

2023 nsfas application

2023 nsfas application

The National Student Financial Aid Scheme (NSFAS) continues to be a vital component of South Africa's higher education landscape, providing financial assistance to thousands of students pursuing tertiary education. As the 2023 academic year approaches, prospective students are eager to understand the application process, eligibility criteria, and important deadlines associated with NSFAS funding. This comprehensive guide aims to walk applicants through every aspect of the 2023 NSFAS application, ensuring they are well-informed and prepared to secure the necessary financial support to achieve their academic goals.

Understanding NSFAS and Its Importance in 2023

What is NSFAS?

The National Student Financial Aid Scheme (NSFAS) is a government-funded initiative designed to provide financial aid to deserving students who wish to study at public universities and Technical and Vocational Education and Training (TVET) colleges in South Africa. Its primary goal is to eliminate financial barriers that prevent students from accessing higher education.

Why is NSFAS crucial in 2023?

In 2023, NSFAS remains a critical support system amid ongoing economic challenges, rising tuition fees, and the need to promote equitable access to education. The scheme enables thousands of students from disadvantaged backgrounds to realize their academic ambitions, contributing to the country's socio-economic development.

Who Can Apply for NSFAS in 2023?

Eligibility Criteria

To qualify for NSFAS funding in 2023, applicants must meet specific criteria, including:

- South African citizenship or valid refugee status
- Admission to a public university or TVET college for the 2023 academic year

- Financial need based on household income (generally households earning less than R350,000 annually)
- Proof of registration or acceptance at an eligible institution
- Respectable academic performance (varies depending on the level of study and institution)

Additional Considerations

- Applicants must not be currently receiving other bursaries or scholarships that cover the same expenses
- Students enrolled in distance learning or part-time studies may also be eligible, subject to specific conditions
- Previously funded NSFAS students seeking re-funding must meet academic progress requirements

Step-by-Step Guide to the 2023 NSFAS Application Process

1. Prepare Necessary Documents

Before starting the application, gather all required documentation:

- South African ID or passport
- Proof of household income (e.g., payslips, UIF affidavit, or affidavit of household income)
- Acceptance letter or proof of registration from the chosen institution
- Recent academic transcripts or reports (if applicable)
- Contact details and email address

2. Create an NSFAS Account

Applicants must register on the official NSFAS portal:

1. Visit the official NSFAS website at [www.nsfas.org.za](<https://www.nsfas.org.za>)

2. Click on “Register” and fill in personal details
3. Create a secure password and note down login credentials

3. Complete the Online Application Form

Once logged in:

1. Select “Apply for Funding” or similar prompts
2. Fill in all required personal, academic, and household information accurately
3. Upload scanned copies of all supporting documents
4. Review the application carefully before submission

4. Submit the Application and Await Confirmation

After submitting:

- Applicants will receive an acknowledgment email or SMS confirming receipt of their application
- Use the NSFAS portal to track the application status

5. Respond to Any Additional Requests

NSFAS may request additional documentation or clarification:

- Respond promptly to avoid delays
- Attend interviews if required

6. Wait for Funding Approval

The approval process typically takes several weeks:

- Successful applicants will receive notification via email/SMS

- Once approved, students can proceed with registration at their respective institutions

Important Deadlines and Timelines for 2023

Application Opening and Closing Dates

- Application Opening: Usually in September or October 2022 for the upcoming academic year
- Application Closing: Typically around January or February 2023

Note: Applicants should verify exact dates on the official NSFAS website, as deadlines can vary annually.

Key Milestones

- Application Period: October 2022 – February 2023
- Notification of Outcomes: March – April 2023
- Registration and Funding Disbursement: Starting from April/May 2023

Common Challenges and How to Avoid Them

Missing Deadlines

- Ensure timely submission by marking important dates
- Regularly check the NSFAS website and your email for updates

Incomplete or Incorrect Information

- Double-check all entries before submitting
- Upload clear and legible documents

Technical Difficulties

- Use a stable internet connection
- Clear browser cache or try alternative devices if issues occur

Failure to Meet Eligibility Criteria

- Review criteria carefully before applying
- Seek assistance if unsure about your eligibility

Post-Application Steps: What to Expect

Verification and Assessment

NSFAS conducts thorough verification to confirm applicants' eligibility, household income, and academic status.

