Today S Anandabazar

today s anandabazar: Identity and Experience at the India-Bangladesh Border Debdatta Chowdhury, 2018-06-28 The effects of the partition of India in 1947 have been more far-reaching and complex than the existing partition narratives of violence and separation reveal. The immediacy of the movement of refugees between India and the newly-formed state of Pakistan overshadowed the actual effect of the drawing of the border between the two states. The book is an empirical study of border narratives across the India-Bangladesh border, specifically the West Bengal part of India's border with Bangladesh. It tries to move away from the perpetrator state-victim civilian framework usually used in the studies of marginal people, and looks at the kind of agencies that the border people avail themselves of. Instead of looking at the border as the periphery, the book looks at it as the line of convergence and negotiations—the 'centre of the people' who survive it every day. It shows that various social, political and economic identities converge at the borderland and is modified in unique ways by the spatial specificity of the border—thus, forming a 'border identity' and a 'border consciousness'. Common sense of the civilians and the state machinery (embodied in the border guards) collide, cooperate and effect each other at the borderlands to form this unique spatial consciousness. It is the everyday survival strategies of the border people which aptly reflects this consciousness rather than any universal border theory or state-centric discourses about the borders. A bottom-up approach is of utmost importance in order to understand how a spatially unique area binds diverse other identities into a larger spatial identity of a 'border people'. The book's relevance lies in its attempt to explore such everyday narratives across the Bengal border, while avoiding any major theorising project so as not to choke the potential of such experience-centred insights into the lives of a unique community of people. In that, it contributes towards a study of borders globally, providing potential approaches to understand border people worldwide. Based on detailed field research, this book brings a fresh approach to the study of this border. It will be of interest to researchers in the field of South Asian studies, citizenship, development, governance and border studies.

today s anandabazar: *The Bitter Half* Simon, 2020-12-24 For Sumit, life was on the right track with a successful and promising career ahead, so, little did he expect it to hit him so hard, that it would disrupt normalcy and force him to take a path least traversed. With shattered dreams and no hopes of resuscitation, he collects back those pieces and starts rebuilding everything from scratch in order to recoup his honour and dignity. Alternating between timelines of the past and present, set against the backdrop of Haldia, Rourkela and Mumbai; Simon's debut novel *The Bitter Half : a dichotomy of Trust & Betrayal* is inspired by a set of true events that provides a poignant view into the dark world of a litigant's melancholic sufferings.

today s anandabazar: **Death Served Cold** Sourabh Mukherjee , 2021-08-10 A woman relishes the last cries of her husband on the phone as he is brutally murdered by her lover. A teenager poisons her family for the love of her tutor. A woman driven by greed ruthlessly bludgeons eight members of her family. A beautician gangs up with her lover to rob a house, killing innocent women from three generations of a family. A practising lawyer strangles her lawyer husband with the cord of a mobile charger. A friendly and jovial teacher commits at least six murders over fourteen years in a sleepy town down south. **DEATH SERVED COLD** is a painstakingly researched collection of true, blood-curdling accounts of gruesome murders committed by India's most dangerous women over the last three decades. These stories explore the dark recesses of the female psyche and challenge popular stereotypes by revealing shocking excesses of sadism and aggression rarely associated with women.

today s anandabazar: **The Bengal Conundrum** Sambit Pal, 2021-01-18 The definitive book on the changing political winds in West Bengal, and what it means for local governments fighting the might of the BJP nationwide. In the 2019 Lok Sabha elections, the BJP pulled off an unbelievable feat in Bengal-taking their tally of seats from 2 to 18 and vote share of 17 to 40 per cent in just four

years. What were the reasons behind such a surge in support for the saffron party in the eastern Indian state? In *The Bengal Conundrum*, senior journalist Sambit Pal attempts to explain why a state that was the citadel of Left politics for decades has turned Right in less than 10 years. Documenting the contemporary political history of Bengal, both through written and exclusive first-hand accounts, the author answers how Mamata Banerjee's politics and governance over the past few years set a fertile ground for the combined force of the BJP and the RSS to construct a compelling political narrative in Bengal. As West Bengal grapples with tumultuous times—from the controversy surrounding the National Register of Citizens (NRC) to the economic impact of the COVID-19 pandemic—on the cusp of a crucial election, the BJP and the TMC are rolling their dices to win the strategic battle. Whether Mamata Banerjee wins or loses the 2020 state elections, it remains clear that politics in eastern India has changed irrevocably, and will be experiencing the aftereffects for years to come.

today s anandabazar: *India, in Search of Good Governance* Jayanta Kumar Ray, 2001

today s anandabazar: *Divided Media* Suruchi Mazumdar, 2025-05-20 This book addresses the complex relationship between India's evolving, emerging media landscape, the political and economic interests of diverse media actors, and movements opposing contentious issues such as market-based economic reforms and religious nationalism. Through the complexities of mainstream news media and emerging digital culture in the eastern city of Kolkata, this book foregrounds regional and linguistic variations in the studies of media, movements, and politics in India. By focusing on popular movements against agricultural land acquisition in the state of West Bengal, in 2006 and 2007, and contemporary citizen-led activisms, this book captures the tension between mainstream media's political and commercial logic, movements and digital activisms questioning dominant development and religious nationalist agenda, and the possibilities of political diversity and democratic participation. Situating the study in a multi-hybrid digital space that intimately integrates the old and new media, this book draws on critical, thematic analysis of newspaper coverage, digital qualitative studies of techno-commercial features such as hashtags and viral videos, and extensive interviews. This book proposes the theoretical concept of a hybrid partisan system, and argues that heterogeneity -- the complex, dynamic interaction of commercially-run media's political alliances, the commercial logic, and hybrid professional norms -- remains consequential for movement visibilities, but contributes to deep ambiguities and commonalities in core issues such as industrialization in a developing economy. This book would be relevant to scholars of journalism, political communication, media systems, and mediated activisms in communication studies, sociology, political science, and South Asian studies.

