booty licious magazine: The Beyonce Effect Adrienne Trier-Bieniek, 2016-07-19 Since her late-1990s debut as a member of the R&B trio Destiny's Child, Beyonce Knowles has garnered both praise and criticism. While some consider her an icon of female empowerment, others see her as detrimental to feminism and representing a negative image of women of color. Her music has a decidedly pop aesthetic, yet her power-house vocals and lyrics focused on issues like feminine independence, healthy sexuality and post-partum depression give her songs dimension and substance beyond typical pop fare. This collection of new essays presents a detailed study of the music and persona of Beyonce--arguably the world's biggest pop star. Topics include the body politics of respectability; feminism, empowerment and gender in Beyonce's lyrics; black female pleasure; and the changing face of celebrity motherhood. booty licious magazine: *Venus in the Dark* Janell Hobson, 2018-02-01 In this second edition of the remarkable, and now classic, cultural history of black women's beauty, *Venus in the Dark*, Janell

Hobson explores the enduring figure of the Hottentot Venus and the history of critical and artistic responses to her by black women in contemporary photography, film, literature, music, and dance. In 1810, Sara Baartman was taken from South Africa to Europe, where she was put on display at circuses, salons, museums, and universities as the Hottentot Venus. The subsequent legacy of representations of black women's sexuality—from Josephine Baker to Serena Williams to hip-hop and dancehall videos—refer back to her iconic image. Via a new preface, Hobson argues for the continuing influence of Baartman's legacy, as her image still reverberates through the contemporary marketization of black women's bodies, from popular music and pornography to advertising. A brand new chapter explores how historical echoes from previous eras map onto highly visible bodies in the twenty-first century. It analyzes fetishistic spectacles of the black booty, with particular emphasis on the role of Beyoncé Knowles in the popularization of the bootylicious body, and the counter-aesthetic the singer has gone on to advance for black women's bodies and beauty politics. By studying the imagery of the Hottentot Venus, from the nineteenth century to now, readers are invited to confront the racial and sexual objectification and embodied resistance that make up a significant part of black women's experience.

booty licious magazine: Betty Friedan Rachel Shteir, 2023-09-12 A new portrait of Betty Friedan, the author and activist acclaimed as the mother of second-wave feminism "A lucid portrait of Friedan as a bold yet flawed advocate for women's equality."—Publishers Weekly The feminist writer and activist Betty Friedan (1921–2006), pathbreaking author of *The Feminine Mystique*, was powerful and polarizing. In this biography, the first in more than twenty years, Rachel Shteir draws on Friedan's papers and on interviews with family, colleagues, and friends to create a nuanced portrait. Friedan, born Bettye Naomi Goldstein, chafed at society's restrictions from a young age. As a journalist she covered racism, sexism, labor, class inequality, and anti-Semitism. As a wife and mother, she struggled to balance her work and homemaking. Her malaise as a housewife and her research into the feelings of other women resulted in *The Feminine Mystique* (1963), which made her a celebrity. Using her influence, Friedan cofounded the National Organization for Women, the National Women's Political Caucus, and the National Association to Repeal Abortion Laws. She fought for the Equal Rights Amendment, universal childcare, and workplace protections for mothers,

but she disagreed with the women's liberation movement over "sexual politics." Her volatility and public conflicts fractured key relationships. Shteir considers how Friedan's Judaism was essential to her feminism, presenting a new Friedan for a new era.