Funding Allocation

- Successful students will receive a funding agreement
- The scheme covers tuition fees, registration, prescribed books, and accommodation (depending on the funding package)

Disbursement of Funds

- Funds are paid directly to the institution or allocated to the student's account
- Students are responsible for managing their funds responsibly

Maintaining Funding Status

- Students must meet academic progression requirements
- Re-application may be necessary annually for continuous support

Additional Resources and Support

NSFAS Help Desk and Contact Details

- Toll-free helpline: 080 006 7327
- Email: info@nsfas.org.za
- Live chat support via the official website

Guidance and FAQs

- The NSFAS website provides comprehensive FAQs, step-by-step guides, and tutorials
- Social media platforms also serve as channels for updates and assistance

Seeking Assistance

- Consult your institution's financial aid office
- Attend NSFAS information sessions or outreach programs

Conclusion

Applying for NSFAS in 2023 is a straightforward process when approached with proper preparation and awareness of deadlines and requirements. Prospective students should start early, ensure all documentation is complete and accurate, and stay informed through official channels. NSFAS remains a critical enabler of accessible higher education in South Africa, and diligent application increases the chances of securing vital financial aid. With careful planning and timely submission, students can take a significant step toward realizing their academic dreams and contributing meaningfully to their communities and the nation.

Frequently Asked Questions

How can I apply for the 2023 NSFAS funding?

You can apply for the 2023 NSFAS funding online through the official NSFAS website by completing the application form and submitting the required supporting documents before the deadline.

What are the eligibility criteria for NSFAS 2023 applications?

Eligibility criteria include being a South African citizen, studying at a public university or TVET college, and demonstrating financial need. Specific requirements may vary, so check the official NSFAS website for detailed criteria.

When is the deadline to submit the 2023 NSFAS application?

The deadline for the 2023 NSFAS application is typically announced early in the year. For 2023, the deadline was set for [insert specific date], so applicants are advised to apply early to avoid missing out.

How do I check the status of my 2023 NSFAS application?

You can check your application status by logging into your NSFAS account on their official website using your ID number and password. Updates are usually available within a few weeks of application submission.

What documents are required for the 2023 NSFAS application?

Required documents generally include a valid ID, proof of income (such as payslips or a UIF document), a recent academic record, and a student registration letter from your institution. Verify the specific requirements on the NSFAS website.

What should I do if my 2023 NSFAS application is rejected?

If your application is rejected, you can review the reasons provided and consider reapplying if eligible. You may also contact NSFAS support for assistance or to clarify any issues related to your application.

2023 NSFAS Application: A Complete Guide to Navigating South Africa's Student Funding System

As the 2023 academic year approaches, thousands of South African students are preparing to apply for financial aid through the National Student Financial Aid Scheme (NSFAS). Established to promote equitable access to higher education, NSFAS remains a critical resource for students from disadvantaged backgrounds seeking to pursue tertiary education. The 2023 application cycle has garnered significant attention, with prospective applicants eager to understand the process, eligibility criteria, and key deadlines. This article provides a comprehensive, analytical overview of the 2023 NSFAS application, equipping students, parents, and educational institutions with essential insights to navigate this crucial funding opportunity.

Understanding NSFAS: Its Role and Significance

What is NSFAS?

The National Student Financial Aid Scheme (NSFAS) is a government-funded initiative designed to provide financial support to South African students who cannot afford tertiary education. Since its inception in 2010, NSFAS has been instrumental in increasing access to higher education for students from low-income families, thereby promoting social mobility and economic development.

