What Is Domestic Discipline?

Domestic discipline (DD) is a form of consensual relationship dynamic where one partner assumes a leadership or disciplinary role, often termed the "Disciplinarian," while the other partner is the "Partner" or "Submissive." domestic discipline pdf: Women v. Religion Karen L. Garst, 2018-06-01 Throughout history, religion has been used as a tool of female subjugation. Women have been deemed less worthy than men, have been prevented from owning property, and worse—all in the name of a higher power. In recent decades, women have made progress in terms of equal rights with men, at least in Western democracies, but still, why has the United States never had a female president? Why aren't more women heads of Fortune 500 companies? Why do politicians in the West continue to attack women's reproductive rights? As this volume explores, it would be hard to find a bigger culprit than religion when identifying the last cultural barriers to full gender equality. With topics ranging from the subjugation of women in the Bible to the shame and guilt felt by women due to religious teaching, this volume makes clear that only by rejecting the very system that limits their autonomy will women be fully liberated from its malignant influences, not just in codified law but also in cultural practice.

domestic discipline pdf: Black and White Bible, Black and Blue Wife Ruth A. Tucker, 2016-03-01 Ruth Tucker recounts a harrowing story of abuse at the hands of her husband—a well-educated, charming preacher no less—in hope that her story would help other women caught in a cycle of domestic violence and offer a balanced biblical approach to counter such abuse for pastors and counselors. Weaving together her shocking story, stories of other women, and powerful stories of husbands who truly have demonstrated Christ's love to their wives, with reflection on biblical, theological, historical, and contemporary issues surrounding domestic violence, she makes a compelling case for mutuality in marriage and helps women and men become more aware of potential dangers in a doctrine of male headship.

domestic discipline pdf: Abuse in World Religions Johanna Stiebert, 2025-06-13 This book opens out religious studies discussion on spiritual abuse to extend beyond the primary focus on

Christian settings and situations. Emphasising the diversity and reach of manifestations of spiritual abuse, it offers snapshots and examples from five major religious traditions. Following a definition of “spiritual abuse” and a qualification of the application of the designation “world religions”, five chapters - each by subject experts - demonstrate that spiritual abuse can be identified in contexts of Hinduism, Judaism, Christianity, Islam, and Sikhi(sm). The chapters draw on sacred texts, historical events, religious institutions, practices, or figures particular to each tradition, paying heed to how specific examples can relate to wider, or systemic tendencies. Throughout, there is emphasis on trauma-informed and survivor-centred approaches. *Abuse in World Religions* (Vol. 1) will appeal to academics of religious studies with interest in rape culture and spiritual abuse, as well as upper-level undergraduates and postgraduates, and religious leaders, or leaders of faith-based organisations, seeking to understand and to confront spiritual abuse and rape culture in their own communities. domestic discipline pdf: *Family Life, Family Law, and Family Justice* Marsha Garrison, 2022-10-28 *Family Life, Family Law, and Family Justice: Tying the Knot* combines history, social science, and legal analysis to chart the evolution and interdependence of family life and family law, portray current trends in family life, explain the pressing policy challenges these trends have produced, and analyze the changes in family law that are essential to meeting these challenges. The challenges are large and pressing. Across the industrialized West, nonmarital birth, relational stress, multi-partner fertility, and relationship dissolution have increased, producing a dramatic rise in single parenthood, poverty, and childhood risk. This concentration of familial and economic risk accelerates socioeconomic inequality and retards intergenerational mobility. Although the divide is most pronounced in the United States, the same patterns now affect families throughout the Western world. Across the European Union, there are 9.2 million lone parents, and just under half of their families live in poverty. *Tying the Knot* demonstrates how today’s family patterns are deeply rooted in long-standing, class-based differences in family life and explains why these class-based differences have accelerated. It explains how the values that guide family law development inevitably reflect the world in which families live and develops a new family law capable of meeting the needs of twenty-first century families. The book will be of considerable interest to family specialists from a number of fields, including law, demography, economics, history, political science, public health, social policy, and sociology.

