heated rivalry pdf: *Her Worship* Tom Urbaniak, 2009-03-21 Mississauga is Canada's sixth largest city and its largest suburban municipality. Toronto's upstart western neighbour, with its multicultural population of more than 700,000, is a place not only of endless subdivisions and monotonous industrial parks, wide thoroughfares, and even wider expressways, but also of some distinctive older communities, notable lakefront and riverside parks, and occasionally bold architecture. Hazel McCallion, Mississauga's octogenarian mayor, is a national celebrity and a municipal icon. Head of the city council since 1978, she holds a position with limited formal authority but remains the virtually undisputed - and often feared - leader of this sprawling city. The first full-length study of McCallion's politics and the development of Mississauga, *Her Worship* examines the mayor's shrewd pragmatism and calculated populism. Tom Urbaniak argues that McCallion's executive skills and dynamic personality only partially explain the mayor's dominant and pre-emptive political position. He points also to key historical and geographical factors that contributed to a kind of civic stability - but also to stagnation and missed opportunities - in a place that had once been fraught with political rivalry and heated conflicts over future growth. A fascinating account both of a remarkable public figure and of an area that is emblematic of edge city development in North America, *Her Worship* is a fresh look at municipal governance and politics in rapidly growing communities.

heated rivalry pdf: *Inevitable* Mike Colias, 2025-02-04 A sweeping portrait of the EV transformation and what it means for all of us. The question is no longer if electric vehicles will happen, or even when they'll happen, but how. Veteran automotive reporter Mike Colias takes you inside the transformation in this thoroughly reported profile of the hard pivot in the car business, a \$2 trillion industry undergoing the biggest change in its 120-year history—a change that is already sending ripples across the entire global economy. Colias documents the inevitable shift from pistons to electrons from every angle, taking you inside the boardrooms where executives battle over their EV strategies to take on Tesla and, more recently, emerging Chinese powerhouses such as BYD. He brings you to family-run car dealerships deciding if they'll sell EVs—or sell their businesses. He follows entrepreneurs along lonely stretches of road that will soon need charging stations. He talks to power-train engineers whose skills were once the beating heart of the automotive industry but who now find themselves being replaced by coders. This is an epic exploration that stretches from Detroit to Japan to Germany to China, and from factories in Normal, Illinois, and Haywood County, Tennessee, to a burgeoning mining operation along the shores of California's briny, lithium-rich Salton Sea. *Inevitable* is a deeply enjoyable and smart book that uses masterful storytelling to capture the expanse and dynamism of the transition to electric vehicles in profound detail, bringing to life its seismic effects on everything and everyone.

heated rivalry pdf: *Iron Emperor* Iskander Rehman, 2025-08-31 One of the most enigmatic figures of antiquity, Tiberius lacked the imperial splendour of his great predecessor Augustus and the excesses of many of his successors, and has been overlooked by history. Yet this compelling study offers a portrait of a complex and contradictory man, both emperor and exile, tyrant and recluse. Drawing on a wealth of ancient sources as well as contemporary classical scholarship, Iskander Rehman engages in a nuanced and multidisciplinary examination of Tiberius' philosophical, intellectual and military influences, and the effectiveness of his foreign policy. Analysing key conflicts, Rehman evaluates the reach and efficacy of Rome's grand strategy, applying the lessons of the past to contemporary security challenges and modern global defence policy. The book has a preface written by Sir Peter Stothard, British author, journalist and critic.

heated rivalry pdf: *One New Humanity* Kristin Caynor, Werner Mischke, 2025-04-01 Is Jesus the way to recover our humanity? *One New Humanity* offers a vision of glory that confronts the shame and violence of our world. Drawing insights from early Christians, the global church, social sciences, and Scripture, the authors argue that Ephesians 2:13-17 reveals a social and horizontal dimension to the gospel of Christ: In Christ we gain a new peaceable way of being human. Through this extensive look at the gospel of peace, we discover that Scripture speaks more powerfully than

we often realize to the problems of polarization, alienation, shame, and violence. The gospel offers a way out of the cycles of violence which have entrapped both the church and the world, and opens up a path of true freedom, purpose, and glory in Jesus. One New Humanity offers a fresh framework for Jesus-centered reconciliation; we embody Christ's peace, for the world, near and far.

heated rivalry pdf: Foreign Interventions in Ethnic Conflicts Robert Nalbandov, 2016-04-15 This volume analyzes the successes and failures of foreign interventions in intrastate ethnic wars. Adding value to current research in the fields of international security and conflict resolution, it adopts the unique approach of considering successes of third party actions not by durable peace established in a target country (which is the more traditional approach) but by actual fulfilment of intervention goals and objectives, because multilateral interventions are more likely to achieve success in the pursuit of their goals than unilateral actions. Robert Nalbandov takes in-depth studies of interventions in Chad, Georgia, Somalia and Rwanda and relates them to the main theories of international security - the ethnic security dilemma and the credible commitment problem - to produce a fascinating and valuable volume.

heated rivalry pdf: Conflict Mediation in the Arab World Ibrahim Fraihat, Isak Svensson, 2023-10-30 The Middle East and North Africa region has been plagued with civil wars, international interventions, and increasing militarization, making it one of the most war-affected areas in the world today. Despite numerous mediation processes and initiatives for conflict resolution, most have failed to transform conflicts from war to peace. Seeking to learn from these past efforts and apply new research, Fraihat and Svensson present the first comprehensive approach to mediation in the Arab world, taking on cases from Yemen to Sudan, from Qatar to Palestine, Syria, and beyond. Conflict Mediation in the Arab World focuses on mediation at three different levels of analysis: between countries, between governments and armed actors inside single countries, and between different communities. In applying this holistic method, the editors identify similarities and differences in the conditions for conflict resolution and management. Drawing upon the work of experts in the field with a deep understanding of the increasing complexities and changing dynamics of the region, this volume offers a valuable resource for academics, policy makers, and practitioners interested in conflict resolution and management in the Middle East and North Africa.