The Importance of NSFAS Funding

NSFAS funding offers several key benefits:

- Tuition Fee Coverage: Covers registration, tuition, accommodation, and prescribed learning materials.
- Debt Relief: Provides a means for students to attend university without the burden of upfront costs.
- Promotion of Equity: Aims to redress historical inequalities by supporting students from marginalized communities.
- Encouraging Higher Education Enrollment: Acts as an incentive for students to pursue tertiary education, which is vital for national skills development.

Evolution and Impact

Over the years, NSFAS has expanded its scope, including support for students across various institutions and programs. Its impact has been evident in increased enrollment figures among underprivileged demographics, although challenges such as funding gaps and application processing delays have periodically surfaced.

The 2023 NSFAS Application Cycle: Key Dates and Processes

Application Timeline

For 2023, the NSFAS application window typically opens in September and closes around January or February of the following year, but applicants are advised to check official channels for precise dates. A typical timeline includes:

- Opening of Applications: September 2022 or early October 2022
- Closing Date: Usually in January or early February 2023
- Assessment and Verification Period: February to March
- Funding Notifications: April to May
- Disbursement of Funds: Starting from May or June

It is crucial for applicants to adhere strictly to deadlines to ensure their applications are processed on time.

The Application Process

The NSFAS application process involves several steps:

1. Registration: Creating an account on the NSFAS online portal.
2. Completing the Application Form: Providing personal, academic, and financial information.
3. Uploading Supporting Documents: Submitting necessary documentation for verification.
4. Submission and Confirmation: Finalizing the application and awaiting confirmation.

Applicants are encouraged to apply early to avoid last-minute issues, especially considering high application volumes.

Eligibility Criteria: Who Can Apply?

Understanding who qualifies is essential before beginning the application process. NSFAS eligibility is primarily based on financial need, academic progress, and institutional enrollment.

Basic Eligibility Requirements

- South African Citizenship: Applicants must be South African citizens or permanent residents.
- Academic Enrollment: Must be accepted or enrolled in a public university, TVET college, or other recognized institutions.
- Financial Means Test: Demonstrate that your household income does not exceed the set threshold (which is often around R350,000 per annum).
- Academic Performance: Maintain satisfactory academic progress as per institution requirements.

- Previously Funded Students: Students who have previously received NSFAS funding are eligible to reapply, provided they meet current criteria.

Additional Considerations

- Students with Disabilities: Eligible for additional support.
- Special Cases: Certain categories, such as orphans or foster children, may have specific provisions.
- Application for Returning Students: Those already funded in previous years need to reapply annually.

Common Disqualifiers

- Students enrolled at private institutions not recognized by NSFAS.
- Those with household incomes exceeding the threshold.
- Students who have already completed a qualification at the same level (e.g., a bachelor's degree if applying for undergraduate funding).

Application Requirements and Supporting Documents

To ensure a smooth application process, applicants should prepare the following documentation:

- South African ID or passport
- Proof of household income (e.g., salary slips, grant letters, or affidavits)
- Acceptance letter or proof of enrollment at the institution
- Academic transcripts or results for current or previous studies
- Proof of residence (if required)
- Medical documentation (for students with disabilities)
- Bank account details for disbursement purposes

Having these documents ready in advance minimizes delays and increases the likelihood of successful application processing.

Challenges and Common Issues in the 2023 Application Cycle

Technical Difficulties and System Overloads

Given the high volume of applications, the NSFAS online portal often experiences crashes or slowdowns, especially during peak periods. Applicants are advised to apply early and ensure stable internet connectivity.

Verification and Documentation Challenges

Some applicants face delays due to incomplete or incorrect documentation. Clear instructions on document uploads and verification processes aim to mitigate these issues, but applicants must double-check their submissions.

Eligibility and Income Verification Discrepancies

Discrepancies between self-reported income and official records can lead to application rejection or need for further verification, causing delays.

Communication Gaps

Applicants sometimes encounter difficulties in tracking application status or receiving updates. Regularly checking the NSFAS portal and official communication channels is recommended.

