blaylock wellness report: Mother Cub Susan Lynn Perry, 2007-11 Imagine that you are the mother of a beautiful baby boy. Your bundle of joy was born perfectly healthy with ten little fingers and ten little toes. He smiles, walks and talks on time-right on track with his peers. You could not be happier. Now, imagine that your baby gets sick. He's suddenly sick every week with ear infections, bronchitis, vomiting, diarrhea, allergies, eczema, fevers and colds. Then, imagine that he stops talking. Imagine that he stops putting his hands out when he falls on the playground. He seems dizzy, distracted and disoriented most of the time. Imagine that he stops responding to his name or responding to you, his mother, at all. His doctor says he's fine, but you know better. You start asking around and reading and researching. You have your suspicions, but hope to God they are not true. Then finally, several months or even years later, you are given the devastating diagnosis of autism. And not only that, but you are then faced with some even more horrifying news. There is no cure for autism. This is what I was faced with during the first four years of my son's life. This is my story and the story of countless other families getting that same diagnosis every day with this growing worldwide epidemic. Sounds pretty grim, doesn't it? But, wait a minute. What is that? There's something flickering on the horizon. It's gaining momentum with its incredible strength and power. There may not be a cure for autism, yet, but there is definitely hope in the air. There are things you can do, today, to help your child. You just have to take one step and then another and then another.

blaylock wellness report: Vaccine Danger Quackery and Sin Edward Hendrie, 2023-03-07 This book reveals the most significant medical fraud in history. The theory that you can prevent illness by injecting poisons into the bodies of healthy people is dangerous quackery and sin. All true science has proven the practice of vaccination to be ineffective and unsafe. But the medical establishment has been lured into the superstitious practice, hook, line, and sinker. It is not merely a matter of ignorance that the debilitating practice flourishes. It is, at its core, being promoted by those who know it is unsafe and ineffective. There is a malevolent spirit behind the practice. It is part of a conspiracy against God and man. While most doctors are unwitting, some are willing minions of that old serpent, called the Devil, and Satan, who are quite happy to kill people for profit. Jesus describes such men: Ye are of your father the devil, and the lusts of your father ye will do. He was a murderer from the beginning, and abode not in the truth, because there is no truth in him. When he speaketh a lie, he speaketh of his own: for he is a liar, and the father of it. John 8:44.