today s anandabazar: *Decolonization in South Asia* Sekhar Bandyopadhyay, 2009-06-03 This book explores the meanings and complexities of India's experience of transition from colonial to the post-colonial period. It focuses on the first five years – from independence on 15th August 1947 to the first general election in January 1952 – in the politics of West Bengal, the new Indian province that was created as a result of the Partition. The author, a specialist on the history of modern India, discusses what freedom actually meant to various individuals, communities and political parties, how they responded to it, how they extended its meaning and how in their anxiety to confront the realities of free India, they began to invent new enemies of their newly acquired freedom. By emphasising the representations of popular mentality rather than the institutional changes brought in by the process of decolonization, he draws attention to other concerns and anxieties that were related to the problems of coming to terms with the newly achieved freedom and the responsibility of devising independent rules of governance that would suit the historic needs of a pluralist nation. *Decolonization in South Asia* analyses the transitional politics of West Bengal in light of recent developments in postcolonial theory on nationalism, treating the 'nation' as a space for contestation, rather than a natural breeding ground for homogeneity in the complex political scenario of post-independence India. It will appeal to academics interested in political science, sociology, social anthropology and cultural and Asian studies.

today s anandabazar: *Political Theology Today* Mitchell Dean, Lotte List, Stefan Schwarzkopf,

2023-02-23 Almost 100 years have passed since Carl Schmitt gave his controversial definition of the sovereign as the one who decides on the exception in his by now classic *Political Theology* (1922). Written at a time of crisis, the book sought to establish the institution of sovereignty, not from within a well-functioning governing machine of the state in a situation of normality, but rather as the minimal condition of state order in the moment of governmental breakdown. The book appeared anachronistic already at its publication. Schmitt went against Max Weber's popular thesis defining secularization as a disenchantment of the world characterizing modern societies, and instead suggested that the concepts of modern politics mirrored a metaphysics originating in Christianity and the church. Nevertheless, the concept of political theology has in recent years seen a revival as a field of research in philosophy as well as political theory, as studies in the theological sub-currents of politics, economics and sociality proliferate.

today s anandabazar: Sport in South Asian Society Boria Majumdar, J A Mangan, 2013-09-13 A detailed study of sports' arrival, spread and advance in colonial and post-colonial South Asia. A selection of articles addresses critical issues of nationalism, communalism, commercialism and gender through the lens of sport. This book makes the point that the social histories of South Asian sport cannot be understood by simply looking at the history of the game in one province or region. Furthermore, it demonstrates that it would be wrong to understand sport in terms of the exigencies of the colonial state. Drawing inspiration from C.L.R. James' well-known epigram, 'What do they know of cricket who only cricket know?' the findings suggest that South Asian sport makes sense only when it is placed within the broader colonial and post-colonial context. The book demonstrates that sport not only influences politics and vice versa, but that the two are inseparable. Sport is not only political, it is politics, intrigue, culture and art. To deny this is to denigrate the position of sport in modern South Asian society. This volume was previously published as a special issue of The International Journal of the History of Sport.

today s anandabazar: Popular Cinema in Bengal Madhuja Mukherjee, Kaustav Bakshi, 2020-06-09 Popular Cinema in Bengal marks a decisive turn in studies of Bengali language cinema by shifting the focus from auteur and text-based studies to exhaustive readings of the film industry. The book covers a wide range of themes and issues, including: generic tropes (like comedy and action); iconic figurations (of the detective and the city); (female) stars such as Kanan Bala, Sadhana Bose and Aparna Sen; intensities of public debates (subjects of high and low cultures, taste, viewership, gender and sexuality); print cultures (including posters, magazines and song-booklets);

cinematic spaces; and trans-media and trans-cultural traffic. By locating cinema within the crosscurrents of geo-political transformations, the book highlights the new and persuasive research that has materialised over the last decade. The authors raise pertinent questions regarding 'regional' cinema as a category, in relation to 'national' cinema models, and trace the non-linear journey of the popular via multiple (media) trajectories. They address subjects of physicality, sexuality and its representations, industrial change, spaces of consumption, and cinema's meandering directions through global circuits and low-end networks. Highlighting the ever-changing contours of cinema in Bengal in all its popular forms and proposing a new historiography, *Popular Cinema in Bengal* will be of great interest to scholars of film studies and South-Asian popular culture. The chapters were originally published in the journal *South Asian History and Culture*.

However, Bengali identity - Bengaliness - is complicated by its long history of evolution, the fact that Bengal is now divided between India and Bangladesh, and by virtue of a very large international diaspora from both parts of Bengal. This book explores a wide range of issues connected with Bengali identity. Amongst other subjects, it considers the special problems arising as a result of the division of Bengal, and concludes by demonstrating that there are many factors which make for the idea of a Bengali identity.
