notes of a native son pdf: The American Dream Cal Jillson, 2016-11-18 Life, liberty, and the pursuit of happiness: these words have long represented the promise of America, a "shimmering vision of a fruitful country open to all who come, learn, work, save, invest, and play by the rules." In 2004, Cal Jillson took stock of this vision and showed how the nation's politicians deployed the American Dream, both in campaigns and governance, to hold the American people to their program. "Full of startling ideas that make sense," NPR's senior correspondent Juan Williams remarked, Jillson's book offered the fullest exploration yet of the origins and evolution of the ideal that serves as the foundation of our national ethos and collective self-image. Nonetheless, in the dozen years since *Pursuing the American Dream* was published, the American Dream has fared poorly. The decline of social mobility and the rise of income inequality—to say nothing of the extraordinary social, political, and economic developments of the Bush and Obama presidencies—have convinced many that the American Dream is no more. This is the concern that Jillson addresses in his new book, *The American Dream: In History, Politics, and Fiction*, which juxtaposes the claims of political, social, and economic elite against the view of American life consistently offered in our national literature. Our great novelists, from Nathaniel Hawthorne and Herman Melville to John Updike, Philip Roth, Toni Morrison, and beyond highlight the limits and challenges of life—the difficulty if not impossibility of the dream—especially for racial, ethnic, and religious minorities as well as women. His book takes us through the changing meaning and reality of the American Dream, from the seventeenth century to the present day, revealing a distinct, sustained separation between

literary and political elite. The American Dream, Jillson suggests, took shape early in our national experience and defined the nation throughout its growth and development, yet it has always been challenged, even rejected, in our most celebrated literature. This is no different in our day, when what we believe about the American Dream reveals as much about its limits as its possibilities.

notes of a native son pdf: *Water in A Broken Pot* Yogesh Maitreya, 2025-06-30 Incredibly moving and hauntingly honest, *Water in a Broken Pot* is the memoir of Yogesh Maitreya, a leading independent Indian Dalit publisher, writer, and poet. Encompassing experiences of pain, loneliness, depravation, alienation, and the political consciousness of his caste identity, this intimately moving memoir is a story of resilience and raw brutality. Growing up in a working-class family with meagre wages to get by in life, Yogesh writes of his father's struggle against alcohol and passion for cinema; of intergenerational dreams shattered; working day and night shifts in factories; the struggle of being lost, overlooked and unmentored in India's schooling, college and University systems which continue to be casteist, exclusionary and hostile; and feelings of lovelessness, loss and heartaches. Having hopped from gig to gig to make ends meet, he writes of his eventual discovery of the written word, literature and the Ambedkarite legacy, which helped shape his dreams, identity and the eventual career choice of publishing books. In sharing his story, this fresh and radical voice tells his truth in the most frank and unfiltered of ways, as it happened, giving us readers permission to also be vulnerable in telling our tales.

notes of a native son pdf: *Mindfulness and Its Discontents* David Forbes, 2019-05-14T00:00:00Z *Mindfulness*, a way to alleviate suffering by realizing the impermanence of the self and our interdependence with others, has been severed from its Buddhist roots. In the late-stage-capitalist, neoliberal, solipsistic West, it becomes McMindfulness, a practice that instead shores up the privatized self, and is corporatized and repackaged as a strategy to cope with our stressful society through an emphasis on self-responsibility and self-promotion. Rather than a way to promote human development and social justice, McMindfulness covertly reinforces neoliberalism and capitalism, the very self-promoting systems that worsen our suffering. In *Mindfulness and Its Discontents*, David Forbes provides an integral framework for a critical, social, moral mindfulness that both challenges unmindful practices and ideas and provides a way forward. He analyzes how education curricula across North America employ mindfulness: to help students learn to succeed in a neoliberal society by enhancing the ego through emphasizing individualistic skills and the self-regulation of anger and stress. Forbes argues that mindfulness educators instead should uncover and resist the sources of stress and distress that stem from an inequitable, racist, individualistic, market-based (neoliberal) society and shows how school mindfulness programs can help bring about one that is more transformative, compassionate and just.

notes of a native son pdf: *Critical Race Studies Across Disciplines* Jonathan Chism, David

