i survived the american revolution pdf: Race and Racism in International Relations Alexander Anievas, Nivi Manchanda, Robbie Shilliam, 2014-10-30 International Relations, as a discipline, does not grant race and racism explanatory agency in its conventional analyses, despite such issues being integral to the birth of the discipline. *Race and Racism in International Relations* seeks to remedy this oversight by acting as a catalyst for remembering, exposing and critically re-articulating the central importance of race and racism in International Relations. Focusing especially on the theoretical and political legacy of W.E.B. Du Bois's concept of the colour line, the cutting edge contributions in this text provide an accessible entry point for both International Relations students and scholars into the literature and debates on race and racism by borrowing insights from disciplines such as history, anthropology and sociology where race and race theory figures more prominently; yet they also suggest that the field of IR is itself an intellectually and strategic field through which to further confront the global colour line. i survived the american revolution pdf: Economic and Social Rights in a Neoliberal World
Gillian MacNaughton, Diane F. Frey, 2018-06-28 The rise of neoliberal policy and practice simultaneous to the growing recognition of economic and social rights presents a puzzle. Can the rights to food, water, health education, decent work, social security and the benefits of science prevail against market fundamentalism? Economic and Social Rights in a Neoliberal World is about the potential of these rights to contest the adverse impacts of neoliberal policy and practice on human wellbeing. Cutting across several lines of human rights literature, the chapters address norm development, court decision making, policymaking, advocacy, measurement and social mobilization. The analyses reveal that neoliberalism infiltrates management practices, changes international policy goals, flattens public school curriculum and distorts the outputs of UN human rights treaty bodies. Are economic and social rights successful in challenging neoliberalism, are they simply marginalized or are they co-opted and incorporated into neoliberal frameworks? This multidisciplinary work by a geographically diverse group of scholars and practitioners begins to address these questions.
