poems for daughter in law on mother s day: When I Always Wanted Something Carole Glasser Langille, 2008 When I Always Wanted Something is a collection of stories about our inability to see what is right in front of us or deep within us, yet how, despite these blind spots, we try again and again to connect with each other. But so are the glimmers of unexpected joy.

poems for daughter in law on mother s day: Feminist Theory Across Disciplines Shira Wolosky, 2013-05-29 Defying traditional definitions of public and private as gendered terms, and broadening discussion of women's writing in relation to feminist work done in other fields, this study addresses American women's poetry from the seventeenth to late-twentieth century. Engaging the fields of literary criticism, anthropology, psychology, history, political theory, religious culture, cultural studies, and poetics, this study provides entry into some of the founding feminist discussions across disciplines, moving beyond current scholarship to pursue an interpretation of feminism's defining interests and assumptions in the context of women's writing. The author emphasizes and explores how women's writing expresses their active participation in community and civic life, emerging from and shaping a woman's selfhood as constituted through relationships, not only on the personal level, but as forming community commitments. This distinctive formation of the self finds expression in women's voices and other poetic forms of expression, with the aesthetic power of poetry itself bringing different arenas of human experience to bear on each other in mutual interrogation and reflection. Women poets have addressed the public world, directly or through a variety of poetic structures and figures, and in doing so they have defined and expressed specific forms of selfhood engaged in and committed to communal life.

poems for daughter in law on mother s day: Arranged Companions Weijing Lu, 2021-07-22 Questions conventional assumptions about premodern conjugal relationships Although commonly associated with patriarchal oppression, arranged marriages have adapted over the centuries to changing cultural norms and the lived experiences of men and women. In Arranged Companions, historian Weijing Lu chronicles how marital behaviors during the early and High Qing (mid-seventeenth through mid-nineteenth centuries) were informed by rich and complex traditions and mediated by the historical conditions of the period, during which marital affection was celebrated as a basic ingredient of an ideal marriage. Lu finds public representation and private communication of marital affection in personal records, including poetry, biographies, letters, and memoirs. During this unique historical moment, ideals of marital companionship and love came to fruition while social changes also created new tensions for couples and extended families. Offering surprising revelations about conjugal relations during this time of change, Arranged Companions raises provocative questions about the cultural construction of intimacy and the meaning of a "happy marriage."

poems for daughter in law on mother s day: T. S. Eliot and the Mother Matthew Geary, 2021-05-30 The first full-length study on T. S. Eliot and the mother, this book responds to a shortfall in understanding the true importance of Eliot's poet-mother, Charlotte Champe Stearns, to his life and works. In doing so, it radically rethinks Eliot's ambivalence towards women. In a context of mother-son ambivalence (simultaneous feelings of love and hate), it shows how his search for belief and love converged with a developing maternal poetics. Importantly, the chapters combine standard literary critical methods and extensive archival research with innovative feminist, maternal and psychoanalytic theorisations of mother-child relationships, such as those developed by Julia Kristeva, Luce Irigaray, Jessica Benjamin, Jan Campbell and Rozsika Parker. These maternal thinkers emphasise the vital importance and benefit of recognising the pre-Oedipal mother and maternal subjectivity, contrary to traditional, repressive Oedipal models of masculinity. Through this interdisciplinary approach, the chapters look at Eliot's changing representations and articulations of the mother/ mother-child relationship from his very earliest writings through to the later plays. Focus is given to decisive mid-career works: *Ash-Wednesday* (1930), 'Marina' (1930), 'Coriolan' (1931-32) and *The Family Reunion* (1939), as well as to canonical works *The Waste Land* (1922) and *Four Quartets* (1943). Notably, the study draws heavily on the wide range of Eliot materials now available, including the new editions of the complete poems, the complete prose and the volumes of letters, which are transforming our perception of the poet and challenging critical attitudes. The book also gives unprecedented attention to Charlotte Eliot's life and writings and brings her individual female experience and subjectivity to the fore. Significantly, it establishes Charlotte's death in 1929 as a decisive juncture, marking both Eliot's New Life and the apotheosis of the feminine symbolised in *Ash-Wednesday*. Central to this proposition is Geary's new formulation for recognising and examining a maternal poetics, which also compels a new concept of maternal allegory as a modern mode of literary epiphany. *T. S. Eliot and the Mother* reveals the role of the mother and the dynamics of mother-son ambivalence to be far more complicated, enduring, changeable and essential to Eliot's personal, religious and poetic development than previously acknowledged.

poems for daughter in law on mother s day: Heroines of the Qing Binbin Yang, 2016-04-01 *Heroines of the Qing* introduces an array of Chinese women from the eighteenth and nineteenth centuries who were powerful, active subjects of their own lives and who wrote themselves as the heroines of their exemplary stories. Traditionally, "exemplary women" (lienu)—heroic martyrs,

chaste widows, and faithful maidens, for example—were written into official dynastic histories for their unrelenting adherence to female virtue by Confucian family standards. However, despite the rich writing traditions about these women, their lives were often distorted by moral and cultural agendas. Binbin Yang, drawing on interdisciplinary sources, shows how they were able to cross boundaries that were typically closed to women—boundaries not only of gender, but also of knowledge, economic power, political engagement, and ritual and cultural authority. Yang closely examines the rhetorical strategies these “exemplary women” exploited for self-representation in various writing genres and highlights their skillful negotiation with, and appropriation of, the values of female exemplarity for self-empowerment.

