the emerging field of ‘disaster philanthropy’ and to building a robust base for future research, practice and public policy. The authors highlight unknowns and ambiguities, extensions and unexplored spaces, and challenges and paradoxes. Above all, they recognise that philanthropic responses to disasters are complex, conditional and subject to change.

Beyond Caring Labour to Provisioning Work offers a powerful new framework for understanding women's work in a holistic sense, acknowledging both their responsibilities in supporting others as well as their employment duties. Beyond Caring Labour to Provisioning Work is based on a four-year, multi-site study of women who are members of contemporary community organizations. The authors reveal the complex ways in which these women define and value their own work, investigating what supports and constrains their individual and collective efforts. Calling on the state to assist more with citizens' provisioning responsibilities, Beyond Caring Labour to Provisioning Work provides an excellent basis for new discussions on equitable and sustainable public policies.
