waiting for godot pdf: Hey, Professor Robert Eidelberg, 2020-07-14 Hey, Professor / Email Received From Michael Two Weeks Into Our Distance-Learning Course I hope this email finds you well. Thank you for reaching out and expressing your concern. This transition has been a little of a challenge for me. I've been trying to adjust to feeling a lot more anxiety after being laid off from my job as a waiter and getting used to spending much more time at home, where I live with my brother, his wife, and their (quite rambunctious) three-year-old son. I am used to being able to do my coursework in the library or at cafes and I am still adjusting to having to do the majority of my work at home. As a result, I have fallen a little behind in my coursework. Hey, Professor / Email Received From Patrick Five Weeks Into Our Distance-Learning Course Unfortunately the course assignments I completed for this session of distance learning are on my work computer. I have to go in to pick up

some belongings, anyway, so I'll send the assignments by then. Sorry for the delay; my mom got sick and she's immunocompromised, so it has been a rough couple of days. I appreciate how accommodating you have been to our class in this trying time. The reading and thinking assignments you've created to make up the distance learning half of our course have both been a light in this time. I hope that reading our completed assignments brings you a similar light. Hello Professor Eidelberg / Email Received From Christina Six Weeks Into Our Distance-Learning Course I know that this is a lot to just unload in an email but I felt that I wanted you to understand why I have not been able to get to my work as productively as I'd like to ideally, as well as confide in you about my current mental and physical health. I have been sluggish, tired, unmotivated, lethargic, and plain struggling to do many tasks beyond existing from moment to moment. I am trying to research more resources for therapy, as I have neglected this for a few months... Dear Professor Eidelberg / Email Received From Shanya After Seven Weeks of Distance-Learning Ends I'm glad to hear you have been doing well and keeping busy since our course ended. My family is doing great; we've been using this time to share some of our passions — one of mine, as you know, being writing — and the reception has been amazing. I can't wait to read and re-read our course's book on "Some Day: The Literature of Waiting." Also, I have recommended your other Hunter College humanities course, The Teacher and Student in Literature, to many friends — but ironically, also recommended that they wait a semester if forced to take the class online. Your courses are simply too magical to be minimized.

The collection employs interrelated concepts of adaptation, remediation and appropriation to reflect on Beckett's own evolving approach to crossing genre boundaries and to analyse the ways in which contemporary artists across different media and diverse cultural contexts - including the UK, Europe, the USA and Latin America - continue to engage with Beckett. The book offers fresh insights into how his work has kept inspiring both practitioners and audiences in the twenty-first century, operating through methodologies and approaches that aim to facilitate and establish the study of modern-day adaptations, not just of Beckett but other (multimedia) authors as well.

waiting for godot pdf: Beckett and Nature Charles Clements, Eleanor Green, James Martell, 2025-07-10 New analyses on the insightful ways in which Beckett's work actively engages with contested notions of Nature and the natural, developing a radical version of modernism's main questions and insights. Beckett and Nature takes its cue from contemporary developments in Beckett scholarship focused on ecocriticism, posthumanism, and the Anthropocene, going beyond them into a questioning of the very concepts of "Nature" and "the natural." It examines one of the most unthought ontological dimensions of literature and life: that symbolic space, deemed natural or part of Nature, appears necessary and undeniable and, therefore, impossible to be deconstructed. In doing so, the authors show that, in fact, this space takes on many shapes, recognizing three "natural" dimensions criticized by Beckett: bodies, worlds, and literatures. Featuring a wide range of both Beckett's work and Beckett scholars - including Jean-Michel Rabaté and Stanley E. Gontarski - Beckett and Nature offers contextualized readings of the understandings of nature and the natural throughout his decade-spanning oeuvre. The volume shows that part of the radicality of Beckett's writing is that - through a variety of evolving techniques and strategies - it questions what appears in our cultures as the most unquestionable and opens up possibilities for thinking not only what is human, literature, and philosophy, but also gender, identity, and any attempt at definitions of ourselves or the world at large.

waiting for godot pdf: Beckett Matters S.E. Gontarski, 2016-10-27 Representing a profound engagement with the work of Samuel Beckett, this volume gathers the very best of Stan Gontarski's Beckett criticism on practical, theoretical and critical levels. Such a range suggests a multiplicity of approaches to a body of work itself multiple, produced by an artist who underwent any number of transformations and reinventions over his long writing career. Many of the essays collected here explore Beckett's debt to his age, Beckett very much a product of a culture in transition, which change he would help foster. But much of Beckett's creative struggle was to find a new way, his own way. Most of the essays that comprise this volume detail that struggle, toward a way we now call Beckettian.

waiting for godot pdf: Imbalance Tobias Schulze-Cleven, Sidney A. Rothstein, 2021-03-29 Germany is a central case for research on comparative political economy, which has inspired theorizing on national differences and historical trajectories. This book assesses Germany's political economy after the end of the social democratic 20th century to rethink its dominant properties and create new opportunities for using the country as a powerful lens into the evolution of democratic capitalism. Documenting large-scale changes and new tensions in the welfare state, company strategies, interest intermediation, and macroeconomic governance, the volume makes the case for analysing contemporary Germany through the politics of imbalance rather than the long-standing paradigm of institutional stability. This conceptual reorientation around inequalities and disparities provides much-needed traction for clarifying the causal dynamics that govern ongoing processes of institutional recomposition. Delving into the politics of imbalance, the volume explicates the systemic properties of capitalism, multivalent policy feedback, and the organizational foundations of creative adjustment as key vantage points for understanding new forms of distributional conflict within and beyond Germany. The chapters in this book were originally published as a special issue of German Politics.
