interest letter for sorority: Affirming Identity, Advancing Belonging, and Amplifying Voice in Sororities and Fraternities Pietro A. Sasso, Mónica Lee Miranda, J. Patrick Biddix, 2024-04-01 In the wake of the #AbolishGreekLife and other calls for racial justice, the role of identity development also becomes ever increasingly important as we consider how to make the sorority/fraternity more inclusive for our students. In the end, it may really be the power of inclusion on college campuses that leads to many of the educational goals that we yearn for in student growth: the formal and informal social interactions, bonded in reflective learning, that help build social and academic success. In this we can celebrate together, especially those of us who have romanticized so many “bright college years.” This text is a response to a call for existential exploration as an attempt to critically revivify our understanding of the sorority/fraternity experience as it contributes specifically to students’ identity development and learning. The text is grouped around centering their experiences through three A’s: Amplifying Voice, Affirming Identity, and Advancing Belonging to highlight the identity experiences of the diverse spectrum of fraternity and sorority members across the intersections of identity so often excluded from the literature. Chapters in this text attempt to foreground how the fraternity/sorority experience explicitly contributes to these areas of student development across multiple identities including race, ethnicity, culture, gender identity, social class, and ability. Authors critically interrogate systems of oppressions that subjugate marginality from those with intersectional identities to recognize the larger challenges facing the sorority/fraternity movement as an attempt to disrupt these systems to better identify influences on identity development. ENDORSEMENTS Pietro Sasso and associates are leading a game-changing conversation about the impact of fraternity and sorority communal experiences on student identity. Pietro Sasso and the contributing authors of this robust text successfully endeavor to inform practice through critical analysis, framing important questions, and offering pragmatic solutions that are timely, relevant, and practical in both the academy and the fraternal system. This book is a must-read for anyone seeking to understand or have a relevant impact on the intersections of sense of belonging, identity development, and sorority & fraternity life. — Jason L. Meriwether, Campbellsville University In their most recent book examining contemporary sorority and fraternity life, Sasso, Biddix, and Miranda have curated discerning chapters that expand existing scholarship by exploring the impact of fraternity and sorority membership on identity development, belonging, and student voice through critical lenses. This book should be on the bookshelf of all higher education administrators and faculty. — Gavin Henning, New England College

interest letter for sorority: Black Greek-letter Organizations in the Twenty-First Century
Gregory S. Parks, 2008-06-13 During the twentieth century, black Greek-Letter organizations (BGLOs) united college students dedicated to excellence, fostered kinship, and uplifted African Americans. Members of these organizations include remarkable and influential individuals such as Martin Luther King Jr., Congresswoman Barbara Jordan, novelist Toni Morrison, and Wall Street pioneer Reginald F. Lewis. Despite the profound influence of these groups, many now question the continuing relevance of BGLOs, arguing that their golden age has passed. Partly because of their perceived link to hip-hop culture, black fraternities and sororities have been unfairly reduced to a media stereotype—a world of hazing without any real substance. The general public knows very little about BGLOs, and surprisingly the members themselves often do not have a thorough understanding of their history and culture or of the issues currently facing their organizations. To foster a greater engagement with the history and contributions of BGLOs, *Black Greek-Letter Organizations in the Twenty-first Century: Our Fight Has Just Begun* brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs and their members. Editor Gregory S. Parks and the contributing authors provide historical context for the development of BGLOs, exploring their service activities as well as their relationships with other prominent African American institutions. The book examines BGLOs' responses to a number of contemporary issues, including non-black membership, homosexuality within BGLOs, and the perception of BGLOs as educated gangs. As illustrated by the organized response of BGLO members to the racial injustice they observed in Jena, Louisiana, these organizations still have a vital mission. Both internally and externally, BGLOs struggle to forge a relevant identity for the new century. Internally, these groups wrestle with many issues, including hazing, homophobia, petty intergroup competition, and the difficulty of bridging the divide between college and alumni members. Externally, BGLOs face the challenge of rededicating themselves to their communities and leading an aggressive campaign against modern forms of racism, sexism, and other types of fear-driven behavior. By embracing the history of these organizations and exploring their continuing viability and relevance, Black

Greek-Letter Organizations in the Twenty-first Century demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead.