The Impact of the 2023 NSFAS Application on Students

Increased Access to Higher Education

The 2023 application cycle continues NSFAS's mission to democratize higher education, especially amid economic uncertainties intensified by global factors such as inflation, pandemic aftermaths, and rising living costs.

Promoting Equity and Social Inclusion

By prioritizing marginalized communities and vulnerable students, NSFAS helps bridge the educational gap, fostering a more inclusive academic environment.

Supporting Academic Success

Funding alleviates financial stress, allowing students to focus on their studies, which can lead to improved academic outcomes and higher graduation rates.

Challenges and Opportunities

While NSFAS remains a vital support system, the application process's complexity and capacity issues present ongoing challenges. The government and NSFAS administrators are continually exploring digital innovations and process improvements to enhance service delivery.

Future Outlook: Enhancements and Policy Changes

Digital Transformation Initiatives

In 2023, NSFAS has been investing in technological upgrades to streamline applications, improve user experience, and reduce processing times. Mobile-friendly platforms and real-time application tracking are expected to be further developed.

Policy Reforms

The government has expressed intentions to review income thresholds and eligibility criteria to accommodate more students, especially in the face of economic pressures.

Increased Funding and Support

There are ongoing discussions about increasing NSFAS funding allocations, expanding support for postgraduate students, and integrating bursaries with other social grants.

How to Maximize Your Chances of Success

- Apply Early: Avoid last-minute submissions and system overloads.
- Ensure Accuracy: Carefully fill out all forms and verify information before submission.
- Prepare Documents in Advance: Have all supporting documentation ready and correctly formatted.
- Follow Up: Regularly check your application status via the NSFAS portal.
- Seek Assistance: Reach out to student support services or NSFAS call centers if facing difficulties.
- Stay Informed: Keep abreast of official announcements regarding deadlines, policy changes, and procedural updates.

Conclusion

The 2023 NSFAS application process remains a vital gateway for many South African students aspiring to higher education. While the system continues to evolve through technological improvements and policy adjustments, applicants must remain vigilant and proactive. Understanding the eligibility criteria, preparing requisite documentation, and applying early can significantly enhance the likelihood of securing funding. As South Africa strives to build an inclusive and skilled workforce, NSFAS's role in democratizing access to tertiary education cannot be overstated. Prospective students are encouraged to leverage this opportunity fully and stay informed through official channels to navigate the 2023 NSFAS application landscape successfully.

[2023 Nsfas Application](#)

2023 nsfas application: Academic Quality and Integrity in the New Higher Education Digital Environment Upasana Gitanjali Singh, Chenicheri Sid Nair, Rashmi Watson, 2023-06-13
Academic Quality and Integrity in the New Higher Education Digital Environment: A Global Perspective provides discussions on the work of three editors who have significant experience in the quality assurance of teaching and learning and have been developing approaches during the recent COVID-19 pandemic. Discussions on learning and teaching during the pandemic were concentrated on how academic institutions ensure quality of courses, and that academic integrity is maintained in all assessments in a digital environment, thus ensuring what is being delivered meets global standards and professional bodies have confidence in programs delivered by the higher education sector. The area of quality assurance and academic integrity is thus critical in this new digital environment where significant educational programs will be delivered. - Provides updates on what university administrators are doing to face challenges on how to maintain the quality of their programs during digital learning - Addresses concerns on the quality of their programs and academic integrity is maintained at all times - Proposes new practices and innovative approaches to bring to the attention of stakeholders in a central depository so that there can be informed approaches in institutions and in the set up of regulatory practices

2023 nsfas application: Electronic Government and the Information Systems Perspective Andrea Kö, Enrico Francesconi, Adeleh Asemi, Gabriele Kotsis, A Min Tjoa, Ismail Khalil, 2023-07-28

This book constitutes the proceedings of the 12th International Conference on Electronic Government and the Information Systems Perspective, EGOVIS 2023, which took place in Penang, Malaysia, during August 28-30, 2023. The 8 full papers presented together with 1 short paper were carefully reviewed and selected from a total of 17 submissions. They were organized in topical sections as follows: e-Government; strategy; artificial intelligence.

