the lorax pdf: Leadership for Sustainability David Dixon, 2022-03-17 Mobilised by the rousing words and protests of Greta Thunberg, young people all over the globe are calling for more action to combat climate change and better protect their futures. Yet they cannot do this alone. They are reliant on people in positions of power to set the necessary changes in motion - and these people include their own school leaders operating within their own local communities. This book is a rallying cry for all schools to unleash their potential to deliver a brighter future for both their pupils and society at large. David Dixon draws on both his doctoral research and his 20 years' experience as a head teacher to set out how school leaders can embed eco-friendly practices in the day-to-day running of their schools that will also contribute to overall school improvement, including that recognised by inspectors. David weaves his guidance around the 'five Cs of sustainability' - captaincy, curriculum, campus, community and connections - to position sustainability as a natural vehicle for developing a type of fully integrated learning ecology and culture for the benefit of all. The book provides a detailed analysis of where we are now in terms of environmental impact, and lays out a road map to help schools move towards more effective eco-friendly provision. It shares practical examples of sustainability in schools and how these contribute to school improvement in the wider, more conventional sense too. Furthermore, each chapter concludes with a series of suggested strategies to encourage further thought and discussions among school stakeholders. Suitable for school leaders, teachers and teacher trainers - in both primary and secondary settings - and for any professionals who work in schools on environmental education or improvement projects.

the lorax pdf: Confronting Animal Exploitation Kim Socha, Sarahjane Blum, 2013-02-14 As animal exploitation increases, animal liberation issues are of growing concern, as seen through the

rise of veganism, academic disciplines devoted to animal issues, and mainstream critiques of factory farms. Yet as the dialogues, debates and books continue to grow, the voices of street level activists--not academics, journalists or vegan chefs--are rarely heard. This volume broadens animal liberation dialogues by offering the arguments, challenges, inspiration and narratives of grassroots activists. The essays show what animal advocacy looks like from a collective of individuals living in and around Minnesota's Twin Cities; the essayists, however, write of issues, both personal and political, that resound on a global scale. This collection provides a platform for rank and file activists to explain why and how they dedicate their time and what is being done for animals on a local level that can translate to global efforts to end animal exploitation.

the lorax pdf: Dr. Seuss Philip Nel, 2005-01-01 Philip Nel takes a fascinating look into the key aspects of Seuss's career - his poetry, politics, art, marketing, and place in the popular imagination. Nel argues convincingly that Dr. Seuss is one of the most influential poets in America. His nonsense verse, like that of Lewis Carroll and Edward Lear, has changed language itself, giving us new words like nerd. And Seuss's famously loopy artistic style - what Nel terms an energetic cartoon surrealism - has been equally important, inspiring artists like filmmaker Tim Burton and illustrator Lane Smith. --from back cover

the lorax pdf: *All That We Say is Ours* Ian Gill, 2022-04-02 Haida Gwaii, the ancient territory of the Haida people, is a West Coast archipelago famous for its wild beauty and rich species diversity. But that natural bounty, since European contact, has also been a magnet for industry. In the mid-1970s, the Haida rallied with environmentalists to end the rapacious logging of their monumental old-growth forests—and to reassert their title and rights to their homeland. Combining first-person accounts with his own vivid prose, Ian Gill traces the struggle from its early days. The battle became epic, stretching from the backwoods of British Columbia to the front benches of Canada's parliament and uniting a colourful cast of characters. There were many setbacks, but also amazing victories, including the creation of Gwaii Haanas, a world-renowned protected area, and landmark legal decisions. Perhaps the fiercest champion of the Haida's visionary new stewardship ethic has been Guujaaw—artist, orator, strategist and four-term president of the Council of the Haida Nation. In 2004, the Haida laid claim to their entire traditional territory: the land, seabed and waters of Haida Gwaii. It was an audacious move, and one that set a benchmark for indigenous rights around the world. In telling this incredible story of political and cultural renaissance, Ian Gill has crafted a gripping, multilayered narrative with far-reaching reverberations.
