Barbara Ireland,

nyt 36 hours in london: Writing on the Wall Karen B. Stern, 2020-11-03 What ancient graffiti reveals about the everyday lives of Jews in the Greek and Roman world Few direct clues exist to the everyday lives and beliefs of ordinary Jews in antiquity. Prevailing perspectives on ancient Jewish life have been shaped largely by the voices of intellectual and social elites, preserved in the writings of Philo and Josephus and the rabbinic texts of the Mishnah and Talmud. Commissioned art, architecture, and formal inscriptions displayed on tombs and synagogues equally reflect the sensibilities of their influential patrons. The perspectives and sentiments of nonelite Jews, by contrast, have mostly disappeared from the historical record. Focusing on these forgotten Jews of antiquity, Writing on the Wall takes an unprecedented look at the vernacular inscriptions and drawings they left behind and sheds new light on the richness of their quotidian lives. Just like their neighbors throughout the eastern and southern Mediterranean, Mesopotamia, Arabia, and Egypt, ancient Jews scribbled and drew graffiti everywhere—in and around markets, hippodromes, theaters, pagan temples, open cliffs, sanctuaries, and even inside burial caves and synagogues. Karen Stern reveals what these markings tell us about the men and women who made them, people whose lives, beliefs, and behaviors eluded commemoration in grand literary and architectural works. Making compelling analogies with modern graffiti practices, she documents the overlooked connections between Jews and their neighbors, showing how popular Jewish practices of prayer, mortuary commemoration, commerce, and civic engagement regularly crossed ethnic and religious boundaries. Illustrated throughout with examples of ancient graffiti, Writing on the Wall provides a tantalizingly intimate glimpse into the cultural worlds of forgotten populations living at the crossroads of Judaism, Christianity, paganism, and earliest Islam.

nyt 36 hours in london: Stalin's Apologist: Walter Duranty: The New York Times's Man in Moscow S.J. Taylor, 1990-03-29 Short, unattractive, hobbling about Stalin's Moscow on a wooden leg, Walter Duranty was an unlikely candidate for the world's most famous foreign correspondent. Yet for almost twenty years his articles filled the front page of *The New York Times* with gripping coverage of the aftermath of the Russian Revolution. A witty, engaging, impish character with a flamboyant life-style, he was a Pulitzer Prize winner, the individual most credited with helping to win U.S. recognition for the Soviet regime, and the reporter who had predicted the success of the Bolshevik state when all others claimed it was doomed. But, as S.J. Taylor reveals in this provocative biography, Walter Duranty played a key role in perpetrating some of the greatest lies history has ever known. *Stalin's Apologist* deftly unfolds the story of this accomplished but sordid and tragic life. Drawing on sources ranging from newspapers to private letters and journals to interviews with such figures as William Shirer and W. Averell Harriman, Taylor's vivid narrative unveils a figure driven by ambition, whose early success reporting on Bolshevik Russia—he was foremost in predicting Stalin's rise to power—established his international reputation, fed his overconfident contempt for his colleagues, and indeed led him to identify with the Soviet dictator. Thus during the great Ukrainian

famine of the early 1930s, which Stalin engineered to crush millions of peasants who resisted his policies, Duranty dismissed other correspondents' reports of mass starvation and, though secretly aware of the full scale of the horror, effectively reinforced the official cover-up of one of history's greatest man-made disasters. Later, he took the rigged show trials of Stalin's Great Purges at face value, blithely accepting the guilt of the victims. He believed himself the leading expert on the Soviet Union, and his faith in his own insight drew him into a downward spiral of distortions and untruths, typified by his memorable excuse for Stalin's crimes, You can't make an omelet without breaking eggs. Taylor brilliantly captures the full range of Duranty's astonishing life, from his participation in the Satanic orgies of Aleister (the Beast) Crowley, to his dramatic front-line reporting during World War I, to his epic womanizing and heavy drug and alcohol abuse. It is the bitter, ironic story of a man who had the rare opportunity to bring to light the suffering of the millions of Stalin's victims, but remained a prisoner of vanity, self-indulgence, and success.

