canterbury tales character chart: *Young Adult and Canonical Literature* Paula Greathouse, Victor Malo-Juvera, 2021-03-15 In the last decade alone, the world has changed in seismic ways as marriage equality has been ruled on by the supreme court, social justice issues such as #metoo and BlackLivesMatter have arisen, and issues of immigration and deportation have come to the forefront of politics across the globe. Thus, there is a need for an updated text that shares strategies for combining canonical and young adult literature that reflects the changes society has - and continues to - experience. The purpose of our collection is to offer secondary (6-12) teachers engaging ideas and approaches for pairing young adult and canonical novels to provide unique examinations of topics that teaching either text in isolation could not afford. Our collection does not center canonical texts and most chapters show how both texts complement each other rather than the young adult text being only an extension of the canonical. Within each volume, the chapters are organized chronologically according to the publication date of the canonical text. The pairings offered in this collection allow for comparisons in some cases, for extensions in others, and for critique in all. Volume 2 covers *The Canterbury Tales* (1392) through *Fallen Angels* (1988).

canterbury tales character chart: Transporting Chaucer Helen Barr, 2015-11-01 This book draws on the work of the British sculptor Antony Gormley alongside more traditional literary scholarship to argue for new relationships between Chaucer's poetry and works by others. Chaucer's playfulness with textual history and chronology anticipates how his own work is figured in later (and earlier) texts. Conventional models of source and analogue study are re-energised to reveal

unexpected, and sometimes unsettling, literary cohabitations and re-placements. The author presents innovative readings of relationships between medieval texts and early modern drama, and between literary texts and material culture. Associations between medieval architecture, pilgrim practice, manuscript illustration and the soundscapes of dramatic performance reposition how we read Chaucer's oeuvre and what gets made of it. An invaluable resource for scholars and students of all levels with an interest in medieval English literary studies and early modern drama, *Transporting Chaucer* offers a new approach to how we encounter texts through time.

Gaps and the Creation of Ideas: An Artist's Book is a portrait of the space between things, whether they be neurons, quotations, comic-book frames, or fragments in a collage. This twenty-year project is an artist's book that juxtaposes quotations and images from hundreds of artists and writers with the author's own thoughts. Using Adobe InDesign® for composition and layout, the author has structured the book to show analogies among disparate texts and images. There have always been gaps, but a focus on the space between things is virtually synonymous with modernity. Often characterized as a break, modernity is a story of gaps. Around 1900, many independent strands of gap thought and experience interacted and interwove more intricately. Atoms, textiles, theories, women, Jews, collage, poetry, patchwork, and music figure prominently in these strands. The gap is a ubiquitous phenomenon that crosses the boundaries of neuroscience, rabbinic thinking, modern literary criticism, art, popular culture, and the structure of matter. This book explores many subjects, but it is ultimately a work of art.
