whereas layli long soldier pdf: Overdue Amanda Oliver, 2022-03-22 One part love letter, one part eulogy, *Overdue* tells the story of America's public library system . . . Amanda Oliver proves herself a vibrant new literary voice . . . This is a book for all book lovers. —Reza Aslan, author of *Zealot: The Life and Times of Jesus of Nazareth* When Amanda Oliver began work as a school librarian, fueled by a lifelong love of books and a desire to help, she felt qualified for the job. What she learned was that librarians are expected to serve as mediators and mental-health-crisis support professionals, customer service reps and administrators of overdose treatment, fierce loyalists to institutionalized mythology and enforced silence, and arms of state surveillance. Based on firsthand experiences from six years of professional work as a librarian in high-poverty neighborhoods of Washington, DC, as well as interviews and research, *Overdue* begins with Oliver's first day at Northwest One, the DC Public Library branch where she would ultimately end her library career. Through her experience at this branch, Oliver highlights the national problems that have existed in libraries since they were founded, troublingly at odds with the common romanticization of the library as a shining beacon of equality: racism, segregation, and economic oppression. These fundamental American problems manifest today as police violence, the opioid epidemic, widespread inaccessibility of affordable housing, and a lack of mental health care nationwide—all of which come to a head in public library spaces. Can public librarians continue to play the many roles they are tasked with? Can American society sustain one of its most noble institutions? Libraries will not save us, but Oliver helps us imagine what might be possible if we stop expecting them to.

whereas layli long soldier pdf: The Cambridge Companion to Twenty-First-Century American Poetry Timothy Yu, 2021-03-11 A new poetic century demands a new set of approaches. This Companion shows that American poetry of the twenty-first century, while having important continuities with the poetry of the previous century, takes place in new modes and contexts that require new critical paradigms. Offering a comprehensive introduction to studying the poetry of the new century, this collection highlights the new, multiple centers of gravity that characterize American poetry today. Essays on African American, Asian American, Latinx, and Indigenous poetries respond to the centrality of issues of race and indigeneity in contemporary American discourse. Other essays explore poetry and feminism, poetry and disability, and queer poetics. The

environment, capitalism, and war emerge as poetic preoccupations, alongside a range of styles from spoken word to the avant-garde, and an examination of poetry's place in the creative writing era.

whereas layli long soldier pdf: *The Possibility of America* David Dark, 2019-04-09 Published in the years following 9/11, David Dark's book *The Gospel according to America* warned American Christianity about the false worship that conflates love of country with love of God. It delved deeply into the political divide that had gripped the country and the cultural captivity into which so many American churches had fallen. In our current political season, the problems Dark identified have blossomed. The assessment he brought to these problems and the creative resources for resisting them are now more important than ever. Into this new political landscape and expanding on the analysis of *The Gospel according to America*, Dark offers *The Possibility of America: How the Gospel Can Mend Our God-Blessed, God-Forsaken Land*. Dark expands his vision of a fractured yet redeemable American Christianity, bringing his signature mix of theological, cultural, and political analysis to white supremacy, evangelical surrender, and other problems of the Trump era.

whereas layli long soldier pdf: *Rethinking the North American Long Poem* Ridvan Askin, Julius Greve, 2024-12-15 For centuries, critics, poets, poet-scholars, and philosophers have either openly proclaimed or tacitly assumed the long poem as the highest expression of literary ambition and excellence. *Rethinking the North American Long Poem* focuses on the North American variant of this notorious form—notorious because of its often forbidding and difficult character, particularly with respect to the dialectics of content and form, aesthetics and politics, matter and genre. In nine essays and a contextual introduction, the editors and contributors scrutinize seminal long poems by North American writers, including Walt Whitman's "Song of Myself," Ezra Pound's *The Cantos*, Muriel Rukeyser's *The Book of the Dead*, and Charles Olson's *The Maximus Poems*. They also explore recent efforts that have redefined or reopened the case of the long poem, including Rachel Blau DuPlessis's *Drafts*, M. NourbeSe Philip's *Zong!*, and Claudia Rankine's *Citizen*. Taking the categories of form, matter, and experiment as frames of conceptual reference, the book examines the ways in which material and immaterial aspects of literary practice and the philosophically and politically inscribed duality of experience and experiment are negotiated in and by North American long poems from the nineteenth century to the present.