nyt 36 hours in london: Hidden History of the Korean War I.F. Stone, 2023-05 Proxy wars, it seems, are more openly practiced than ever—and yet one of the worst of these was suppressed and “forgotten” even in its own time. At the height of the McCarthy era and the inception of the Cold War, the great journalist I.F. Stone released *The Hidden History of the Korean War*, a courageous work of investigative journalism that demolished the official story of America’s so-called “forgotten war.” As the war spiraled to its conclusion, Stone closely analyzed openly available U.S. intelligence narratives on the war’s official start, and the actions of key players like John Foster Dulles, General Douglas MacArthur, and Chiang Kai-shek. The result of his investigations was a controversial book that raised questions about the origin of the war, made a case that the U.S. government had manipulated the United Nations, and gave evidence that the U.S. military and South Korean oligarchy dragged out the war by sabotaging peace talks. With a new introduction by Tim Beal and Greg Elich, 70 years after its initial publication *The Hidden History of the Korean War* remains a powerful dissemination of the ‘hidden history’ behind the dominant historical narrative, as relevant as ever.

Spanning a history of over fifty years, *Mass Mediated Disease* focuses on the Spanish influenza pandemic of 1918, the Asian influenza pandemic of 1957, and the Hong Kong influenza pandemic of 1968, by discussing news stories reported by the New York Times, London Times, and other popular magazines. This groundbreaking work demonstrates that the social construction of influenza changed over time, which was reflected by the mass media, and ultimately resulted in public policies that clearly illustrate the link between media and policy formation in the United States. This comprehensive history serves as an example for future incidents involving mass casualties or mass contamination from infectious agents-especially on what to expect, what to do, and what not to do regarding the crisis response, reportage, and resulting policies.

nyt 36 hours in london: **Downtown Mardi Gras** Leslie A. Wade, Robin Roberts, Frank de Caro, 2019-08-01 After Hurricane Katrina devastated New Orleans and the surrounding region in 2005, the city debated whether to press on with Mardi Gras or cancel the parades. Ultimately, they decided to proceed. New Orleans’s recovery certainly has resulted from a complex of factors, but the

city's unique cultural life—perhaps its greatest capital—has been instrumental in bringing the city back from the brink of extinction. Voicing a civic fervor, local writer Chris Rose spoke for the importance of Carnival when he argued to carry on with the celebration of Mardi Gras following Katrina: “We are still New Orleans. We are the soul of America. We embody the triumph of the human spirit. Hell, we ARE Mardi Gras. Since 2006, a number of new Mardi Gras practices have gained prominence. The new parade organizations or krewes, as they are called, interpret and revise the city's Carnival traditions but bring innovative practices to Mardi Gras. The history of each parade reveals the convergence of race, class, age, and gender dynamics in these new Carnival organizations. *Downtown Mardi Gras: New Carnival Practices in Post-Katrina New Orleans* examines six unique, offbeat, Downtown celebrations. Using ethnography, folklore, cultural studies, and performance studies, the authors analyze new Mardi Gras's connection to traditional Mardi Gras. The narrative of each krewe's development is fascinating and unique, illustrating participants' shared desire to contribute to New Orleans's rich and vibrant culture.

Best-selling journalist Antony Loewenstein travels across Afghanistan, Pakistan, Haiti, Papua New Guinea, the United States, Britain, Greece, and Australia to witness the reality of disaster capitalism. He discovers how companies cash in on organized misery in a hidden world of privatized detention centers, militarized private security, aid profiteering, and destructive mining. What emerges through Loewenstein's reporting is a dark history of multinational corporations that, with the aid of media and political elites, have grown more powerful than national governments. In the twenty-first century, the vulnerable have become the world's most valuable commodity.
