sula toni morrison pdf: Goodness and the Literary Imagination Toni Morrison, 2019-10-01 What exactly is goodness? Where is it found in the literary imagination? Toni Morrison, one of American letters' greatest voices, pondered these perplexing questions in her celebrated Ingersoll Lecture, delivered at Harvard University in 2012 and published now for the first time in book form. Perhaps because it is overshadowed by the more easily defined evil, goodness often escapes our attention. Recalling many literary examples, from Ahab to Coetzee's Michael K, Morrison seeks the essence of goodness and ponders its significant place in her writing. She considers the concept in relation to unforgettable characters from her own works of fiction and arrives at conclusions that are both eloquent and edifying. In a lively interview conducted for this book, Morrison further elaborates on her lecture's ideas, discussing goodness not only in literature but in society and history—particularly black history, which has responded to centuries of brutality with profound creativity. Morrison's essay is followed by a series of responses by scholars in the fields of religion, ethics, history, and literature to her thoughts on goodness and evil, mercy and love, racism and self-destruction, language and liberation, together with close examination of literary and theoretical expressions from her works. Each of these contributions, written by a scholar of religion, considers the legacy of slavery and how it continues to shape our memories, our complicities, our outcries, our lives, our communities, our literature, and our faith. In addition, the contributors engage the religious orientation in Morrison's novels so that readers who encounter her many memorable characters such as *Sula*, *Beloved*, or *Frank Money* will learn and appreciate how Morrison's notions of goodness and mercy also reflect her understanding of the sacred and the human spirit.

sula toni morrison pdf: *Ethics and Aesthetics in Toni Morrison's Fiction* Mariangela Palladino, 2018-01-22 Ethics and Aesthetics in Toni Morrison's Fiction investigates Morrison's aesthetics in terms of narrative's ethical import. Morrison's writing is concerned with ethically debatable issues and it offers a problematic representation of human experiences in African American history. Whilst previous critical studies consider ethics in relation to events in the story, Palladino explores its intersection with aesthetics. Narrativizing the moral law, Morrison's imperative is to relate the past, and to find ways to tell what is often unspeakable. The quest for ways to narrate horrific facts is a quest for an aesthetics which includes an appeal to the reader and thus necessarily engages with the ethical. This study foregrounds the equivocal as a key feature of narrative ethics.

sula toni morrison pdf: Art and Ritual in the Black Diaspora Paul Griffith, 2016-12-14 Archetypes of Transition in Diaspora Art and Ritual examines residually oral conventions that shape the black diaspora imaginary in the Caribbean and America. Colonial humanist violations and

inverse issues of black cultural and psychological affirmation are indexed in terms of a visionary gestalt according to which inner and outer realities unify creatively in natural and metaphysical orders. Paul Griffith's central focus is hermeneutical, examining the way in which religious and secular symbols inherent in rite and word as in vodun, limbo, the spirituals, puttin' on ole massa, and dramatic and narrative structures, for example, are made basic to the liberating post-colonial struggle. This evident interpenetration of political and religious visions looks back to death-rebirth traditions through which African groups made sense of the intervention of evil into social order. Herein, moreover, the explanatory, epistemic, and therapeutic structures of art and ritual share correspondences with the mythic archetypes that Carl Jung posits as a psychological inheritance of human beings universally.