Ryden, Vida Robertson, Stacie Craft DeFreitas, 2021-04-19 This book argues that critical race theory (CRT)—which originated within Legal Studies during the 1970s—has permeated multiple academic disciplines and informs the ethical commitments of scholars in diverse fields of study. *Critical Race Studies Across Disciplines* includes essays by scholars of African American studies from various disciplines, who directly and indirectly incorporate CRT through signaling a commitment to scholar-activism or scholactivism. Scholactivists hope to understand the roots of anti-Black racism and to actively oppose all forms of oppression. Drawing on CRT, the volume counters the colorblind rhetoric of those who dismiss the notion of systemic racism, discount racial inequities, and disregard racial justice advocates as malcontents fanning the flames of racial dissension. The contributors of this collection challenge racism centering the stories, perspectives, and counter-narratives of African American soldiers, teachers, students, writers, psychologists, and theologians who continually defy and resist oppression in myriad ways.

notes of a native son pdf: *From Generosity to Justice* Darren Walker, 2023-03-28 Andrew Carnegie wrote his original Gospel of Wealth in 1889, during the height of the gilded age, when the country's 4,000 richest families held almost as much wealth as the other 11.6 million American families combined. His essay laid the foundation for modern philanthropy. Today, we find ourselves in a new gilded age—defined by levels of inequality that far surpass those of Carnegie's time. The widening chasm between haves and have-nots demands our immediate attention. Now is the time for a new Gospel of Wealth. In *From Generosity to Justice: A New Gospel of Wealth*, Darren Walker, president of the Ford Foundation, articulates a bold vision for philanthropy in the twenty-first century. With contributions from an array of thinkers, activists, and leaders including Ai-jen Poo, Laurene Powell Jobs, David Rockefeller Jr., and Dr. Elizabeth Alexander, Walker challenges and emboldens readers to consider philanthropy as a tool for achieving economic, social, and political justice. That task requires humility, moral courage, and an unwavering commitment to democratic values and institutions. It demands that all members of society recognize their own privilege and position, address the root causes of social ills, and seek out and listen to those who live amid and experience injustice. What began in Carnegie's day as a manual for generosity now becomes a guide that moves us closer to justice—a guide that helps each of us find a way to contribute. Justice is calling. It's time we answer.

notes of a native son pdf: *Africans in Europe* Michael Ugarte, 2010 What differentiates emigration from exile? This book delves theoretically and practically into this core question of population movements. Tracing the shifts of Africans into and out of Equatorial Guinea, it explores a small former Spanish colony in central Africa. Throughout its history, many inhabitants of Equatorial Guinea were forced to leave, whether because of the slave trade of the early nineteenth century or the political upheavals of the twentieth century. Michael Ugarte examines the writings of Equatorial Guinean exiles and migrants, considering the underlying causes of such moves and arguing that the example of Equatorial Guinea is emblematic of broader dynamics of cultural exchange in a postcolonial world. Based on personal stories of people forced to leave and those who left of their own accord, *Africans in Europe* captures the nuanced realities and widespread impact of mobile populations. Ugarte illustrates the global material inequalities that occur when groups and populations migrate from their native land of colonization to other countries and regions that are often the lands of the former colonizers. By focusing on the geographical, emotional, and intellectual dynamics of Equatorial Guinea's human movements, readers gain an inroad to the consciousness of an age and an understanding of the global realities that will define the cultural, economic, and political currents of the twenty-first century.

notes of a native son pdf: *Teaching Asian America in Elementary Classrooms* Noreen Naseem Rodríguez, Sohyun An, Esther June Kim, 2023-12-01 Asian American voices and experiences are largely absent from elementary curricula. Asian Americans are an extraordinarily diverse group of people, yet are often viewed through stereotypical lenses: as Chinese or Japanese only, as recent immigrants who do not speak English, as exotic foreigners, or as a “model minority” who do well in school. This fundamental misperception of who Asian Americans are begins with young

learners—often from what they learn, or do not learn, in school. This book sets out to amend the superficial treatment of Asian American histories in U.S. textbooks and curriculum by providing elementary teachers with a more nuanced, thematically driven account. In chapters focusing on the complexity of Asian American identity, major moments in Asian immigration, war and displacement, issues of citizenship, and Asian American activism, the authors include suggestions across content areas for guided class discussions, ideas for broader units, and recommendations for children's literature as well as primary sources.

