study quran pdf: *The Prophet's Heir* Hassan Abbas, 2021-02-23 The life and legacy of one of Mohammad's closest confidants and Islam's patron saint: Ali ibn Abi Talib Ali ibn Abi Talib is arguably the single most important spiritual and intellectual authority in Islam after prophet Mohammad. Through his teachings and leadership as fourth caliph, Ali nourished Islam. But Muslims are divided on whether he was supposed to be Mohammad's political successor—and he continues to be a polarizing figure in Islamic history. Hassan Abbas provides a nuanced, compelling portrait of this towering yet divisive figure and the origins of sectarian division within Islam. Abbas reveals how, after Mohammad, Ali assumed the spiritual mantle of Islam to spearhead the movement that the prophet had led. While Ali's teachings about wisdom, justice, and selflessness continue to be cherished by both Shia and Sunni Muslims, his pluralist ideas have been buried under sectarian agendas and power politics. Today, Abbas argues, Ali's legacy and message stands against that of ISIS, Al-Qaeda, and Taliban.

study quran pdf: *Islam as Education* Aaron J. Ghiloni, 2019-08-01 Motivated by the intellectual historian Shahab Ahmed's observation that "the history of Islamic paideia has yet to be written," *Islam as Education* explores multiple forms that the search for knowledge and the transmission of wisdom have taken in Islam, focusing on the classical period (800–1500 CE). Ghiloni draws on a wide range of Islamic primary source material, ranging from sacred texts and parables to neglected pedagogical literature and paintings. He depicts three Islamic religious practices—pilgrimage, prophecy, and jihad—as modes of pedagogy: embodied ways of defining, defusing, and defending sacred knowledge. *Islam as Education's* educational heuristic not only aids in understanding Islam, but also provides guidance for intercultural and interreligious relations. Ghiloni argues that Islam's grand (knowledge) tradition serves as a bridge between Muslims and non-Muslims, and compares it with the educational theory of John Dewey, the celebrated American pragmatist. Based on this discussion, a final chapter develops practical tools for learning from cultural and religious difference.

study quran pdf: *Juan de Segovia and the Qur'an* Davide Scotto, 2024-09-02 In spring 1456, with the help of the faqih Yça Gidelli, Juan de Segovia accomplished a trilingual Qur'an (Castilian, Arabic and Latin) he regarded as fundamental to the conversion of the Muslims after the Ottoman

conquest of Byzantium. This book delves into Segovia's program, from his university lectures at Salamanca to the disputes held with Muslims in Castile, from the doctrinal debates at the Council of Basel to his exile in the Duchy of Savoy and the destiny of his books. Segovia deemed the await of miracles, preaching in Islamic lands, and the Crusade promoted by the papacy, to be useless. On the contrary, he considered knowledge of the Qur'an as unavoidable for Christian scholars engaged in the study of Islam, but also for Muslims, who were supposed to understand Christian doctrine through their own law. It will be shown how Segovia's proposal is far from echoing modern concerns for religious tolerance, pacifism, and Arabic studies, let alone twentieth-century interreligious dialogue. Drawing on Biblical exegesis, Segovia called his program via pacis et doctrine and discussed it with influential churchmen such as Nicholas of Cusa and Enea Silvio Piccolomini. He believed mutual exchange of doctrinal ideas to be the only solution to stem wars and persuade Muslims to convert voluntarily to the Christian faith.

study quran pdf: Islamic Algorithms Gary R. Bunt, 2024-04-04 This book examines how Islam is digitally mediated at a time of technological change, enhanced digital literacy and proactive engagement in Islamic online content by authorities and influencers. What is the impact of this on societies, believers and understandings of Islam? *Islamic Algorithms* provides a thorough exploration of Cyber Islamic Environments (CIEs) through representations of significant historical and religious influences across contexts and diversities. This ranges from jinn and angels through to contemporary influencers. Gary R. Bunt raises issues of how digital content is embedded in contemporary understandings of Islam and their dissemination. Bunt shows how the interpretation of pivotal figures in Islam – including Muhammad and his family, scholars and imams – can be informed by new generations of digital influences, such as apps and social networking, which have become primary sources of information for many Muslims globally.

