vbs sign up sheet: VBS Dewald van Rensburg, 2020-10-01 Originally the Venda Building Society, VBS Mutual Bank was a small, little-known lender in Limpopo before it rocketed from obscurity in 2016 by giving President Jacob Zuma a controversial home loan to repay the state for improvements to his Nkandla homestead. The bank was growing rapidly and sold itself as a fearless champion of black advancement. Its main shareholder, Vele Investments, was on a meteoric trajectory towards becoming a financial conglomerate worthy of national attention. When the bank abruptly went into curatorship in March 2018, no one had any reason to doubt that it was just another unfortunate corporate failure. Then the astonishing truth emerged: the collapse of VBS was due to an epic R2-billion fraud that had created Vele's empire out of thin air and left the bank a hollow shell. VBS: A Dream Defrauded unravels the fraud, exploring how suspected mastermind Tshifhiwa Matodzi and his associates first took control of VBS, fed ANC patronage networks and operated under a nationalist mantle endorsed by Venda royalty. The book explains how the bank and its shareholder Vele were seemingly built into a multibillion-rand business, exposes the political machinations that guaranteed VBS up to R3.5 billion in unlawful funding from municipalities and other state institutions, and describes the free-for-all that ensued after the bank's collapse, when all involved tried to cover their tracks. Written by one of the journalists who first broke the story, this book draws on interviews with VBS insiders and other role-players, as well as documents and

detailed forensic evidence collected in the course of two years of investigations. This is a compelling account of a bank heist whose shockwaves continue to haunt the politicians, businessmen and traditional leaders who enabled it.

vbs sign up sheet: The Best VBS Workbook Ever! Lisa Brown, 2017 - Enables organizers to envision and implement a VBS program customized for the local church - Practical, comprehensive, from-the-ground-up approach to VBS Designing a Vacation Bible School program, as opposed to choosing one of the many off-the-shelf packages, is a labor of love. It considers the unique perspective of children and invests accordingly. It's a home-cooked meal compared to fast food. It sends a message to parents that a church values children enough to identify and meet their specific needs in their community at a particular moment in time. Well-designed VBS programs speak to children with respect, love, and patience, offering opportunity for authentic spiritual growth, not to mention an intentional theology that is reflective of the church. Finally, custom-designed VBS programs are a way to fully include children in the mission and ministry of the church rather than confine their unique gifts. This book provides Christian educators with the tools they need to assess the needs and resources in their congregation, and to craft a creative program in response to that assessment. The Best VBS Workbook Ever offers direction and suggestions on theme, structure, logistics, program, activities, staffing and promotion. Audience: Episcopal and other mainline churches looking for something more original and thoughtful than typical pre-packaged VBS programs, Directors of Christian Education, Directors of Children's Ministry, Camps and Retreat Centers, FORMA, Kanuga Christian Education conference, eFormation network

vbs sign up sheet: Just Say Yes! Bishop Robert Schnase, 2015-04-07 Churches say No in a thousand ways to new ideas, ministry initiatives, and creative people. Churches struggle with committees that are no longer conducive to their mission while pastors and laity have become conditioned to view anything new with suspicion and resistance. Churches operate with a pervasive culture of No. Just Say Yes! Unleashing People for Ministry is written for people whose passion has been simmering for years, who yearn to be told Yes! It's for those whose energy and ideas have been tamped down by systems and attitudes that restrain ministry and who have felt frustrated by attempts to start programs, reach new people, or experiment with alternative worship services, only to be told No. Robert Schnase examines the systems and attitudes that restrain and control ministry. He demonstrates practical ways church leaders can rethink fundamental assumptions about organizations and leadership. Real-church examples show how every church can unleash its people for ministry—encouraging, emboldening, and equipping them. "Significant turnaround could happen in churches everywhere if each congregation worked through this book, chapter by chapter." —Sue Nilson Kibbey, Director of the Missional Church Consultation Initiative, West Ohio Conference of The United Methodist Church "Just Say Yes! is a valuable resource for laity and leaders who want to make a real difference in their mission field. I'm making it required reading in every church I coach and work with." —Ken Willard, Certified Consultant and Coach, Leadership 4 Transformation; author, Time Management for the Christian Leader from Abingdon Press "The energy of the Holy Spirit jumps off every page and right into your heart and mind in a way that could make all things new." —Patricia Farris, Senior Pastor, First United Methodist Church, Santa Monica, CA "If we take this book seriously we will see people unleashed for ministry in the world. In the process we may just rediscover why our churches exist in the first place." —Clay Oliphint, Senior Pastor, First United Methodist Church, Richardson, TX "Schnase examines how churches say No, then provides an inspiring and practical look at how they can say Yes. We need this book!" —Steve Harper, Professor of Spiritual Formation (retired); author, Five Marks of a Methodist from Abingdon Press