whereas layli long soldier pdf: *Decolonizing Literature* Anna Bernard, 2023-08-15 Recent efforts to diversify and decentre the literary canon taught at universities have been moderately successful. Yet this expansion of our reading lists is only the start of a broader decolonization of literary studies as a discipline; there is much left to be done. How can students and educators best participate in this urgent intellectual and political project? Anna Bernard argues that the decolonization of literary studies requires a change to not only what, but how, we read. In lively prose, she explores work that has already been done, both within and beyond the academy, and challenges readers to think about where we go from here. She suggests ways to recognize and respond to the political work that texts do, considering questions of language and translation, comparative reading, ideological argument, and genre in relation to the history of anticolonial struggle. Above all, Bernard shows that although we still have far to go, the work of decolonizing literary studies is already under way. *Decolonizing Literature* is a must-have resource for all those concerned by the development and future of the field.

What would a saved planet look like for a Black collective? 'This book is validating and monumental' Courttia Newland 'Sensitive, powerful and necessary' Joycelyn Longdon Globally, Black people are among the most affected by the climate crisis, despite contributing very little to it. For a long time, the crisis was portrayed as yet another injustice for Black people to care about, on top of the day-to-day oppression they face. In *Black Climates*, Selina Nwulu reframes the crisis to encompass our disconnection from each other and the world around us. She argues that the root of climate change lies in historical colonial violence and ongoing exploitation, making it inherently racist. Nwulu, former Young People's Laureate for London, uses her poetic and skilful voice to directly address Black British readers who have been

previously ignored in mainstream environmental conversations. She includes interviews with a wide range of creatives and campaigners to explore a variety of subjects, including air pollution, prison ecology, disability justice, migration, food, nature, community care, and radical imagination. This is an essential and empowering read for anyone who wants to fully understand the connections between Blackness and the climate crisis, providing the tools to envisage more equitable futures.

Finalist, Stubbendieck Great Plains Distinguished Book Prize, 2019. Shortlist, Brooklyn Public Library Literary Prize, 2019. *Our History Is the Future* is at once a work of history, a personal story, and a manifesto. Now available in paperback on the fifth anniversary of its original publication, *Our History Is the Future* features a new afterword by Nick Estes about the rising indigenous campaigns to protect our environment from extractive industries and to shape new ways of relating to one another and the world. In this award-winning book, Estes traces traditions of Indigenous resistance leading to the present campaigns against fossil fuel pipelines, such as the Dakota Access Pipeline Protests, from the days of the Missouri River trading forts through the Indian Wars, the Pick-Sloan dams, the American Indian Movement, and the campaign for Indigenous rights at the United Nations. In 2016, a small protest encampment at the Standing Rock reservation in North Dakota, initially established to block construction of the Dakota Access oil pipeline, grew to be the largest Indigenous protest movement in the twenty-first century, attracting tens of thousands of Indigenous and non-Native allies from around the world. Its slogan “Mni Wiconi”—Water Is Life—was about more than just a pipeline. Water Protectors knew this battle for Native sovereignty had already been fought many times before, and that, even with the encampment gone, their anti-colonial struggle would continue. While a historian by trade, Estes draws on observations from the encampments and from growing up as a citizen of the Oceti Sakowin (the Nation of the Seven Council Fires) and his own family’s rich history of struggle.

whereas layli long soldier pdf: *Settler Memory* Kevin Bruyneel, 2021-10-20 Faint traces of Indigenous people and their histories abound in American media, memory, and myths. Indigeneity often remains absent or invisible, however, especially in contemporary political and intellectual discourse about white supremacy, anti-Blackness, and racism in general. In this ambitious new book, Kevin Bruyneel confronts the chronic displacement of Indigeneity in the politics and discourse around race in American political theory and culture, arguing that the ongoing influence of settler-colonialism has undermined efforts to understand Indigenous politics while also hindering conversation around race itself. By reexamining major episodes, texts, writers, and memories of the political past from the seventeenth century to the present, Bruyneel reveals the power of settler memory at work in the persistent disavowal of Indigeneity. He also shows how Indigenous and Black intellectuals have understood ties between racism and white settler memory, even as the settler dimensions of whiteness are frequently erased in our discourse about race, whether in conflicts over Indian mascotry or the white nationalist underpinnings of Trumpism. Envisioning a new political future, Bruyneel challenges readers to refuse settler memory and consider a third reconstruction that can meaningfully link antiracism and anticolonialism.

