maria celebrates brazil pdf: Diffusion of Good Government Natasha Borges Sugiyama, 2012-12-15 One of the most fundamental questions for social scientists involves diffusion events; simply put, how do ideas spread and why do people embrace them? In Diffusion of Good Government: Social Sector Reforms in Brazil, Natasha Borges Sugiyama examines why innovations spread across political territories and what motivates politicians to adopt them. Sugiyama does so from the vantage point of Brazilian politics, a home to innovative social sector reforms intended to provide the poor with access to state resources. Since the late 1980s, the country has undergone major policy transformations as local governments have gained political, fiscal, and administrative autonomy. For the poor and other vulnerable groups, local politics holds special importance: municipal authorities provide essential basic services necessary for their survival, including social assistance, education, and health care. Brazil, with over 5,000 municipalities with a wide variety of political cultures and degrees of poverty, thus provides ample opportunities to examine the spread of innovative programs to assist such groups. Sugiyama delves into the politics of social sector reforms

by examining the motivations for emulating well-regarded programs. To uncover the mechanisms of diffusion, her analysis contrasts three paradigmatic models for how individuals choose to allocate resources: by advancing political self-interest to gain electoral victories; by pursuing their ideological commitments for social justice; or by seeking to demonstrate adherence to the professional norms of their fields. Drawing on a mixed-method approach that includes extensive field research and statistical analysis on the spread of model programs in education (especially Bolsa Escola, a school grant program) and health (Programa Saúde da Família, a family health program), she concludes that ideological convictions and professional norms were the main reasons why mayors adopted these programs, with electoral incentives playing a negligible role.

maria celebrates brazil pdf: Catholic Missionaries and Their Work with the Poor Albino Barrera, 2018-12-21 This book explores the vital role of faith-based organizations (FBOs) in compensating for the market's and government's inability to provide vital services. Its key theoretical contribution is the notion that poverty is the result of a triadic failure—when markets, government, and civil society become dysfunctional at the same time. Using data on Catholic missionaries' development work, this study presents the various ways by which FBOs mitigate market and government failures in healthcare, education, and social services, and in the process build and strengthen civil society. This study has two main objectives. First, it aims to present an overview of missionaries' development work, evaluating the socioeconomic significance of their faith-based development work. In addition, various comparative advantages and disadvantages have been imputed to FBOs in the religion-development literature, and we assess to what extent missionaries actually exhibit these posited qualities in practice. Second, the groundwork is laid for future religion-development scholars by presenting a theoretical framework and a method for evaluating the role and contributions of FBOs in the larger community. This is an important investigation of contemporary worldwide Christianity and its relationship with development. As such, it will interest scholars of religious studies and missiology, as well as development economics, public service and the political economy.

maria celebrates brazil pdf: The Church and Indigenous Peoples in the Americas Michel Andraos, 2019-01-25 Indigenous and non-Indigenous voices come together in this volume to discuss both the wounds of colonial history and the opportunities for decolonization, reconciliation, and hope in the relationship between the church and Indigenous peoples across the Americas. Scholars and pastoral leaders from Chile, Bolivia, Brazil, Mexico, the United States, and Canada, and Indigenous peoples of Mapuche, Chiquitano, Tzeltal Maya, Oglala Sioux, Mi'kmaw, and Anishinaabe-Ojibwe reflect on the possibility of constructing decolonial theology and pastoral praxis, and on the urgent need for transformation of church structures and old theology. The book opens new horizons for different ways of thinking and acting, and for the emergence of a truly intercultural theology.

maria celebrates brazil pdf: Social Problems Anna Leon-Guerrero, 2010-09-16 With an engaging writing style that has made it a popular choice at both 2- and 4-year schools, the Third Edition of Anna Leon-Guerrero's Social Problems textbook clearly presents contemporary social problems and addresses their consequences while emphasizing community involvement by both individuals and groups to achieve real solutions. With an overarching focus on social inequalities, this proven text provides a platform for discussion that encourages critical thinking through compelling illustrations, boxed features, learning checks, discussion questions, and online learning tools, all designed to inspire hope rather than simply present a disheartening parade of maladies.

maria celebrates brazil pdf: The Palgrave Biographical Encyclopedia of Psychology in Latin America Ana Maria Jacó-Vilela, Hugo Klappenbach, Rubén Ardila, 2023-05-19 This biographical encyclopedia will provide the first comprehensive reference work on leading scholars and professionals who have contributed to the development and institutionalization of psychology in Latin America. The figures biographed will include scholars who have made a significant theoretical contribution to the discipline, as well as, practitioners and those who have contributed to the institutionalization of psychology, through their work in scientific organisations, professional bodies and publications. All persons included are recognized authorities and either natives of, or long-term

maria celebrates brazil pdf: Le dinamiche politiche dei movimenti agrari transnazionali

Marc Edelman, Saturnino M. Jr. Borrás, 2023-08-18 I movimenti agrari transnazionali (MAT) sono organizzazioni, reti, coalizioni e legami di solidarietà tra agricoltori, contadini, pastori e loro alleati, che attraversano i confini nazionali e cercano di influenzare le politiche nazionali e globali. I MAT di oggi hanno contribuito a riformulare un'ampia gamma di dibattiti e pratiche nei campi dello sviluppo internazionale e degli studi sui movimenti agrari e sociali, tra cui la sostenibilità e il cambiamento climatico, i diritti alla terra e la riforma agraria, la sovranità alimentare, l'economia neoliberale e le regole del commercio globale, il controllo delle multinazionali sulla sementi e sulla tecnologia, i diritti umani dei contadini e la parità di genere. In questo volume, Marc Edelman e Saturnino M. Borrás Jr. offrono una rassegna all'avanguardia degli studi sui movimenti agrari transnazionali, una storia sintetica dei MAT dall'inizio del XX secolo a oggi e una guida analitica alla ricerca sui MAT. In *Dinamiche politiche dei movimenti agrari transnazionali*, Edelman e Borrás hanno affrontato un compito difficile: non solo si sono sforzati di fornire informazioni dettagliate su una serie di movimenti agrari transnazionali di cui sappiamo troppo poco, ma hanno anche scavato in profondità nel terreno all'interno di molti di essi, analizzando la loro composizione regionale, di classe e ideologica, le loro relazioni con le ONG e le istituzioni internazionali e il modo in cui hanno affrontato il neoliberismo globale. Non meno importante per un libro che copre un campo così ampio, è un piacere da leggere. (Sidney Tarrow, Cornell University, autore di *The New Transnational Activism*)