poems for daughter in law on mother s day: *Fathers and Sons* Alexander Waugh, 2008-12-10
If there is a literary gene, then the Waugh family most certainly has it—and it clearly seems to be passed down from father to son. The first of the literary Waughs was Arthur, who, when he won the Newdigate Prize for poetry at Oxford in 1888, broke with the family tradition of medicine. He went on to become a distinguished publisher and an immensely influential book columnist. He fathered two sons, Alec and Evelyn, both of whom were to become novelists of note (and whom Arthur, somewhat uneasily, would himself publish); both of whom were to rebel in their own ways against his bedrock Victorianism; and one of whom, Evelyn, was to write a series of immortal novels that will be prized as long as elegance and lethal wit are admired. Evelyn begat, among seven others, Auberon Waugh, who would carry on in the family tradition of literary skill and eccentricity, becoming one of England’s most incorrigibly cantankerous and provocative newspaper columnists, loved and loathed in equal measure. And Auberon begat Alexander, yet another writer in the family, to whom it has fallen to tell this extraordinary tale of four generations of scribbling male Waughs. The result of his labors is *Fathers and Sons*, one of the most unusual works of biographical memoir ever written. In this remarkable history of father-son relationships in his family, Alexander Waugh exposes the fraught dynamics of love and strife that has produced a succession of successful authors. Based on the recollections of his father and on a mine of hitherto unseen documents relating to his grandfather, Evelyn, the book skillfully traces the threads that have linked father to son across a century of war, conflict, turmoil and change. It is at once very, very funny, fearlessly candid and exceptionally moving—a supremely entertaining book that will speak to all fathers and sons, as well as the women who love them.

William Williams immigrated to Virginia and settled in Grayson County. He was the father of three children, one of whom was Thomas (b. ca. 1732-1790). He was the father of six children. One of his descendants was John Williams (1866-1927) who married Mittie Eaton and they eventually moved from Tennessee to Oklahoma. They were the parents of 12 children. Descendants married into the McBroom and Whiteley families. Descendants live in Oklahoma, Texas and other parts of the United States.

poems for daughter in law on mother s day: *Freud and the Far East* Salman Akhtar, 2009
Nigeria, once a resourceful regional power, has been caught in a spiral of economic and political decay. This once-promising nation is now seen as an international pariah, partly as a result of the gross human rights violations of its government, but largely because of the failure to generate a political leadership capable of containing and reversing rather than aggravating the process of

decline. *Union Power in the Nigerian Textile Industry* covers developments in Nigeria during two trying decades of deepening economic and political crisis. It is not, however, an additional tale of decay. It highlights the remarkable progress which has been achieved, in spite of this decline, in industrial adjustment, institution building, and conflict regulation. Gunilla Andrae and Bjorn Beckman follow Nigeria's leading manufacturing sector, the textile industry, from the heyday of the oil boom through successive phases of adjustment and liberalization, suggesting that industrialization is still very much on the African agenda. The focus is on the trade unions, their role in industrial restructuring and their ability to defend workers' interests and rights. *Union Power in the Nigerian Textile Industry* examines the successful institutionalization of a union-based labor regime, defying global trends to the contrary. The authors explore the origins of union power in the national and local political economy, pointing to the mediation between the militant self-organization of the workers and the strategies of state and capital. They draw on extensive field work, interviews with managers, unionists and workers, and massive documentation from internal union sources.

poems for daughter in law on mother s day: Religions of India in Practice Donald S. Lopez, Jr., 2020-07-21 The inaugural volume of Princeton Readings in Religions brings together the work of thirty scholars of the religions of India in a new anthology designed to reshape the ways in which the religious traditions of India are understood. The book contains translations of forty-five works, most of which have never before been available in a Western language. Many of these highlight types of discourse (especially ritual manuals, folktales, and oral narratives) and voices (vernacular, esoteric, domestic, and female) that have not been sufficiently represented in previous anthologies and standard accounts of Indian religions. The selections are drawn from ancient texts, medieval manuscripts, modern pamphlets, and contemporary fieldwork in rural and urban India. They represent every region in South Asia and include Hindu, Buddhist, Jain, Sikh, and Muslim materials. Some are written texts reflecting elite concerns, while others are transcriptions of oral narratives told by nonliterate peasants. Some texts are addressed to a public and pan-Indian audience, others to a limited coterie of initiates in an esoteric sect, and still others are intended for a few women gathered in the courtyard for a household ceremony. The editor has reinforced this diversity by arranging the selections within several overarching themes and categories of discourse (hymns, rituals, narratives, and religious interactions), and encourages us to make our own connections.