2023 nsfas application: Finding a moral compass for South Africa JM Vorster, 2023-07-31 The research question of this book reads: Can South Africans, amidst all the contemporary distrust in political leadership and moral decay, find a moral compass that could lead them to a humane society of mutual trust, respect for each other, a flourishing life and a bright future for future generations? This book presents new perspectives on the psychopathology created by colonisation, the failures of the post-1994 dispensation regarding reconciliation, transformation, justice, distorted family life, violence, unity in diversity, as well as moral leadership and agency and indifference to a future of hope. It proposes a new moral compass that can lead South Africa out of the abyss.

2023 nsfas application: Exploring Experiences of University Students with Learning Disabilities Ndakaitei Manase, 2025-03-27 This book examines the experiences of students with learning disabilities in South African higher education, exploring the different factors that shape students' university engagements. Students' experiences, gathered through semi-structured interviews, are analysed within the Capability Approach to assess the way social arrangements influence students with learning disabilities' academic engagements. The book then discusses the ways universities can foster opportunities that contribute to students' multi-dimensional achievements for their academic and general wellbeing. The book exposes inequalities in higher education that impact students with learning disabilities who often operate in inflexible educational systems, practices and standardised learning outcomes that do not take into account the unique ways by which students with learning disabilities process information. The book sheds light on the educational trajectories and conditions which students with learning disabilities operate in.

2023 nsfas application: Rethinking commerce education in South Africa Elsabé Loots , Johan Oberholster , 2023-04-29 This book aims to advance the knowledge on the future of business education in South Africa and to allow all relevant role players (universities and industry) the opportunity to debate and share ideas on how to best position business education to optimally serve the interest of students and the dynamic changes taking place in the world of work. Although some of these changes have taken shape before 2020, the COVID-19 pandemic has accelerated the need and pace for change. If business schools (in our context, faculties of economic and management sciences) do not adapt rapidly, they will be left behind by other up-and-coming industry providers. The research scope covers all business-related undergraduate and postgraduate economics, management and accounting programmes, excluding MBA programmes.

2023 nsfas application: Towards Digitally Transforming Accounting and Business Processes Tankiso Moloi, Babu George, 2024-01-11 This conference volume discusses the findings of the iCAB 2023 conference that took place in Johannesburg, South Africa. The University of Johannesburg (UJ School of Accounting and Johannesburg Business School) in collaboration with Alcorn State University (USA), Salem State University (USA) and Universiti Teknologi Mara (Malaysia) hosted the iCAB 2023 conference with the aim to bring together researchers from different Accounting and Business Management fields to share ideas and discuss how new disruptive technological developments are impacting the field of accounting. The conference was sponsored by the Association of International Certified Professional Accountants AICPA & CIMA.

2023 nsfas application: The Global South and comparative and international education Charl C. Wolhuter , 2023-04-30 This book proposes and unpacks the construct 'Criticism against Northern Hegemony in the scholarly field of Comparative and International Education' as bringing together a number of related strands in the field and as showing a promising future trajectory for the evolution of the field, namely the affirmation of the Global South. This construct captures a significant amount of what leading scholars in the field of Comparative and International Education are currently engaged with. It also expresses a view of both the current epoch of education as well

as of the societal contextual imperatives shaping education. Criticism against Northern Hegemony in the field comes to the fore in a number of related strands in the current discourse in the field. This scholarly book originates from the Research Unit of Human Rights Education in Diversity at North-West University, South Africa, where the author is affiliated. The book is grounded in the Creed for Human Rights. From this perspective, the book advocates for a new phase in the historical development of the field, with a focus on advancing the affirmation of the Global South as a central moral foundation. The author envisions that this shift will represent a significant advancement in Comparative and International Education, propelling it to an unprecedented stage of value and importance.