whereas layli long soldier pdf: *Mud, Blood, and Ghosts* Julie Carr, 2023-05 2023 Big Other Book Award Nonfiction Finalist Populism has become a global movement associated with nationalism and strong-man politicians, but its root causes remain elusive. *Mud, Blood, and Ghosts* exposes one deep root in the soil of the American Great Plains. Julie Carr traces her own family's history through archival documents to draw connections between U.S. agrarian populism, spiritualism, and eugenics, helping readers to understand populism's tendency toward racism and exclusion. Carr follows the story of her great-grandfather Omer Madison Kem, three-term Populist representative from Nebraska, avid spiritualist, and committed eugenicist, to explore persistent themes in U.S. history: property, personhood, exclusion, and belonging. While recent books have taken seriously the experiences of poor whites in rural America, they haven't traced the story to its

origins. Carr connects Kem's journey with that of America's white establishment and its fury of nativism in the 1920s. Presenting crucial narratives of Indigenous resistance, interracial alliance and betrayal, radical feminism, lifelong hauntings, land policy, debt, shame, grief, and avarice from the Gilded Age through the Progressive Era, Carr asks whether we can embrace the Populists' profound hopes for a just economy while rejecting the barriers they set up around who was considered fully human, fully worthy of this dreamed society.

Jalloul, 2023-03-07 *What Things Cost*: an anthology for the people is the first major anthology of labor writing in nearly a century. Here, editors Rebecca Gayle Howell & Ashley M. Jones bring together more than one hundred contemporary writers singing out from the corners of the 99 Percent, each telling their own truth of today's economy. In his final days, Rev. Dr. Martin Luther King Jr. called for a multiracial coalition of the working poor. King hoped this coalition would become the next civil rights movement but he was assassinated before he could see it emerge as the Poor People's Campaign, now led by Rev. Dr. William J. Barber II and Rev. Dr. Liz Theoharis. King's last lesson—about the dangers of dividing working people—inspired the conversation gathered here by Jones and Howell. Fifty-five years after the assassination of King, *What Things Cost* collects stories that are honest, provocative, and galvanizing, sharing the hidden costs of labor and laboring in the United States of America. Voices such as Sonia Sanchez, Faisal Mohyuddin, Natalie Diaz, Ocean Vuong, Silas House, Sonia Guiñansaca, Reginald Dwayne Betts, Victoria Chang, Crystal Wilkinson, Gerald Stern, and Jericho Brown weave together the living stories of the campaign's broad swath of supporters, creating a literary tapestry that depicts the struggle and solidarity behind the work of building a more just America.

Drawing together Black feminist theory, critical theories of ecology and ecoaesthetics, and Black aesthetics, Cervenak shows how novelists, poets, and visual artists such as Gayl Jones, Toni Morrison, Clementine Hunter, Samiya Bashir, and Leonardo Drew advance an ecological imagination that unsettles Western philosophical ideas of the earth as given to humans. In their aestheticization and conceptualization of gathering, these artists investigate the relationships among art, the environment, home, and forms of Black togetherness. Cervenak argues that by offering a formal and conceptual praxis of gathering, Black artists imagine liberation and alternative ways of being in the world that exist beyond those Enlightenment philosophies that presume Black people and earth as given to enclosure and

whereas layli long soldier pdf: Contested Records Michael Leong, 2020-05-01 Why have so many contemporary poets turned to source material, from newspapers to governmental records, as inspiration for their poetry? How can citational poems offer a means of social engagement? Contested Records analyzes how some of the most well-known twenty-first century North American poets work with fraught documents. Whether it's the legal paperwork detailing the murder of 132 African captives, state transcriptions of the last words of death row inmates, or testimony from miners and rescue workers about a fatal mine disaster, author Michael Leong reveals that much of the power of contemporary poetry rests in its potential to select, adapt, evaluate, and extend public documentation. Examining the use of documents in the works of Kenneth Goldsmith, Vanessa Place, Amiri Baraka, Claudia Rankine, M. NourbeSe Philip, and others, Leong reveals how official records can evoke a wide range of emotions—from hatred to veneration, from indifference to empathy, from desire to disgust. He looks at techniques such as collage, plagiarism, re-reporting, and textual outsourcing, and evaluates some of the most loved—and reviled—contemporary North American poems. Ultimately, Leong finds that if bureaucracy and documentation have the power to police and traumatize through the exercise of state power, then so, too, can document-based poetry function as an unofficial, counterhegemonic, and popular practice that authenticates marginalized experiences at the fringes of our cultural memory.
