That history includes Madison and Ella Ward, both born in the mid-1800s, married in 1876, and who raised eight children on one acre with one mule. They stood on their Christian faith and believed in God. Through their love and strength of family, they survived the degradation of post-slavery America to prosper and become – six generations later – among the most respected landowners in Alabama. *We Are the Wards!* preserves the Ward family legacy, inspires future generations, and encourages other families to follow their vision. While each generation will be bombarded with new challenges, new value systems, and new lifestyles, families can find success by refusing to compromise their Christian values – just like the Wards.