2023 nsfas application: *Regime and Education in Zimbabwe* Bekithemba Dube, Albert Mufanechiya, 2024-06-10 This collection focuses on the post-independence educational development in Zimbabwe. It shows how the ZANU PF regime has presided over the demise of education, and covers a wide range of topics such as violence against teachers, poor salaries, student activism, minority languages, and curriculum innovations. This volume argues that the regime has used education as a tool for repression. Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners, and more to do with stopping teachers from pushing the regime change agenda. Consequently, this has resulted in a nation in crisis, marked with high turnover, poor economy, and mass exodus of teachers and learners. The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners, as opposed to being used as a tool to push repression and thwart democracy.

2023 nsfas application: *Scholarship Models around the Globe - Embracing Diversity, New Trends and Opportunities* Katherine Meltzoff, Elsa Justino, Ines Casquilho-Martins, 2025-05-14 *Scholarship Models Around the Globe - Embracing Diversity, New Trends and Opportunities* offers a comprehensive exploration of global higher education funding systems and their impact on students' academic journeys and career trajectories. With a focus on equity, inclusion, and the challenges faced by historically marginalized groups, this volume provides insights into diverse scholarship models across different regions. By examining the interplay between financial support and access to higher education, the book highlights both the successes and limitations of various funding initiatives. It explores social mobility, fosters sustainable development, and addresses systemic inequalities while offering policy recommendations for more inclusive and effective programmes. Engaging with comparative case studies from Africa, Latin America, the Middle East, and beyond, this volume is an essential resource for researchers, educators, and policymakers seeking to understand the evolving dynamics of higher education funding. Rich with diverse perspectives, this book highlights emerging trends and innovative practices, making it an essential part of the ongoing conversation on educational equity and the future of global scholarship programs.

2023 nsfas application: *Advancing Student Employability Through Higher Education* Christiansen, Bryan, Even, Angela M., 2024-01-29 The global skills gap and labor market disruptions pose a significant challenge for organizations worldwide. Higher education struggles to bridge the mismatch between skills taught in academia and those demanded by employers, hindering organizations in an era of heightened competition. *Advancing Student Employability Through Higher Education* offers a comprehensive solution to address this issue. Edited by Bryan Christiansen and Angela Even, this publication brings together innovative research and insights from employers and employees, serving as a valuable resource for academic scholars seeking the latest research on employer requirements in an era of increasing global hyper-competition. Covering topics like industry-academia collaboration, educational innovation, learning analytics, and educational artificial intelligence (AI), the book provides practical strategies and innovative approaches to bridge the gap between academic instruction and real-world organizational needs. It equips students with the skills and qualifications necessary to thrive in today's global economy through case studies, online learning effectiveness, and training evaluation. By leveraging the expertise of renowned

scholars and industry practitioners, the book enhances understanding of the intricate dynamics of the workforce. It empowers scholars, graduate students, and higher education professionals to navigate the evolving needs of organizations, fostering success for individuals and organizational growth in an increasingly competitive landscape.

2023 nsfas application: *Higher Education*, 2023-11-02 COVID wrought havoc on the world's economic systems. Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems. Some institutions were prepared for the required transition to online learning. Most were not. Whether prepared or not, educators rose to the challenge. The innovativeness of educators met the challenges as digital learning replaced the face-to-face environment. In fact, some of the distance models proved so engaging that many students no longer desire a return to the face-to-face model. As with all transitions, some things were lost while others were gained. This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century. The book is organized into four sections on "Perils and Promises", "The State of Online Education", "Goals and Challenges of Online Learning" and "Innovations in the Age of COVID". It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process. These discussions shed light on the impact of the pandemic and the future of higher education post-COVID. Higher education has been forever changed, and higher education as it once was may never return. While many questions arise, the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic.

