Smith, Gailene McGhee St.Amand, and Kim Vaz-Deville Since 2004, the Baby Doll Mardi Gras tradition in New Orleans has gone from an obscure, almost forgotten practice to a flourishing cultural force. The original Baby Dolls were groups of black women, and some men, in the early Jim Crow era who adopted New Orleans street masking tradition as a unique form of fun and self-expression against a backdrop of racial discrimination. Wearing short dresses, bloomers, bonnets, and garters with money tucked tight, they strutted, sang ribald songs, chanted, and danced on Mardi Gras Day and on St. Joseph feast night. Today's Baby Dolls continue the tradition of one of the first street women's masking and marching groups in the United States. They joyfully and unabashedly defy gender roles, claiming public space and proclaiming through their performance their right to social citizenship. Essayists draw on interviews, theoretical perspectives, archival material, and historical assessments to describe women's cultural performances that take place on the streets of New Orleans. They recount the history and contemporary resurgence of the Baby Dolls while delving into the larger cultural meaning of the phenomenon. Over 140 color photographs and personal narratives of immersive experiences provide passionate testimony of the impact of the Baby Dolls on their audiences. Fifteen artists offer statements regarding their work documenting and inspired by the tradition as it stimulates their imagination to present a practice that revitalizes the spirit.

sheet music for walking in memphis: And They All Sang Studs Terkel, 2011-05-10 The Pulitzer Prize-winning historian talks with some of twentieth century's most iconic musicians—"Riveting . . . Just about every interview has a revelation" (San Francisco Chronicle). Through the second half of the twentieth century, Studs Terkel hosted the legendary radio show "The Wax Museum," presenting Chicago's music fans with his inimitable take on music of all kinds, from classical, opera, and jazz to gospel, blues, folk, and rock. Featuring more than forty of Terkel's conversations with some of the greatest musicians of the past century, *And They All Sang* is "a tribute to music's universality and power" (Philadelphia Inquirer). Included here are fascinating conversations with Louis Armstrong, Leonard Bernstein, Big Bill Broonzy, Bob Dylan, Dizzy Gillespie, Mahalia Jackson, Janis Joplin, Rosa Raisa, Pete Seeger, and many others. As the esteemed music critic Anthony DeCurtis wrote in the Chicago Tribune, "the terms 'interview' or 'oral history' don't begin to do justice to what Terkel achieves in these conversations, which are at once wildly ambitious and as casual as can be." Whether discussing Enrico Caruso's nervousness on stage with opera diva Edith Mason or the Beatles' 1966 encounter in London with revered Indian sitar player Ravi Shankar, "Terkel's singular gift for bringing his subjects to life in their own words should strike a chord with any music fan old enough to have replaced a worn-out record needle" (The New York Times). "Whether diva or dustbowl balladeer, Studs treats them all alike, with deep knowledge and an intimate, conversational approach . . . as this often remarkable book shows, Studs Terkel has remained mesmerized by great music throughout his life." —The Guardian "[Terkel's] expertise is evident on every page, whether debating the harmonic structure of the spirituals or discerning the subtleties of Keith Jarrett's piano technique . . . As ever, he is the most skillful of interviewers." —The Independent "What makes *And They All Sang* a rousing success isn't just Terkel's phenomenal range and broad knowledge, it's his passionate love of the music and his deep humanity." —San

sheet music for walking in memphis: Lost Sounds Tim Brooks, 2010-10-01 A groundbreaking history of African Americans in the early recording industry, *Lost Sounds* examines the first three decades of sound recording in the United States, charting the surprising roles black artists played in the period leading up to the Jazz Age and the remarkably wide range of black music and culture they preserved. Drawing on more than thirty years of scholarship, Tim Brooks identifies key black recording artists and profiles forty audio pioneers. Brooks assesses the careers and recordings of George W. Johnson, Bert Williams, George Walker, Noble Sissle, Eubie Blake, the Fisk Jubilee Singers, W. C. Handy, James Reese Europe, Wilbur Sweatman, Harry T. Burleigh, Roland Hayes, Booker T. Washington, and boxing champion Jack Johnson, plus a host of lesser-known voices. Many of these pioneers struggled to be heard in an era of rampant discrimination. Their stories detail the forces—black and white—that gradually allowed African Americans to enter the mainstream entertainment industry. *Lost Sounds* includes Brooks's selected discography of CD reissues and an appendix by Dick Spottswood describing early recordings by black artists in the Caribbean and South America.

sheet music for walking in memphis: The Art of the Blues Bill Dahl, 2016-11-01 This stunning book charts the rich history of the blues, through the dazzling array of posters, album covers, and advertisements that have shaped its identity over the past hundred years. The blues have been one of the most ubiquitous but diverse elements of American popular music at large, and the visual art associated with this unique sound has been just as varied and dynamic. There is no better guide to this fascinating graphical world than Bill Dahl—a longtime music journalist and historian who has written liner notes for countless reissues of classic blues, soul, R&B, and rock albums. With his deep knowledge and incisive commentary—complementing more than three hundred and fifty lavishly reproduced images—the history of the blues comes musically and visually to life. What will astonish readers who thumb through these pages is the amazing range of ways that the blues have been represented—whether via album covers, posters, flyers, 78 rpm labels, advertising, or other promotional materials. We see the blues as it was first visually captured in the highly colorful sheet music covers of the early twentieth century. We see striking and hard-to-find label designs from labels big (Columbia) and small (Rhumboogie). We see William Alexander's humorous artwork on postwar Miltone Records; the cherished ephemera of concert and movie posters; and Chess Records' iconic early albums designed by Don Bronstein, which would set a new standard for modern album cover design. What these images collectively portray is the evolution of a distinctively American art form. And they do so in the richest way imaginable. The result is a sumptuous book, a visual treasury as alive in spirit as the music it so vibrantly captures.
