Musical drama of Judy Garland's come-back concerts Christmas 1968: with a six week booking at London's Talk of the Town, it looks like Judy Garland is set firmly on the comeback trail. The failed marriages, the suicide attempts and the addictions are all behind her. At forty-six and with new flame Mickey Deans at her side, she seems determined to carry it off and recapture her magic. But lasting happiness always eludes some people, and there was never any answer to the question with which Judy ended every show: If happy little bluebirds fly beyond the rainbow, why, oh, why, can't I? End of the Rainbow is a savagely funny drama featuring a glorious ensemble of Judy Garland hits and infused with the glamour and the melancholy of stardom. somewhere over the rainbow piano music: David Jason: My Life David Jason, 2013-10-10 Winner of the National Book Awards Autobiography of the Year The long-awaited autobiography of one of Britain's best-loved actors *As seen in David and Jay's Touring Toolshed on BBC Two* Born the son of a Billingsgate market porter at the height of the Second World War, David Jason spent his early life dodging bombs and bullies, both with impish good timing. Giving up on an unloved career as an electrician, he turned his attention to acting and soon, through a natural talent for making

people laugh, found himself working with the leading lights of British comedy in the 1960s and '70s: Eric Idle, Michael Palin, Bob Monkhouse and Ronnie Barker. Barker would become a mentor to David, leading to hugely successful stints in *Porridge* and *Open All Hours*. It wasn't until 1981, kitted out with a sheepskin jacket, a flat cap, and a clapped-out Reliant Regal, that David found the part that would capture the nation's hearts: the beloved Derek 'Del Boy' Trotter in *Only Fools and Horses*. Never a one-trick pony, he had an award-winning spell as TV's favourite detective Jack Frost, took a country jaunt as Pop Larkin in the *Darling Buds of May*, and even voiced a crime-fighting cartoon rodent in the much-loved children's show *Danger Mouse*. But life hasn't all been so easy: from missing out on a key role in *Dad's Army* to nearly drowning in a freak diving accident, David has had his fair share of ups and downs, and has lost some of his nearest and dearest along the way. David's is a touching, funny and warm-hearted story, which charts the course of his incredible five decades at the top of the entertainment business. He's been a shopkeeper and a detective inspector, a crime-fighter and a market trader, and he ain't finished yet. As Del Boy would say, it's all cushy.

somewhere over the rainbow piano music: Harold Arlen and His Songs Walter Frisch, 2024-07-17 *Harold Arlen and His Songs* is the first comprehensive book about the music of one of the great song composers of the twentieth century. Arlen wrote many standards of the American Songbook—including *Get Happy*, *Over the Rainbow*, *Stormy Weather*, *Come Rain or Come Shine*, and *The Man That Got Away* - that today rank among the best known and loved. Author Walter Frisch places these and other songs in the context of a long career that took Arlen from Buffalo, New York; to Harlem's Cotton Club; to Broadway stages; and to the film studios of Hollywood. Even with their complex melodies, harmonies, and formal structures, Arlen's tunes remain accessible and memorable. As Frisch shows, he blended influences from his father's Jewish cantorial tradition, his experience as a jazz arranger and performer, and peers like Gershwin, Kern, and Berlin. Arlen always emphasized the collaborative nature of songwriting, and he worked with the top lyricists of his day, including Ted Koehler, Yip Harburg, Johnny Mercer, and Ira Gershwin. *Harold Arlen and His Songs* is structured around these and Arlen's other partnerships, analyzing individual songs as well as the shows or films in which they appear. The book also treats Arlen's performances of his own music as a vocalist and pianist, through numerous recordings and appearances on radio and television. A final chapter explores the interpretations of his songs by great singers, including many who worked with him, among them Ethel Waters, Lena Horne, Judy Garland, Frank Sinatra, and Ella Fitzgerald.

A fixture of the pop canon, Prince is widely held to be the greatest musician of his generation and will undoubtedly remain an inspiring and singular talent. This meticulously researched biography is the most comprehensive work on Prince yet published. Acclaimed British novelist and critic Matt Thorne draws on years of research and dozens of interviews with Prince's intimate associates (many of whom have never spoken on record before) to examine every phase of the musician's 35-year career, including nearly every song—released and unreleased—that Prince has recorded. Originally released in the UK in 2012, this first US publication of Prince includes updated content detailing the artist's two 2014 albums, tour, 2015 Tidal release, and other career events. I started singing for the joy of singing myself and it helped me carry my recovery beyond the state I was in before I fell ill nine years ago to a level of well-being that I haven't had perhaps for thirty years. This book explores the experiences of people who took part in a vibrant musical community for people experiencing mental health difficulties, SMART (St Mary Abbotts Rehabilitation and Training). Ansdell (a music

therapist/researcher) and DeNora (a music sociologist) describe their long-term ethnographic work with this group, charting the creation and development of a unique music project that won the 2008 Royal Society for Public Health Arts and Health Award. Ansdell and DeNora track the 'musical pathways' of a series of key people within SMART, focusing on changes in health and social status over time in relation to their musical activity. The book includes the voices and perspectives of project members and develops with them a new understanding of how music promotes their health and wellbeing. A contemporary ecological understanding of 'music and change' is outlined, drawing on and further developing theory from music sociology and Community Music Therapy. This innovative book will be of interest to anyone working in the mental health field, but also music therapists, sociologists, musicologists, music educators and ethnomusicologists.
