Arizona Dranes (1889-1963) was a true musical innovator whose recordings made for the Okeh label during the years 1926-1928 helped lay the foundations for what would soon be known as gospel music. Her unique blend of ragtime, barrelhouse, and boogie woogie piano plus her exciting and emotional Pentecostal style of singing influenced the development of gospel music for the next forty years and beyond. *The School of Arizona Dranes: Gospel Music Pioneer* covers the life and career of Dranes and situates her accomplishments in the broader history of African American gospel music and the rise of the Pentecostal movement. Starting with the earliest recordings of the music in the late nineteenth century, this book provides a history of African American sacred and gospel music that convincingly demonstrates the revolutionary nature of Dranes's musical accomplishment. Using specific examples, the author traces the far-reaching influence of Arizona Dranes on African American gospel piano playing and singing.

gospel duets male and female: *The Meaning of Soul* Emily J. Lordi, 2020-07-24 In *The Meaning of Soul*, Emily J. Lordi proposes a new understanding of this famously elusive concept. In the 1960s, Lordi argues, soul came to signify a cultural belief in black resilience, which was enacted through musical practices—inventive cover versions, falsetto vocals, ad-libs, and false endings. Through these soul techniques, artists such as Aretha Franklin, Donny Hathaway, Nina Simone, Marvin Gaye, Isaac Hayes, and Minnie Riperton performed virtuosic survivorship and thus helped to

galvanize black communities in an era of peril and promise. Their soul legacies were later reanimated by such stars as Prince, Solange Knowles, and Flying Lotus. Breaking with prior understandings of soul as a vague masculinist political formation tethered to the Black Power movement, Lordi offers a vision of soul that foregrounds the intricacies of musical craft, the complex personal and social meanings of the music, the dynamic movement of soul across time, and the leading role played by black women in this musical-intellectual tradition.

Tribe delivers essays on well-known solo artists such as Charlie Monroe and Mac Odell; country music duos like husband and wife team Joe and Stacy Isaacs or the brotherly duos of The Bailes, Callahan, and Goins brothers; famous and lesser-known sidemen such as fiddlers Tater Tate and Natchee the Indian, or dobro player Speedy Krise; and musical groups such as the enigmatic Coon Creek Girls. This collection represents an important contribution to music studies and spans bluegrass as a genre from its beginnings to the present. Originally built around interviews with these figures and their close associates, these thirty-nine revised articles yield new information from a variety of sources, much from Bear Family boxed sets as well as counsel, advice, and knowledge shared by other music scholars. Tribe's profiles cover musicians and bands that were bluegrass pickers and singers themselves, as well as some musicians who are often characterized as traditional country musicians. Some led bands for all or part of their careers, while others ranked as noted sidemen or band members. Others composed songs that have become popular, indeed often standard, fare in the bluegrass field. As part of the Charles K. Wolfe Music Series, formed in honor of the late music scholar, Folk Music in Overdrive succinctly advances traditional music scholarship and Wolfe's own love of early country and bluegrass.
