Lab, 2014-04-29 *Victimology*, 7th Edition, introduces students to the criminal justice system in the United States and its impact on crime victims. Authors William Doerner and Steven Lab provide a fresh look at the theoretical basis of victimology and then present the key facets of crime and its effects. Doerner and Lab challenge students to rethink the current response to crime victims and to develop improved approaches to this costly social issue. Online supplements are available for both professors and students. This breakthrough work provides an organizing structure for the history and current state of the field of victimology, and outlines the reasons compelling a separate focus on crime victims.
