chapter summary graphic organizer pdf: Hollywood or History Scott L. Roberts, Charles J. Elfer, 2018-07-01 Teaching and learning through Hollywood, or commercial, film productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century. Purposeful and effective instruction through film, however, is not problem-free and there are many challenges that accompany classroom applications of Hollywood motion pictures. In response to the problems and possibilities associated with teaching through film, we have collaboratively developed a collection of practical, classroom-ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms. We believe that film can serve as a powerful tool in the social studies classroom and, where appropriately utilized, foster critical thinking and civic mindedness. The College, Career, and Civic Life (C3) framework, represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking, reading and writing. We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country, the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute. Our hope is that this edited book might play a small role in the larger project of supporting practitioners, specifically K-12 teachers of United States history, by offering a collection of classroom-ready tools based on the Hollywood or History? strategy and designed to foster historical inquiry through the careful use of historically themed motion pictures. The book consists of K-5 and 6-12 lesson plans addressing the following historical eras (Adapted from: UCLA, National Center for History in Schools).

Scheuerell, 2024-07-30 *Students as Historians: Using Technology to Examine Local History Beyond the Classroom* makes a case for using technology to further the research of local history. One example includes Western Missouri on the eve of the Civil War. Part 3 involves design-based research in a social studies classroom where students investigated the history of Mobile, AL during the Civil Rights movement using technology. Throughout the book, the Inquiry Design Model (IDM) is emphasized and implemented.

chapter summary graphic organizer pdf: Hollywood or History? Starlynn R. Nance, 2022-05-01 Teaching with film is not a new approach in the social studies classroom. Different publications, such as *Hollywood or History*, have bridged the gap with challenges attached to using historical film and engage students through inquiry, not entertainment. To continue with the *Hollywood or History* strategy, this text uses television shows (sitcoms) to bring issue-centered curriculum to middle and high school classrooms. By exploring issues in specific episodes, students can learn the history behind an issue, relate it to their lives, and develop an informed decision associated with the issue. The College, Career, and Civic Life (C3) framework is an integral part to the exploration of issue-centered curriculum. In each chapter, the students will work through the four dimensions and develop critical thinking, reading, and writing skills. My hope is that this text can play a small role in walking practicing teachers through the C3 framework while allowing students to learn about issues that affect society and the communities where they live.