study quran pdf: The Idea of European Islam Mohammed Hashas, 2018-07-24 Suspicions about the integration of Islam into European cultures have been steadily on the rise, and dramatically so since 9/11. One reason lies in the visibility of anti-Western Islamic discourses of salafi origin, which have monopolized the debate on the true Islam, not only among Muslims but also in the eyes of the general population across Europe; these discourses combined with Islamophobic discourses reinforce the so-called incompatibility between the West and Islam. This book breaks away from this clash between Islam and the West, by arguing that European Islam is possible. It analyzes the contribution that European Islam has made to the formation of an innovative Islamic theology that is deeply ethicist and modern, and it clarifies how this constructed European Islamic theology is able to contribute to the various debates that are related to secular-liberal democracies of Western Europe. Part I introduces four major projects that defend the idea of European Islam from different disciplines and perspectives: politics, political theology, jurisprudence and philosophy. Part II uses the frameworks from three major philosophers and scholars to approach the idea of European Islam in the context of secular-liberal societies: British scholar George Hourani, Moroccan philosopher Taha Abderrahmane and the American philosopher John Rawls. The book shows that the ongoing efforts of European Muslim thinkers to revisit the concept of citizenship and political community can be seen as a new kind of political theology, in opposition to radical forms of Islamic thinking in some Muslim-majority countries. Opening a new path for examining Islamic thought in and of Europe, this book will appeal to students and scholars of Islamic Studies, Islam in the West and Political Theology.

study quran pdf: *God, Evil, and Suffering in Islam* Salih Sayilgan, 2023-10-26 In this volume, Salih Sayilgan explores the problem of evil and suffering in Islamic theology along with the questions that both religious and non-religious people alike perennially ask: Why is there evil and suffering? What is God's role in both natural and moral evil? If God is loving, just, powerful, why is there innocent suffering? Do humans have free will or are they predestined to act in a certain way? Examining both theoretical and practical theodicy in Islam, he provides Muslim perspectives on natural and moral evil in light of Islamic theological concepts. Sayilgan interrogates several specific topics related to evil and suffering, including death, sickness, aging, disability, climate change, and

pandemics. These topics are explored through case studies from the lives of Muslims, with particular attention given to the American context. A comparative and dialogical study, Sayilgan's volume also engages with Zoroastrian, Hindu, Buddhist, Jewish, and Christian approaches, as well as non-religious perspectives. This title is part of the Flip it Open Programme and may also be available Open Access. Check our website Cambridge Core for details.

study quran pdf: Possessed by the Right Hand Bernard K. Freamon, 2019-05-20 In *Possessed by the Right Hand*, the first comprehensive legal history of slavery in Islam ever offered to readers, Bernard K. Freamon, an African-American Muslim law professor, provides a penetrating analysis of the problems of slavery and slave-trading in Islamic history. After examining the issues from pre-Islamic times through to the nineteenth century, Professor Freamon considers the impact of Western abolitionism, arguing that such efforts have been a failure, with the notion of abolition becoming nothing more than a cruel illusion. He closes this ground-breaking account with an examination of the slaving ideologies and actions of ISIS and Boko Haram, asserting that Muslims now have an important and urgent responsibility to achieve true abolition under the aegis of Islamic law. study quran pdf: *Traditional Islamic Ethics: The Concept of Virtue and its Implications for Contemporary Human Rights* Irfaan Jaffer, 2021-09-07 *Traditional Islamic Ethics: The Concept of Virtue and its Implications for Human Rights* concentrates on the subject of Islam and modernity and Islam and human rights, a topic that has become popular and relevant with the rise of globalization and the interest in Islamic extremism and human rights. This book distinguishes itself by operating within the framework of the traditional school of thought or 'Islamic Traditionalism'. In doing so, it draws on Islam's 1400-year-old spiritual and intellectual tradition and its understanding of ethics and virtue, along with truth, justice, freedom, and equality. This book argues that Islam's pre-modern approach is indispensable in creating an organic and integral human rights model for Muslims. The first section argues that the current understanding and implementation of international human rights needs to be more flexible and inclusive if it truly aims to be universal in scope; this is because 'The Universal Declaration' and its offshoots are still underpinned by secular-liberal principles, and therefore, are at odds with other cultural traditions. To this end, this section critically explores popular human rights histories and contemporary ethical theories that attempt to justify human rights. The second section of this book provides a general overview on the subject of 'Islam and Human Rights'. After explaining some of the main problems, this section examines various solutions offered by Muslim academics and scholars, focusing on four different types of Muslim responses to modernity and human rights: liberal, progressive, traditional, and fundamentalist. It concludes that there are 'spaces of convergence' between modern-liberal ethics and traditional Islamic virtue ethics while maintaining that there are also fundamental differences and that these differences should be welcomed by human rights theorists and advocates. The book's intended audience is primarily post-graduate students and professional academics in the fields of Human Rights, Ethical Philosophy, and Islamic Studies (modern Islamic thought, Sufism, Islamic theology, Islamic Philosophy, and Traditionalism). It will also appeal to anyone interested in the subject of Islam and modernity in general and Islam and human rights in particular.

