jeopardy for middle school fun: These Are Our Bodies, Middle School Leader Guide Jenny Beaumont, Abbi Long, 2016-08-01 Our inherent value and worth comes from God's love for us, but our modern world is filled with sexual expression that too often leads us away from the life of Christ. As Christians seeking to live a life worthy of our calling and desiring to pass along these values to our children and youth, this book explores how we (as parents and adults) can explore issues of sexuality in the context of our faith. A sexuality education resource from a mainline/progressive denominational prospective aids the adult reader/teacher/parent in learning and using skills that enable them to embrace and affirm the wholeness of sexuality and to talk openly and honestly about the connection of sexuality and faith. This book, grounded from a theological perspective, focuses on foundational issues for addressing how we (and why we) are called to have these conversations in a faithful community to support families. The importance of looking at one's sexuality throughout the lifespan through the lenses of decision making, faith and daily life, respect, growth and change, behavior, responsibility, values, prayer, and intentionality is explored, offering a grounding as well as stand-alone resource for individuals and churches to build upon.

jeopardy for middle school fun: Counseling Adolescents Through Loss, Grief, and Trauma Pamela A. Malone, 2016-02-19 Loss, grief, and trauma come into the lives of adolescents in many forms and with more frequency than the adults in their lives may realize. Assessing the depth and nature of their emotions can be difficult; adolescents are typically reluctant to show strong emotions and can be difficult to reach, particularly when they experience the untimely death of a loved one. How best to work with a young person who may have trouble communicating their emotions even under the best of circumstances? And what if he or she has learned about the death of a loved one or classmate from another peer rather than a family member? What about gender differences and the influence of culture and family? What role do cell phones, text messaging, and technologies such as Facebook play in the adolescent grief experience? Adolescents’ use of technology creates unlimited access to friends, support systems, and information, but news that spreads quickly without buffering effects can intensify the strength of the adolescent grief responses. *Counseling Adolescents Through Loss, Grief, and Trauma* not only examines these issues; it also provides clinicians with a wealth of resources and time-tested therapeutic activities that are sure to become an indispensable part of any clinician’s practice.

jeopardy for middle school fun: *Time to Learn* Christopher Gabrieli, Warren Goldstein, 2008-04-25 Across the country, an educational revolution is taking root. Kids are learning more. Teachers are free to teach beyond the test. And parents aren’t worried about what their kids are up to after school. What accounts for this change? The simple answer is, “More time to learn.” The current school day—6 hours and 180 days per year—is obsolete. It fails to provide students with the academic foundations and well-rounded education they need to succeed and thrive in the twenty-first century. The old school day is also out of step with the reality of working families without a stay-at-home parent to manage their children’s after-school time. Using an additional one to two hours, the new school day reworks the schedule so that children can master core academic subjects, receive individualized instruction and tutoring, and be exposed to a broad array of topics such as the arts, music, drama, and sports.

jeopardy for middle school fun: *Bent Not Broken* Landis Graden, 2021-03-29 Landis L. Graden's memoir, "Bent, Not Broken: Crossing Life's Bridges of Tragedy, Trauma, and Triumph", takes an earnest look into how one of the most important moments in his life was affected by the abuse and trauma of his younger years. Wearing a mask of self-doubt and fear for most of his life, Graden starts his journey in this book with a visit to the Obama White House as an invited VIP guest. It is this visit that serves as the catalyst to uncover how generational abuse seeped its way into his adulthood and made him feel like an unworthy imposter. A successful entrepreneur, Graden uses his own stories of hardships and battles to encourage all people, but particularly men who have fallen victim to "strong stereotyping", to lean into the idea of vulnerability and continuous healing. The many personal moments documented throughout the book give stark honesty to how his father laid the foundation very early on for what he thought a strong man was supposed to be. He draws back each layer of what made his father abusive, noting how even his father's foundations had been laid generations before him. This reflective investigation into finding why he felt like an imposter and how to heal ultimately takes Graden into memories of his mother's love, the eventual forgiveness of his father and the babysitter that molested him, and the various relationships and business ventures that were impacted by the traumas he had yet to start to heal from. He discovers that he presents his confidence, success, and ego through his mask that has hidden years of unsifted traumas. Through patience with himself, therapy, and faith, Graden shares his path to healing using vulnerability as his biggest strength in determining what it really means to be a man. The sharing of his stories cultivates messages that in the end bring about conversations on societal expectations of men and how years of abuse and trauma can give even the best and brightest wounds that require healing. Graden's story of overcoming trauma to find wholeness is an inspiration to all, and a call to action for men to access vulnerability to find healing and happiness.