booty licious magazine: [Singing for Themselves](#) Patricia Spence Rudden, 2009-03-26 *Singing for Themselves: Essays on Women in Popular Music* is a fresh look at a topic that has attracted increasing interest in recent years. In this collection, scholars from a number of disciplines look at various artists and movements and come to some new conclusions about the ways in which female artists have contributed to the past four decades of pop, rock, blues and punk. From new looks at major artists Etta James, Laura Nyro and Patti Smith to later figures Ferron, Björk, and Melissa Etheridge, these chapters suggest new ways to view—and hear—music that is already part of our culture. Essays on the Indigo Girls, Dixie Chicks and Destiny's Child prove that the girl-groups tradition is alive and well, but with additional new dimensions, and a three-essay section on Joan Jett and the Riot Grrrls phenomenon sheds new light on their implications for feminist artistic expression. The final piece, an annotated bibliography of academic writing on women in rock, helps make this collection a useful addition to the library of students of popular music, while the solid research and accessibility of the text make this a good choice for the general reader as well as the seasoned scholar. If you think that adoration of certain pop music is a guilty pleasure, not worthy of higher intellectual aspirations, then *Singing For Themselves* offers absolution. It's far from trivial to ponder the Tao of Canadian singer Ferron, the classical allusions of Laura Nyro's lyrics, the postfeminist booty-shaking of Destiny's Child, or the historical milieu that turned Jamesetta Hawkins into blues great Etta James. Reading these essays made me want to go right back to the music - feeling wiser, yes, but also validated in the desire to go as deep as any song or singer can take me. Michele Kort, author of *Soul Picnic: The Music and Passion of Laura Nyro*, and senior editor at Ms. magazine I've read *Singing for Themselves: Essays on Women in Popular Music*, and am happy to provide an endorsement. *Singing for Themselves* is a consistently interesting collection of new essays on women and popular music. The collection is all the more welcome for being so current. It mixes essays on recent phenomena (such as electronic/punk group Le Tigre and the Dixie Chicks' stirring of political controversy) with new perspectives on canonical figures like Patti Smith or Etta James. The essays gathered here are written with clear commitments, but all are marked by care and scholarly rigour. I found the interdisciplinary breadth of *Singing for Themselves* refreshing; new avenues for research are opened up here, and new theoretical paradigms are explored. Will Straw, PhD, Acting Director, McGill Institute for the Study of Canada Associate Professor, Department of Art History and Communication Studies Opening this book was like opening the door onto a surprise party. Everyone I've ever wanted to meet was in there, including myself! Ferron

booty licious magazine: [Pimps Up, Ho's Down](#) T. Denean Sharpley-Whiting, 2007 Five essays address feminist issues relating to the women of the hip-hop generation, covering topics ranging from strip clubs and groupie culture to the idealization of white beauty and light skin color.

booty licious magazine: [Wordwatching](#) Alex Horne, 2011-07-07 Alex Horne loves words. He loves them so much, in fact, that he's gone on a mental safari and invented some of his own ... all he needs to do now is get them into the dictionary. But, as Alex discovers, gaining entry into the official lexicon takes more than just a gentle word in the ear of the editor. Evidence is required - Alex needs what the dictionary authorities call a 'corpus' of examples, hard data showing that his new words are in widespread and long-term usage by people other than just him and his mum. So a corpus he resolves to create, no matter what obstacles he might meet on the way. This is the ridiculous story of one man's struggle to break into the dictionary. From covert word-dropping on Countdown to wilfully misinforming young schoolchildren, Alex tries it all in his quest for word-based stardom. Does he succeed? Exactly what is a 'mental safari'? And are you already using one of Alex's words without realising it? You won't regret spending your hard-earned honk on this hugely entertaining book.

booty licious magazine: [Josephine Baker's Cinematic Prism](#) Terri Simone Francis, 2021-01-19 A history and in-depth analysis of the film career of the iconic Black star, activist, and French

military intelligence agent. Josephine Baker, the first Black woman to star in a major motion picture, was both liberated and delightfully undignified, playfully vacillating between allure and colonialist stereotyping. Nicknamed the “Black Venus,” “Black Pearl,” and “Creole Goddess,” Baker blended the sensual and the comedic when taking 1920s Europe by storm. Back home in the United States, Baker’s film career brought hope to the Black press that a new cinema centered on Black glamour would come to fruition. In *Josephine Baker’s Cinematic Prism*, Terri Simone Francis examines how Baker fashioned her celebrity through cinematic reflexivity, an authorial strategy in which she placed herself, her persona, and her character into visual dialogue. Francis contends that though Baker was an African American actress who lived and worked in France exclusively with a white film company, white costars, white writers, and white directors, she holds monumental significance for African American cinema as the first truly global Black woman film star. Francis also examines the double-talk between Baker and her characters in *Le Pompier de Folies Bergère*, *La Sirène des Tropiques*, *Zou Zou*, *Princesse Tam Tam*, and *The French Way*, whose narratives seem to undermine the very stardom they offered. In doing so, Francis illuminates the most resonant links between emergent African American cinephilia, the diverse opinions of Baker in the popular press, and African Americans’ broader aspirations for progress toward racial equality. Examining an unexplored aspect of Baker’s career, *Josephine Baker’s Cinematic Prism* deepens the ongoing conversation about race, gender, and performance in the African diaspora.