notes of a native son pdf: Black Citizens and American Democracy Reginald K. Ellis, Jeffrey L. Littlejohn, Peter B. Levy, 2025-04-15 How Black activism has helped achieve and maintain democracy for all Americans In 2020, Black Americans continued a centuries-long pursuit of racial equality and justice in the streets and at the polls. Arguing that this year was not a deviation from the historic Civil Rights Movement, the contributors to this collection examine the important work of Black men and women during the previous decades to shape, expand, and preserve a multiracial American democracy. The authors of these chapters show that Black Americans have long pushed local and national leaders to ensure that all citizens reap the full benefits of the Constitution. They discuss Black women's roles in advancing national voting rights; how Historically Black Colleges and Universities (HBCUs) developed "race leaders"; discriminatory news coverage and actions against it; antipoverty efforts; and the racial and gender dynamics of activist organizations. These studies show how Black activism from the mid-twentieth century to the present has led to positive changes for all Americans, holding the nation to its democratic ideals and promises. *Black Citizens and American Democracy* compels recognition of many unsung people who have risked their lives and livelihoods for the good of the country. notes of a native son pdf: Blackness in Western Europe Dienne Hondius, 2017-09-29 While the study of race relations in the United States continues to inspire and influence European thinking, Europeans have yet to confront their own history. To be black in Europe—whether during the sixteenth century or today—means sharing one crucial experience: being part of a small, but visible minority. European slave-owners, company directors, and investors in the distant past maintained an ocean-wide gap between themselves and the enslaved in the plantation colonies of the Caribbean. In the following centuries, this distance persisted. Even today, to be black in Europe often means to be one of a few black persons in a group. A racial pattern of exclusion has characterized European policy for more than four centuries. Dienne Hondius identifies ideas and attitudes toward blackness, the concept of race as visible difference, developed in western Europe. She argues that racial discourses are generally dominated by paternalism—a concept usually used to explain power structures that is often applied to the nineteenth century. Hondius identifies five patterns of paternalism that influenced Europe much earlier and initiated trends of imagery and perception. Taking a chronological and thematic approach, Hondius first focuses on southern European societies in the Early Modern period and moves to northwest European societies in the Modern period. Addressing religion, law, and science, she concludes with a synthesis of developments from the twentieth century to the present.

notes of a native son pdf: LATINO POLICE OFFICERS IN THE UNITED STATES Martin Guevara Urbina, Sofia Espinoza Alvarez, 2015-03-01 Considering the long-lasting and complicated history of U.S. race and ethnic relations, the multiple array of issues currently confronting both ethnic and racial communities, and the shifting trends in the ethnic/racial landscape, this book seeks to provide a comprehensive account of the simultaneous interaction of pressing historical and contemporary forces shaping the Latino experience as well as police-minority relations to better understand the current state of policing and gain further insight into the future role of Latino police in American law enforcement across the country. Delineating the confines of policing a highly diverse and multicultural society in the twenty-first century, this book conjoins historical, theoretical, and empirical research—placing Latino policing within a broader law enforcement and

community context. Major topics include the need for Latino police officers; employment of Latino officers by federal, state, and local law enforcement agencies; Chicano police officers working in the Latino community; Latino officers, policy, practice, and ethnic realities; Mexican American law enforcement; bridging the gaps, future research, and change in American institutions; policy recommendations toward a new police force; and the future of Latino officers in the American police. Additional issues highlighted include racial/ethnic profiling, police brutality, underpolicing, and overpolicing which challenge the quest for representation, equality, justice, and due process. Finally, the contributing authors demonstrate that the lack of knowledge on Latino police and the overall American police is not inevitable, and thus the book concludes with policy and research recommendations to help bridge this long-neglected void; ultimately, the creation of a new police force for the twenty-first century. The text represents a most timely and essential tool for all levels of policing, law enforcement administrators, criminal justice educators, civic managers, criminologists, sociologists, and others vested in police reform.

