A scrupulous analysis of five carefully selected novels with methods drawing mostly from the register analysis seeks answers to questions such as: what features are characteristic to the spoken variety of language, how are they woven into the literary language, does the relationship between spoken and written registers change over time and how can this process affect the future development of Persian language?

novels tamil pdf: Criminality and Power in the Postcolonial City Maria Ridda, 2022-11-21 This book investigates the literary imaginings of the postcolonial city through the lens of crime in texts set in Naples and Mumbai from the 1990s to the present. Employing the analogy of a 'black hole,' it posits the discourse on criminality as a way to investigate the contemporary spatial manifestations of coloniality and global capitalist urbanity. Despite their different histories, Mumbai and Naples have remarkable similarities. Both are port cities, 'gateways' to their countries and regional trade networks, and both are marked by extreme wealth and poverty. They are also the sites and symbolic battlegrounds for a wider struggle in which 'the North exploits the South, and the South fights back.' As one of the characters of the novel *The Neapolitan Book of the Dead* puts it, a narrativisation of the underworld allows for a 'discovery of a different city from its forgotten corners.' Crime provides a means to understand the relationship between space and society/culture in a number of cities across the Global South, by tracing a narrative of postcolonial urbanity that exposes the connections between exploitation and the ongoing 'coloniality of power.'