2023 nsfas application: *Corrupted* Jonathan D Jansen, 2023-02 Through investigatory reports and interviews, Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities. He reveals the political economy at work and the intense competition for resources on campuses. He also provides interventions for these fragile institutions. Why do some universities seem to be in a constant state of turmoil and dysfunction? Jonathan Jansen explores the root causes of chronic instability in a sample of South African universities. Through scrutiny of investigatory reports and interviews with more than 100 university managers and government officials, Jansen finds that at the heart of the dysfunction in universities is an intense and sometimes deadly competition for resources especially on campuses located in impoverished communities. It is not the lack of institutional resources but their concentration in a university that draws a mix of corrupt actors from local politicians and taxi operators to members of council and management into a never-ending run on the material (such as money for infrastructure) and symbolic (namely, graduation certificates for sale) assets of these institutions. Jansen argues that the problem won't be solved through investments in 'capacity building' alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities. Jansen makes an important intervention to understanding the root causes and offers interventions to produce stabilities such as the depoliticisation of university councils and appointing academics of integrity and capacity in the management and leadership of these fragile institutions. This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly.

2023 nsfas application: *Creating the New African University*, 2023-05-25 Creating the New African University grapples with the existence of African universities, particularly in post-independent Africa, where Higher Education Institutions (HEIs) are supposed to live up to the expectations of being adaptive in dealing with prevalent complex, dynamic contemporary and future challenges facing African societies. The book tackles the issue of what ought to be done for African universities to maintain a structure and identity that ensures their relevance in Africa's development through generating and transforming knowledge into actions for the common good. It engages issues within the context of how post-colonial transformative obligations have been managed in light

of the prevalent epistemological and pedagogical underpinnings that form the foundations of these universities as they seek to break from the clutches of colonial legacies. This book further highlights an urgent need to do away with silos and embrace a multidisciplinary, interdisciplinary, transdisciplinary and cross-disciplinary dialogical approach towards knowledge generation. Such an approach is essential in efforts aimed at enhancing the sustainable reconfiguration of university structures and functions whilst linking knowledge produced to diverse social, economic and political facets of African societies in ways that promote and sustain competitiveness in a rapidly globalising world beset with technological advancements.

2023 nsfas application: Higher Education and SDG10 Priya Grover, Nidhi Phutela, Pragya Singh, 2025-09-01 This collection of chapters explores the various ways that Higher Education Institutes can address inequality through their core functions of teaching, research, outreach, and engagement.

2023 nsfas application: Examining Corruption and the Sustainable Development Goals Yakubu, Ibrahim Nandom, 2024-03-18 In global development, corruption entangles many societies, most observably in the vulnerable fabric of developing nations. Examining Corruption and the Sustainable Development Goals unravels the layers of this persistent challenge, meticulously examining its pervasive influence on pursuing the United Nations Sustainable Development Goals (SDGs). This book ventures into the heart of corruption's impacts, spanning economic, social, political, and environmental dimensions. Corruption, manifesting in insidious forms such as bribery, embezzlement, and nepotism, casts a daunting shadow over the integrity of public institutions, eroding public trust crucial for sustainable development initiatives. This book explores case studies, robust theoretical frameworks, and insightful policy perspectives. It is tailored for an audience within the academic research community, scholars, researchers, policymakers, and development practitioners thirsty for an understanding of the complex interplay between corruption and sustainable development in the developing world.

2023 nsfas application: Socio-ecological-economic reflections on the impacts of COVID-19 in Africa Willie Chinyamurindi, Philani Moyo, 2025-02-28 This scholarly book magnifies reflections from young scientists in South Africa, Africa and beyond around the COVID-19 pandemic. With contributions by upcoming scientists, this scholarly book provides a synopsis of socio-ecological-economic views on the impact of COVID-19. Through its chapters, the book takes a multi-disciplinary approach to reflecting on what it was like to be a scientist during the COVID-19 pandemic. By doing so, each chapter re-imagines science from the viewpoint of its discipline, offering insights from the perspective of young scientists that could benefit other scholars, academics and policymakers.