domestic discipline pdf: *Global Pathways to Abolishing Physical Punishment* Joan E. Durrant, Anne B. Smith, 2010-12-20 This book describes the unfolding of a global phenomenon: the legal prohibition of physical punishment of children. Until thirty years ago, this near-universal practice was considered appropriate, necessary and a parental right. But a paradigm shift in conceptions of childhood has led to a global movement to redefine it as violence and as a violation of children’s rights. Today, many countries have prohibited it in all settings, including the home. This remarkable shift reflects profound cultural changes in thinking about children and their development, parent-child relationships, and the role of the state in family life. It has involved actors in many sectors, including academia, government, non-governmental organizations and children themselves. Documenting the stories of countries that have either prohibited corporal punishment of children or who are moving in that direction, this volume will serve as a sourcebook for scholars and advocates around the world who are interested in the many dimensions of physical punishment and its elimination.

domestic discipline pdf: *American Dreams, Suburban Nightmares: Suburbia as a Narrative Space between Utopia and Dystopia in Contemporary American Cinema* Melanie Smicek, 2014-10 The suburban landscape is inseparable from American culture. Suburbia does not only relate to the geographical concept, but also describes a cultural space incorporating people’s

hopes for a safe and prosperous life. Suburbia marks a dynamic ideological space constantly influenced and recreated by both the events of everyday life and artistic discourse. Fictional texts do not merely represent suburbia, but also have a decisive role in the shaping of suburban spaces. The widely held idealized image of suburbia evolved in the 1950s. Today, reality deviates from the concept of suburbs projected back then, due to e.g. high divorce rates and an increase of crime. Nevertheless, the nostalgic view of the suburbs as the "Promised Land" has survived. Postwar critics object to this perception, considering the suburbs rather as depressing landscapes of mass-consumption, conformity and alienation. This book exemplifies the dualistic representation of suburbs in contemporary American cinema by analyzing *Pleasantville*, *The Truman Show* and *American Beauty*. It examines how utopian concepts of suburbia are created culturally and psychologically in the films, and how the underlying anxieties of the suburban experience, visualized by the dystopian narratives, challenge this ideal.

domestic discipline pdf: The Connected Home: The Future of Domestic Life Richard Harper, 2012-01-11 The title of this new book: "The Connected Home" reflects the move away from the idea that smart homes would alter the lives of those living in them by providing technologies to take over tasks that were previously the responsibility of the householder, such as managing entertainment, education – and even eating! Up until around 10 years ago this view was commonplace but time has shown that the technologies to support a smart home have not developed in such a way as to support this premise. Instead, what people do in their homes has moved the concept of a smart home into that of the 'connected home'. The rise of on-line games technologies, video connections via Skype, social networking, internet browsing etc are now an integral part of the home environment and have had a significant effect on the home. The contributors to this exciting new book consider and discuss the effects and ramifications of the connected home from a variety of viewpoints: an examination of the take-up of personal computers and the Internet in domestic situations; an analysis of the changing intersection of technology and human habits in the connected home; the impact of gaming, texting, e-book readers, tablets and other devices and their effect on the social conditions of a household; the relationship between digital messaging applications and real geography; and an overview of how sensing technologies for the smart home might evolve (lightweight medical technologies for example). The book culminates by addressing unfinished ambitions from the smart home agenda, the factors that have prevented their realisation, and addresses the need for extending research into the area.

domestic discipline pdf: Matters of Engagement Daniela Hacke, Claudia Jarzebowski, Hannes Ziegler, 2020-11-05 By drawing on a broad range of disciplinary and cross-disciplinary expertise, this study addresses the history of emotions in relation to cross-cultural movement, exchange, contact, and changing connections in the later medieval and early modern periods. All essays in this volume focus on the performance and negotiation of identity in situations of cultural contact, with particular emphasis on emotional practices. They cover a wide range of thematic and disciplinary areas and are organized around the primary sources on which they are based. The edited volume brings together two major areas in contemporary humanities: the study of how emotions were understood, expressed, and performed in shaping premodern transcultural relations, and the study of premodern cultural movements, contacts, exchanges, and understandings as emotionally charged encounters. In discussing these hitherto separated historiographies together, this study sheds new light on the role of emotions within Europe and amongst non-Europeans and Europeans between 1100 and 1800. The discussion of emotions in a wide range of sources including letters, images, material culture, travel writing, and literary accounts makes *Matters of Engagement* an invaluable source for both scholars and students concerned with the history of premodern

emotions.
