one direction calendar 2023: Financial Modelling in Power BI Jonathan Liau, Liam Bastick, 2022-07-28 Just like a shovel, this book is genuinely ground-breaking. It hits you over the head with the proverbial gardening tool, implementing the way forward for financial modelling. Many working in banking and finance create their financial models in Excel and then import them into Power BI for graphical interpretation and further analysis. Not on our watch. We're going to jettison the universal spreadsheet and build the entire model in Power BI. We can't stress how far off the range we're taking the horses. If you are reading this, you are a true pioneer. Some have managed to build the odd financial statement in Power BI, but all three? This is where you can gain a major advantage in the workplace. If you build the calculations for financial statements in Power BI, you can produce statements by product, by customer, by geography... Get the picture? The limitation will be restricted to the granularity of the underlying data and your imagination. This book unearths some of the tricks, measures, logic and tools needed to build the model (there is no need to bury your mistakes). We just can't promise you a rose garden... With the usual jokes in spades, it's just a shame we couldn't get Doug (get it?) to assist.

one direction calendar 2023: Jews and Christians in the Roman World Steve Mason, 2023-07-10 Roman Judaea, Christian origins, and Roman-Judaeian-Christian relations are flourishing fields of endless fascination. Amid the flurry of new research, however, which uses ever new

methods in the humanities and social sciences, basic questions about what happened and how people then understood events are easily obscured. This book argues that a simple but consistent historical method can throw new light – and challenge entrenched views – on such familiar topics as Roman provincial governance, the Jewish War, Flavian politics, Judaea after King Herod, Jewish and Christian historiography, Pharisees and Essenes, John the Baptist, the apostle Paul, and Luke-Acts.

one direction calendar 2023: Lithuanian Society in Transition Laima Zilinskiene, Sigita Kraniauskiene, Melanie Ilic, 2024-12-31 Lithuanian Society in Transition examines the life experiences formed during the process of post-socialist transformation in Lithuania by analysing the peculiarities of the life course of the cohort of young people born between 1980 and 2000. This book considers how various different components of post-Soviet system transformation and more recent events, such as the COVID-19 pandemic, determine youth experiences and how these experiences are reflected in the generations born between 1980 and 2000. It explores how far these generations see themselves as distinct generations with distinctive identities, how far any sense of a distinctive identity is based on political criteria or on technological changes, demography, and lifestyle and how far recent geopolitical events have had an impact on the identities of these younger generations. Drawing on detailed evidence from a corpus of specially commissioned life history interviews, the individual chapters uncover self-reflexive generational identities and set these in the broader context of both specific local generational identities and more global generation identifiers. Offering a rich analysis on social change in a key post-Soviet country following the collapse of communism, this book will be useful for researchers in sociology and social policy, history, Russia and Former Soviet Union, European studies and ethnic studies.
