This thorough and unique analysis offers new insights into the creation of the quartets, the wealth of musical customs and conventions on which they draw, the scope of their innovations, and their significance as reflections of Haydn's artistic personality. violin halo theme: Todd Solondz Julian Murphet, 2019-08-16 Films like *Welcome to the Dollhouse* and *Happiness* established Todd Solondz as independent cinema's premier satirist. Blending a trademark black humor into atmospheres of grueling bleakness, Solondz repeatedly takes moviegoers into a bland suburban junk space peopled by the damaged, the neglected, and the depraved. Julian Murphet appraises the career of the controversial, if increasingly ignored, indie film auteur. Through close readings and a discussion with the director, Murphet dissects how Solondz's themes and techniques serve stories laden with hot-button topics like pedophilia, rape, and family and systemic cruelty. Solondz's uncompromising return to the same motifs, stylistic choices, and characters reject any idea of aesthetic progression. Instead, he embraces an art of diminishing returns that satirizes the laws of valuation sustaining what we call cinema. It also reflects both Solondz's declining box office fortunes and the changing economics of independent film in an era of financial contraction.

He vibrantly sketches canonical composers such as Schubert, Verdi, and Brahms; gives us in-depth interviews with modern pop masters such as Björk and Radiohead; and introduces us to music students at a Newark high school and indie-rock hipsters in Beijing. Whether his subject is Mozart or Bob Dylan, Ross shows how music expresses the full complexity of the human condition.