2023 nsfas application: Early Career Academics in Educational Research , 2024-12-02 Neoliberal theory on higher education highlights the challenges faced by academics in the new times of academia. Quality-improvement programs and academic accountability mechanisms have been advocated, but the profession's precariousness and stress make early career researchers especially vulnerable. The highly competitive funding environment and increased non-research duties put academics' time and dedication at risk. Early career academics can enhance Sub-Saharan African educational research by contributing effectively to contextually relevant research, collaborating with regional colleagues, and pursuing international collaboration and financing. However, more research is needed to understand the experiences of the new generation of academics and their responses to new performativity criteria. Contributors are: Ikechi Agbugba, Wiets Botes, Darrell de Klerk, Alan Felix, Claire Gaillard, Dean Langeveldt, Bheki Mngomezulu, Thembeke Myende, Amasa Ndofirepi, Ntombikayise Nkosi, Felix Okoye, June Palmer, Doniwen Pietersen, Percy Sepeng, Kevin Teise, Victor Teise and Yusef Waghid.

2023 nsfas application: *Legal pedagogy, practice and curriculum transformation: What does the future hold and look like?* Charles Maimela , 2025-07-18 In an era marked by rapid technological innovation and complex socio-political shifts, legal education stands at a critical crossroads. This timely publication explores the imperative for a curriculum that is both responsive and resilient -

capable of adapting to the evolving needs of students, institutions, and society at large. Blending theoretical analysis with practical insight, the book offers forwardthinking strategies to navigate the multifaceted challenges of curriculum transformation. Drawing on the lived experiences and reflections of law educators across diverse institutions, it provides a unique lens into how curriculum innovation can enhance teaching, learning, and research in the legal academy. More than a commentary, this book is a call to action – a vital resource for educators, academic leaders, and policymakers committed to ensuring the continued relevance, excellence, and social responsiveness of legal education in the 21st century.

2023 nsfas application: Practical Wisdom and Resilience Overcoming Downside Risk

Kazuyo Hanai, Rangarirai Gavin Muchetu, Laban Kithinji Kinyua, Yoichi Mine, 2025-05-24 This book classifies and assesses the real and perceived risks associated with both the Covid-19 pandemic and government responses to it in seven African countries — DR Congo, Kenya, Ethiopia, South Africa, Tanzania, Uganda, and Zimbabwe — based on large scale quantitative and qualitative surveys conducted in 2022-2024. It also elucidates the people's resilience in overcoming the risks within their political, social, and cultural context. Although research on COVID-19 has been conducted in various fields, particularly in the medical field, the analytical perspective of this book is unique. COVID-19 prevention policies are considered to have seriously increased other risks, such as hunger, other infectious diseases, interruption of education, and various types of human rights violations, including increased conflict, violence against civilians, and political abuse. Therefore, this book argues that COVID-19 prevention policies, as well as the pandemic itself, should be regarded as the downside risk that triggers the deterioration of the other potential risks to vulnerable people. Depicted here is the account of how trust in government, community, and family, within the existing political, social, and cultural environment, created pandemic politics, as elections during the pandemic instrumentalized and politicized government prevention measures. Economic distress threatened people's lives more than COVID-19 during lockdowns and severe behavioral restrictions, and the spread of misinformation discouraged people from being vaccinated. This book will be useful to policy makers and practitioners in international society who are preparing for the next pandemic based on the lessons learned from the COVID-19 pandemic.

2023 nsfas application: Online Teaching and Learning in Higher Education

Mariam Akinlolu, Manyane Makua, Nomalungelo Ngubane, 2024-06-03 This edited volume explores current practices in African higher education during and post the global pandemic. It fills a gap in the existing literature by focusing on student engagement and online learning in South Africa and examines how pandemic restrictions amplified pre-existing inequalities within the higher education sector. The book is divided into 3 sections: The first section discusses various methods of instruction and the use of online tools for facilitating learning; succeeded by a section focusing on the resource implications of moving to online learning platforms from a social justice perspective; and finally the last section considers issues and concerns about online assessments and quality assurance. Drawing on lessons from the experiences of South African educators and students during the pandemic, this book provides a knowledge base essential for the effective management of online teaching and learning in Africa. It is intended for academic stakeholders, to develop and engender an improved higher education climate.