study quran pdf: *Worldly Wisdom and Foolish Grace* Barbara Carnegie Campbell, 2020-08-07 Rabbi Jesus interpreted the teachings of Torah to his followers. The Prophet Mohammad received a divine revelation centuries later that returned his people to the faith of Abraham. The holy texts of all three Abrahamic faiths, Judaism, Christianity, and Islam, teach compassion, generosity, and nonviolence. While culture and politics often speak one understanding of "wisdom," each of these faith traditions asks very different and difficult behavior of their followers, i.e., loving enemies, showing compassion for all, and giving away wealth to serve the poor; in other words, grace-filled living which the world sees as "foolish." *Worldly Wisdom and Foolish Grace* reflects on ten of the hardest words spoken in Abraham's tent, places "foolish grace" up against "worldly wisdom," and asks us to choose which road to take.

study quran pdf: *Right from Wrong* Mark Alan Smith, 2022-11-15 Where does morality come from? Apologists—people who offer a formal defense of their religion—point to God as the answer. By inspiring scriptures that people can read, study, and teach, God supposedly gave humanity a guidebook for how to live. Award-winning scholar of religion and politics Mark Alan Smith shows the errors in this chain of assumptions. Apologists find themselves forced to accept a book that condemns same-sex love and authorizes slavery, genocide, capital punishment for minor offenses, and many other practices widely recognized today as immoral. Apologists try to protect their worldview by ignoring the offending passages, constructing strained reinterpretations, rationalizing the indefensible, or appealing to God's mysterious ways. Is there a non-religious method for discovering the elements of an objective morality? Yes, Smith argues—the worldview of humanism. Humanists apply reason, logic, and, evidence to all subjects. Smith's humanist approach to morality relies on discussion and debate among diverse participants as the best means to attain a moral code

stripped of the biases of each individual, group, and society. The result is a hopeful portrait of how to build on the moral progress humans have achieved since the writing of religious scriptures

study quran pdf: War and Religion Jolyon Mitchell, Joshua Rey, 2021-03-25 Very Short Introductions: Brilliant, Sharp, Inspiring Is religion a force for war, or a force for peace? Some of the most terrible wars in history have been caused and motivated by religion. Much of the violence that fills our screens today springs from the same source. Yet some of the bravest pacifists have also been deeply religious people, and many of the laws and institutions that work to soften or prevent war have deep religious roots. This Very Short Introduction provides an overview of the history of religion and war, and a framework for analysing it. Ranging from the warrior gods of Ancient Greece and Rome, and the ethical drama of the Mahabharata, through the Islamic wars of conquest and the Crusades, to present day conflicts in Sri Lanka and the Balkans, it considers the entanglement of war and religion. Yet from Just War theory and the restraints on war-making imposed by Islamic jurisprudence, through the Pax Christi of the middle ages, to the non-violence of Gandhi and Bacha Khan; there is also a story to be told of peace and religion as well. Jolyon Mitchell and Joshua Rey consider both sides of the age long drama of war and religion, challenging assumptions at the most fundamental level. Throughout, they encourage a more sophisticated and well-grounded view on these issues that have had such weight in the past, and continue to shape our present and future. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

study quran pdf: Presumed Guilty Todd H. Green, 2018-09-01 All of us should condemn terrorism--whether the perpetrators are Muslim extremists, white supremacists, Marxist revolutionaries, or our own government. But it's time for us to stop asking Muslims to condemn terrorism under the assumption they are guilty of harboring terrorist sympathies or promoting violence until they prove otherwise. Renowned expert on Islamophobia Todd Green shows us how this line of questioning is riddled with false assumptions that say much more about us than them. Green offers three compelling reasons why we should stop asking Muslims to condemn terrorism: 1) The question wrongly assumes Islam is the driving force behind terrorism 2) The question ignores the many ways Muslims already condemn terrorism. 3) The question diverts attention from unjust Western violence. This book is an invitation for self-examination when it comes to the questions we ask of Muslims and ourselves about violence. It will open the door to asking better questions of our Muslim neighbors, questions based not on the presumption of guilt but on the promise of friendship.
