the most beautiful roof in the world pdf: The Art of Classic Planning Nir Haim Buras, 2020-01-28 An accomplished architect and urbanist goes back to the roots of what makes cities attractive and livable, demonstrating how we can restore function and beauty to our urban spaces for the long term. Nearly everything we treasure in the world's most beautiful cities was built over a century ago. Cities like Prague, Paris, and Lisbon draw millions of visitors from around the world because of their exquisite architecture, walkable neighborhoods, and human scale. Yet a great deal of the knowledge and practice behind successful city planning has been abandoned over the last hundred years—not because of traffic, population growth, or other practical hurdles, but because of ill-considered theories emerging from Modernism and reactions to it. The errors of urban design over the last century are too great not to question. The solutions being offered today—sustainability, walkability, smart and green technologies—hint at what has been lost and what may be regained, but they remain piecemeal and superficial. In The Art of Classic Planning, architect and planner Nir Haim Buras documents and extends the time-tested and holistic practices that held sway before the

reign of Modernism. With hundreds of full-color illustrations and photographs that will captivate architects, planners, administrators, and developers, *The Art of Classic Planning* restores and revitalizes the foundations of urban planning. Inspired by venerable cities like Kyoto, Vienna, and Venice, and by the great successes of L'Enfant's Washington, Haussmann's Paris, and Burnham's Chicago, Buras combines theory and a host of examples to arrive at clear guidelines for best practices in classic planning for today's world. *The Art of Classic Planning* celebrates the enduring principles of urban design and invites us to return to building beautiful cities.

Devon is the fourth most popular county for UK holidaymakers - and for good reason. Over a hundred square miles of East Devon are designated a 'National Landscape' (formerly 'Area of Outstanding Natural Beauty') and the internationally famous Jurassic Coast stretching into Dorset is a UNESCO World Heritage Site. The charming coastal town of Seaton benefits from sensitive development, including the extension (to wildlife-packed Seaton Wetlands) of the Stop Line Way, a long-distance cycling and walking route to Bristol, originally designed to bolster World War II defences. Dorset's Lyme Regis, meanwhile, is Britain's fossil-hunting capital - as featured in the 2020 film Ammonite, starring Kate Winslet. With an emphasis on car-free travel - walking, cycling and local buses - this Bradt guide's detailed descriptions, historical glimpses, folklore and personal anecdotes whet readers' appetite for exploration. Many activities are covered for the first time in this new edition. Coastal walking has never been better following the reopening of the South West Coast Path locally. Paddleboarding tours and lessons now operate off Seaton beach and a new section of the Stop Line Way walking and cycling route has opened up through the sensational Seaton Wetlands. Savour the artisan coffee that has become a big deal locally, or taste the produce of the region's fastest-growing agricultural sector: wine. Giggle at the goings on at the ancient Goose Fayre in Colyton, and enjoy other idiosyncratic local festivals such as the Ottery tar barrels and Honiton hot pennies. And when you're done, reward yourself with one of Beer's Devon cream teas while admiring this picturesque fishing village. Wherever you amble, let Bradt's East Devon and the Jurassic Coast (Slow Travel) be your companion.