notes of a native son pdf: *The Colorful Image of God* Katherine B. Martin, 2022-02-14 In *The Colorful Image of God*, Katherine B. Martin, a White woman who has spent most of her career working in social justice, shares her spiritual awakening to race and racism that started more than a decade ago. Combining vulnerable anecdotes with academic and historical teaching, she highlights the disconnect between the Christian belief of imago Dei and the injustices that Black people, and other People of Color, face today. By normalizing bias through personal stories, Katherine gently calls other White Christians into what can be intimidating conversations in order to inspire them to play a bigger role in uprooting racial injustice. In her words, "I want our love for God, rooted in his great love for us, to propel us to fight for the rights of others like our very lives depend on it." "As our nation continues to wrestle with issues of race, justice and equity, new voices are needed to enhance and deepen the conversation. Rooted in a Christian world-view, Katherine's *Colorful Image of God* offers a personal, practical and hopeful perspective to equip readers in becoming agents of transformation, reconciliation and lasting societal change." —Bruce Main, President/Founder, UrbanPromise Ministries

notes of a native son pdf: *The Birmingham Book* Colin Diamond CBE, 2022-07-11 The Trojan Horse affair sent shock waves across England's education system in 2014. The affair centred around an anonymous letter that contained instructions on how to take over schools with a majority Muslim population by influencing their governing bodies and undermining head teachers. The authenticity of the letter remains hotly disputed, yet its publication generated huge turbulence - not only in Birmingham's schools and communities, but also in both Parliament and the national news. The book offers fresh perspectives based on unique access to information from within the city, written by respected educationalists who have worked successfully in Birmingham for many years both during the Trojan Horse era and since. It explains what led to the publication of the letter, its profound consequences for education in Birmingham, and how it influenced events in the city since. Crucially the book also opens up an informed discussion around the issues raised during Trojan Horse, such as delivering a well-rounded curriculum suitable for a diverse school community, developing working partnerships in the local area, and boosting the attainment and aspirations of children from disadvantaged backgrounds. Colin shares case studies of school improvement in local and national MATs in tough, multicultural urban environments, and how schools worked to develop pupils' social capital. The *Birmingham Book* reveals how the Trojan Horse affair was handled by the Department for Education as their academies and free schools policies underwent their first major stress tests. Furthermore, the book provides an up-to-date appraisal of the interrelationship between education in England's schools and the cultural and religious practice of the local communities the schools serve - and of the underachievement levels of the different ethnic groups in Birmingham. Suitable for teachers, school leaders, governors and policymakers.

notes of a native son pdf: Becoming a White Antiracist Stephen D. Brookfield, Mary E. Hess, 2023-07-03 As this book was being written, the United States exploded in outrage against the murder by police of people of color across the country. Corporations, branches of state and local government, and educational institutions all pledged to work for racial justice and the Black Lives Matters movement moved into the mainstream as people from multiple racial and class identities pledged their support to its message. Diversity initiatives abounded, mission statements everywhere were changed to incorporate references to racial justice, and the rampant anti-blackness endemic to US culture was brought strikingly to the surface. Everywhere, it seemed, white people were looking to learn about race. "What do we do?" "How can we help?" These were the cries the authors heard most frequently from those whites whose consciousness of racism was being raised. This book is their answer to those cries. It's grounded in the idea that white people need to start with themselves, with understanding that they have a white racial identity. Once you've learned about what it means to be white in a white supremacist world, the answer of what can I do becomes clear. Sometimes you work in multiracial alliances, but more often you work with white colleagues and friends. In this book the authors explore what it means for whites to move from becoming aware of the extent of their unwitting collusion in racism, towards developing a committed antiracist white identity. They create a road map, or series of paths, that people can consider traveling as they work to develop a positive white identity centered around enacting antiracism. The book will be useful to anyone trying to create conversations around race, teach about white supremacy, arrange staff and development workshops on racism, and help colleagues explore how to create an antiracist culture or environment. This work happens in schools, colleges and universities, and we suspect many readers will be located in K-12 and higher education. But helping people develop an antiracist identity is a project that occurs in corporations, congregations, community groups, health care, state and local government, arts organizations, and the military as well. Essentially, if you have an interest in helping the whites you interact with become antiracist, then this book is written very specifically for you. Watch our BWAR YouTube playlist, where authors Stephen Brookfield and Mary Hess chat about some common themes from the book.
