history alive ancient world pdf: Heritage, Culture and Rights Andrea Durbach, Lucas Lixinski, 2017-05-18 Cultural heritage law and its response to human rights principles and practice has gained renewed prominence on the international agenda. The recent conflicts in Syria and Mali, China's use of shipwreck sites and underwater cultural heritage to make territorial claims, and the cultural identities of nations post-conflict highlight this field as an emerging global focus. In addition, it has become a forum for the configuration and contestation of cultural heritage, rights and the broader politics of international law. The manifestation of tensions between heritage and human rights are explored in this volume, in particular in relation to heritage and rights in collaboration and in conflict, and heritage as a tool for rights advocacy. This volume also explores these issues from a distinctively legal standpoint, considering the extent to which the legal tools of international human rights law facilitate or hinder heritage protection. Covering a range of issues across Africa, Asia, Europe, Latin America and Australia, this volume will be of interest to people working in human rights, heritage studies, cultural heritage management and identity politics around the world. 'This book fills an important gap in the literature on heritage and rights and, in particular, human rights law. With articles from leading experts addressing the legal human rights dimensions of cultural heritage protection, it makes a significant contribution to debates over issues

such as 'Why should we safeguard heritage and for whom?' and 'What is the relationship between heritage safeguarding and protecting human rights?'. These are deep questions of profound significance to individuals, communities and even nations around the world and are of increasing urgency today. It critically analyses the relationship between heritage and human rights that can be potentially pernicious as well as mutually reinforcing, placing this analysis within the wider context and with a broad geographical scope with examinations of the heritage/rights relationship in Southeast Asia (Cambodia), China and sub-Saharan Africa.' Dr Janet Blake, Associate Professor in Law, Shahid Beheshti University, Tehran 'Traversing the destruction of mausoleums in Timbuktu to war crimes trial by the International Criminal Court, *Heritage, Culture and Rights* explores the crucial links between human rights and the protection of cultural heritage. The essays are accessible to all viewing the destruction of cultural heritage as a breach of human dignity and identity. Unputdownable.' Professor Gillian Triggs, President of the Australian Human Rights Commission 'This collection of essays by leading scholars, though primarily Australian in origin, is universal in orientation. Ranging from a broad survey of the applicable laws of armed conflict to a detailed consideration of urban design in Southeast Asia, the essays offer significant insights into the relationship between the protection and use of cultural heritage, on one hand, and fundamental human rights, on the other. Ultimately, the mutual reinforcement of the two disciplines of law prevails over carefully-acknowledged tensions between them. Readers at all levels of expertise will find the book of great interest.' Professor James Nafziger, Thomas B Stoel Professor of Law and Director of International Programs at the Willamette University College of Law

history alive ancient world pdf: A Thousand Years of Nonlinear History Manuel De Landa, 2021-09-14 Following in the wake of his groundbreaking work *War in the Age of Intelligent Machines*, Manuel De Landa presents a brilliant, radical synthesis of historical development of the last thousand years. *A Thousand Years of Nonlinear History* sketches the outlines of a renewed materialist philosophy of history in the tradition of Fernand Braudel, Gilles Deleuze, and Félix Guattari, while engaging — in an entirely unprecedented manner — the critical new understanding of material processes derived from the sciences of dynamics. Working against prevailing attitudes that see history merely as the arena of texts, discourses, ideologies, and metaphors, De Landa traces the concrete movements and interplays of matter and energy through human populations in the last millennium. The result is an entirely novel approach to the study of human societies and their always mobile, semi-stable forms, cities, economies, technologies, and languages. De Landa attacks three domains that have given shape to human societies: economics, biology, and linguistics. In each case, De Landa discloses the self-directed processes of matter and energy interacting with the whim and will of human history itself to form a panoramic vision of the West free of rigid teleology and naive notions of progress and, even more important, free of any deterministic source for its urban, institutional, and technological forms. The source of all concrete forms in the West's history, rather, is shown to derive from internal morphogenetic capabilities that lie within the flow of matter—energy itself. A Swerve Edition.

history alive ancient world pdf: Incarnations Sunil Khilnani, 2016-09-20 An entertaining and provocative account of India's past, written by one of the country's leading thinkers For all India's myths, its sea of stories and moral epics, Indian history remains a curiously unpeopled place. In *Incarnations*, Sunil Khilnani fills that space, bringing to life fifty extraordinary men and women who changed both India and the world. Journeying across India in pursuit of their stories—visiting slum temples, ayurvedic call centers, Bollywood studios, textile mills, and Mughal fortresses—Khilnani offers trenchant portraits of emperors, warriors, philosophers, artists, iconoclasts, and entrepreneurs. Some of these historical figures are famous. Some are unjustly forgotten. And all, Khilnani convinces us, are deeply relevant today. As their rich and surprising lives take the reader through twenty-five hundred winding years of Indian and world history, Khilnani brings wit, feeling, historical rigor, and uncommon insight to dilemmas that extend from ancient times to our own. We encounter the Buddha not as the usual beatific icon but as a radical young social critic. We meet the ancient Sanskrit linguist who inspires computer programmers today. We hear the medieval poets, ribald and profound, who mocked rituals and caste and whose voices resonate in contemporary poetry. And we see giants of the twentieth-century Independence movement—among them Mohandas Gandhi; Ambedkar, the Untouchable lawyer turned constitution maker; and the legendary singer M. S. Subbulakshmi—not as cardboard cutouts but as complex and striving human beings. At once a provocative and sophisticated reinterpretation of India's history and an incisive commentary on its present-day conflicts and struggles, *Incarnations* is an authoritative, sweeping, and often moving account of a nation coming into its own.

history alive ancient world pdf: *Art and Crime* Noah Charney, 2009-05-14 Through the use of case examples and careful examination, this book presents the first interdisciplinary essay collection on the study of art crime, and its effect on all aspects of the art world. Contributors discuss art crime subcategories, including vandalism, iconoclasm, forgery, fraud, peace-time theft, war looting, archaeological looting, smuggling, submarine looting, and ransom. The contributors offer insightful analyses coupled with specific practical suggestions to implement in the future to prevent and address art crime. This work is of critical importance to anyone involved in the art world, its trade, study, and security. Art crime has received relatively little attention from those who study art to those who prosecute crimes. Indeed, the general public is not well-aware of the various forms of art crime and its impact on society at large, to say nothing of museums, history, and cultural affairs. And yet it involves a multi-billion dollar legitimate industry, with a conservatively-estimated \$6 billion annual criminal profit. Information about and analysis of art crime is critical to the wide variety of fields involved in the art trade and art preservation, from museums to academia, from auction houses to galleries, from insurance to art law, from policing to security. Since the Second World War, art crime has evolved from a relatively innocuous crime, into the third highest-grossing annual criminal trade worldwide, run primarily by organized crime syndicates, and therefore funding their other enterprises, from the drug and arms trades to terrorism. It is no longer merely the art that is at stake.
