original essays on Virginia Woolf by leading scholars in the field opens up new debates on the work of one of the foremost modernists of the 20th century. The collection also looks at some of Woolf's own essays, discussing her theory of fiction and devotion to 'stream of consciousness' writing. virginia woolf lighthouse pdf: Virginia Woolf as a Process-Oriented Thinker Veronika Krajícková, 2023-10-02 Virginia Woolf as a Process-Oriented Thinker: Parallels Between Woolf's Fiction and Process Philosophy introduces Virginia Woolf as a nondualist and process-oriented thinker whose ideas are, despite no direct influence, strikingly similar to those of Alfred North Whitehead. Veronika Krajícková argues that in their respective fields, literature and philosophy, Woolf and Whitehead both criticized the materialist turn of their time and attempted to reattribute importance to experience and undermine long-rooted dualisms such as subject and object, the animate and the inanimate, the human and the nonhuman, or the self and the other. By erasing the gaps between these dualities, the two thinkers anticipated the poststructuralist thought with which Woolf has been anachronically associated in the last decades. Krajícková shows that there is no need to analyze Woolf's fiction via critical and philosophical theories that developed much later. This book demonstrates that Woolf and Whitehead's ideas may help us adopt more ecologically friendly, selfless, intersubjective, and harmless modes of being in the present day. Both figures emphasize the intrinsic value and importance of each constituent of reality and teach us to appreciate the aesthetic values dispersed throughout our environment.

virginia woolf lighthouse pdf: Phenomenology and Cultural Difference in High Modernism Maria-Ana Tupan, 2023-05-16 Born at the intersection of literary analysis and cultural history, the present book collects evidence in support of the idea that, far from being decadent, in the sense of perverse pursuit of gratuitous refinement and aesthetic relief from historical apathy, the art at the turn of the twentieth century was energised by a desire for meaningful form, grounded in current epistemology, especially of the science *maîtresse* of the time, psychology, and other kindred disciplines – psychological phenomenology and phenomenological existentialism. The circle of influencers has been broadened to include figures of the latter half of the nineteenth century and the beginning of the twentieth, such as Washington Allston, H. L. Mansel, Wilhelm Wundt, Alexander Bain, Alfred Binet, Alfred Adler, and Sándor Ferenczi, whose shadows are shown to be looming behind modernist texts by T. S. Eliot, James Joyce, Virginia Woolf, Thomas Wolfe, Wallace Stevens, T. E. Hulme, Flann O'Brien, Mircea Eliade, amongst others. A less-discussed subject, literary genre in modernism, is redefined in light of psychology-based modernist aesthetics.

virginia woolf lighthouse pdf: Virginia Woolf and the Age of Listening | Virginia Woolf à l'ère de l'écoute Adèle Cassigneul, Anne-Marie Smith-Di Biasio, 2025-04-24 Listening was the spirit of the age, as the invention of psychoanalysis and of radio marked the turn of the twentieth-century. Virginia Woolf and the Age of Listening brings together contributions which tune into that acoustic quality at once present in Woolf's time, in her texts and in the readings which here echo those very listening techniques. Indeed, the listening mind as a reading surface for the receptivity and reconstruction of sound waves embodies a shift which informs the thinking of many chapters in this volume. In their attention to listeners in the text and to those who make up the work of reception, in both English and French these readings consider Woolf's oeuvre as an echo chamber reverberating with intertextual echoes in a multi-layered representational network. They form a constellation of answers to the call of the Age of Listening.

virginia woolf lighthouse pdf: Modern European Intellectual History David Galaty, 2022-01-27 This non-technical introduction to modern European intellectual history traces the evolution of ideas in Europe from the turn of the 19th century to the modern day. Placing particular emphasis on the huge technological and scientific change that has taken place over the last two centuries, David Galaty shows how intellectual life has been driven by the conditions and problems posed by this world of technology. In everything from theories of beauty to studies in metaphysics, the technologically-based modern world has stimulated a host of competing theories and intellectual systems, often built around the opposing notions of 'the power of the individual' versus collectivist ideals like community, nation, tradition and transcendent experience. In an accessible, jargon-free style, *Modern European Intellectual History* unpicks these debates and historically analyses how thought has developed in Europe since the time of the French Revolution. Among other topics, the book explores: * The Kantian Revolution * Feminism and the Suffrage Movement * Socialism and Marxism * Nationalism * Structuralism * Quantum theory * Developments in the Arts * Postmodernism * Big Data and the Cyber Century Highly illustrated with 80 images and 10 tables, and further supported by an online Instructor's Guide, this is the most important student resource on modern European intellectual history available today.

virginia woolf lighthouse pdf: Language, Literature, and the Dynamics of Conflict Eunice Ngongkum, Hans Fonka, 2023-12-18 Informed by a global space animated by various conflicts, this book brings a refreshing perspective on how the disciplines of literature and language engage this phenomenon. In its shift from a purely political interrogation of conflict, the volume provides a broad analytic canvas on which human behaviour in such contexts can be examined. This is an ultimate invitation to a re-visioning of socio-cultural parameters of identity construction, borders, natural resources, religion, cultural values, beliefs, governance, ideology, and globalisation. The book's varied perspective, animated by a rich diversity of literary and linguistic approaches, gives it an interdisciplinary emphasis that will appeal to readers across disciplines. Its ultimate message is that conflict is not subject-bound. The liberal analysis of different aspects makes the volume an invaluable asset not only to literature and language scholars but also to everyone with inclinations towards conflict creation and management.

virginia woolf lighthouse pdf: Virginia Woolf and Motherhood Charlotte Taylor Suppe, 2024-11-30 Motherhood is a recurrent theme in Virginia Woolf's writing yet Woolf scholarship has

often overlooked this dynamic subject. Exploring how Woolf engaged with themes of motherhood as a socially and politically motivated writer and a woman, this book grounds her work in the maternal discourses of her time. By reading Woolf's texts in dialogue with contemporary writing, socio-political events and medical and scientific advances, *Virginia Woolf and Motherhood* establishes the significance of maternity across Woolf's oeuvre and exposes how public and personal matters of motherhood informed the links she drew between maternity, femininity, self-worth and artistry. With novel analysis of Woolf's writing on war, eugenics, food and psychoanalysis, Charlotte Taylor Suppe demonstrates the substantive influence maternal discourses had on shaping Woolf's feminism, political beliefs and creative practices.

surveys investigations into characterization in literary linguistics and personality in social psychology, before carrying out a computational analysis of Virginia Woolf's experimental novel *The Waves*. Frequencies of grammatical and semantic categories in the language of the six speaking characters are analyzed using Wmatrix software developed by UCREL at Lancaster University. The quantitative analysis is supplemented by a qualitative analysis into recurring patterns of metaphor. The author concludes that these analyses successfully differentiate all six characters, both synchronically and diachronically, and claims that this methodology is also applicable to the study of personality in non-literary language. Marcus also stresses the creativity of modernist women writers, including H. D., Dorothy Richardson and Virginia Woolf.
