Early Beginnings (Pre-1950s)

The initial Iranian films were predominantly documentary and newsreel footage, with limited narrative

cinema due to technological and political constraints. Films were often produced for educational purposes, reflecting social realities subtly.

The Golden Age and Political Shifts (1950s–1970s)

The 1950s and 60s saw the rise of commercial cinema, with popular genres such as melodramas and musicals. However, this period also laid the groundwork for more artistic explorations, influenced by Western cinema and local filmmakers experimenting with storytelling.

The 1979 Islamic Revolution marked a turning point, leading to strict censorship but also inspiring filmmakers to develop innovative methods of storytelling. Despite restrictions, this era birthed influential directors like Dariush Mehrjui and Ebrahim Golestan, whose works challenged censorship and reflected social realities.

The Post-Revolution Renaissance (1980s–2000s)

Post-revolution Iran experienced a cinematic renaissance characterized by a focus on social issues, human rights, and spiritual themes. Directors like Abbas Kiarostami, Mohsen Makhmalbaf, and Jafar Panahi emerged as pioneers, gaining international recognition.

film supere irani: *Bombay before Bollywood* Rosie Thomas, 2015-03-01
Traces the development of Indian cinema from the 1920s to the mid-1990s, before "Bollywood" erupted onto the world stage. *Bombay before Bollywood* offers a fresh, alternative look at the history of Indian cinema. Avoiding the conventional focus on India's social and mythological films, Rosie Thomas examines the subaltern genres of the "magic and fighting films"—the fantasy, costume, and stunt films popular in the decades before and immediately after independence. She explores the influence of this other cinema on the big-budget masala films of the 1970s and 1980s, before "Bollywood" erupted onto the world stage in the mid-1990s. Thomas focuses on key moments in this hidden history, including the 1924 fairy fantasy *Gul-e-Bakavali*; the 1933 talkie *Lal-e-Yaman*; the exploits of stunt queen Fearless Nadia; the magical neverlands of *Hatimtai* and *Aladdin* and the *Wonderful Lamp*; and the 1960s stunt capers *Zimbo* and *Khilari*. She includes a detailed ethnographic account of the Bombay film industry of the early 1980s, centering on the beliefs and fantasies of filmmakers themselves with regard to filmmaking and film audiences, and on-the-ground operations of the industry. A welcome addition to the fields of film studies and cultural studies, the book will also

appeal to general readers with an interest in Indian cinema. □ In this powerful account, Rosie Thomas opens out filmic artifacts to an array of dazzling reflections shedding new light on the movement and circulation of popular culture in India. With a remarkable body of research conducted over a period of time, *Bombay before Bollywood* decisively challenges certain assumptions about India, its cinemas, and its audiences. □ □ Ranjani Mazumdar, author of *Bombay Cinema: An Archive of the City* □ This is the archaeology of media performed with intellect, wit, and passion. Rosie Thomas pioneered this field and she remains its most brilliantly iridescent critic and advocate. If only all film studies were this revelatory and this enjoyable! □ Christopher Pinney, author of *Camera Indica: The Social Life of Indian Photographs* □ Rosie Thomas's body of research over the last twenty-five years has set up key discourses in the study of Indian popular cinema. This book brings together her pioneering fieldwork into film industry categories and practices, and her more recent bid to resurrect a history made well-nigh clandestine by official narratives: the significance of Arabian Nights fantasies, stunt films, and visceral attractions in Bombay cinema. Pleasurably crafted and provocatively argued, *Bombay before Bollywood* is an important intervention in Indian and world cinema studies. □ □ Ravi Vasudevan, author of *The Melodramatic Public: Film Form and Spectatorship in Indian Cinema*

dominant language in post-market reform India through the fervent aspirations of non-elites and the zealous reforms of English Language Teaching experts. The most recent spread of English in India has been through low-fee private schools, which are perceived as dubious yet efficient. The book is an ethnography of mothering at one such low-fee private school and its neighboring state-funded school. It demonstrates that political economic transitions, experienced as radical social mobility, fuelled intense desire for English schooling. Rather than English schooling leading to social mobility, new experiences of mobility necessitated English schooling. At the same time, experts have responded to the unanticipated spread of English by transforming it from a second language to a first language, and earlier hierarchies have been produced anew as access to English democratized.

film supere irani: Bombay Hustle Debashree Mukherjee, 2020-09-22 From starry-eyed fans with dreams of fame to cotton entrepreneurs turned movie moguls, the Bombay film industry has historically energized a range of practices and practitioners, playing a crucial and compelling role in the life of modern India. *Bombay Hustle* presents an ambitious history of Indian cinema as a history of material practice, bringing new insights to studies of media, modernity, and the late colonial city. Drawing on original archival research and an innovative transdisciplinary approach, Debashree Mukherjee offers a panoramic portrait of the consolidation of the Bombay film industry during the talkie transition of the 1920s-1940s. In the decades leading up to independence in 1947, Bombay became synonymous with marketplace thrills, industrial strikes, and modernist experimentation. Its burgeoning film industry embodied Bombay's spirit of "hustle," gathering together and spewing out the many different energies and emotions that characterized the city. *Bombay Hustle* examines diverse sites of film production—finance, pre-production paperwork, casting, screenwriting, acting, stunts—to show how speculative excitement jostled against desires for scientific management in an industry premised on the struggle between contingency and control. Mukherjee develops the concept of a "cine-ecology" in order to examine the bodies, technologies, and environments that collectively shaped the production and circulation of cinematic meaning in this time. The book thus brings into view a range of marginalized film workers, their labor and experiences; forgotten film studios, their technical practices and aesthetic visions; and overlooked connections among media practices, geographical particularities, and historical exigencies.
