Excavating Stephen King: A Darwinist Hermeneutic Study of the Fiction combines approaches from science and literary theory to examine the canon of Stephen King's fiction work in a single critical study. James Arthur Anderson has devised the concept of Darwinist Hermeneutics as a critical tool to combine evolutionary psychology, neuroscience, biology, and literary Darwinism with other more conventional critical theory, including structuralism, narratology, semiotics, and linguistic analysis. Using this theory, Anderson examines King's works in terms of archetypes and mythology, human universals, affective emotions, and the organization of story to create maximum suspense. This method brings new insights into King's stories and broader implications for storytelling as a whole.

carrie by stephen king pdf: Culture on Two Wheels Jeremy Withers, Daniel P. Shea, 2016
Bicycles have more cultural identities than many realize, functioning not only as literal vehicles in a text but also as vehicles for that text's themes, ideas, and critiques. In the late nineteenth century the bicycle was seen as a way for the wealthy urban elite to reconnect with nature and for women to gain a measure of personal freedom, while during World War II it became a utilitarian tool of the French Resistance and in 1970s China stood for wealth and modernization. Lately it has functioned variously as the favored ideological steed of environmentalists, a means of community bonding and aesthetic self-expression in hip hop, and the ride of choice for bike messenger-idolizing urban hipsters. Culture on Two Wheels analyzes the shifting cultural significance of the bicycle by examining its appearances in literary, musical, and cinematic works spanning three continents and more than 125 years of history. Bringing together essays by a variety of cyclists and scholars with

myriad angles of approach, this collection highlights the bicycle's flexibility as a signifier and analyzes the appearance of bicycles in canonical and well-known texts such as Samuel Beckett's modernist novel *Molloy*, the Oscar-winning film *Breaking Away*, and various Stephen King novels and stories, as well as in lesser-known but equally significant texts, such as the celebrated Russian director Andrei Tarkovsky's film *Sacrifice* and Elizabeth Robins Pennell's nineteenth-century travelogue *A Canterbury Pilgrimage*, the latter of which traces the route of Chaucer's pilgrims via bicycle. --

Feleki, 2018-06-11 This exciting exploration of Stephen King's digital writing maneuvers and electronic ventures on online platforms and e-readers unravels the author's latest writing techniques and justifies his unprecedented success in the new millennium. It investigates the latest additions to the Master of Horror's "toolbox" by studying King's media presence and writing oeuvre in the twenty-first century through online projects, such as his videogame *Discordia*. The book closely traces King's shifts from print to the digital as he crafts his stories to share with his constant readers. Its examination of King's re-vitalized Gothic sheds light on his shift towards new realizations that take into consideration the needs and tastes of the contemporary consuming public in a constant dialogue with their contemporary fears and anxieties. While exploring King's literary generic and technological crossovers, the book stresses the need for an encompassing theory that takes into account literary tradition, norms, and motifs adjusted according to the materialities and technological specificities of each medium in specific socio-cultural and economic contexts.

carrie by stephen king pdf: Horrors of a Voice (object a) Tristram Adams, 2024-07-11 This book reframes the Lacanian object a voice as a horrific register of alterity. The object gaze has received, as it does in Jacques Lacan's work, more commentary than voice. Yet recently voice has garnered interest from multiple disciplines. The book intervenes in the Slovenian school's commentary of the 'object voice' in terms of two questions: audition and corporeality. This intervention synthesizes psychoanalysis with recent theorizing of the horror of philosophy. In this intervention the object a voice is argued to resonate in lacunae – epistemological voids that evoke horror in the subject. Biological and evolutionary perspectives on voice, genre horror film and literature, music videos, close readings of Freudian and Lacanian case studies and textual analysis of ancient philosophy texts all contribute to an elucidation of the horrors of the object a voice: Vox-Exo.

carrie by stephen king pdf: Coming of Age in Popular Culture Donald C. Miller, 2018-10-25 Documenting the evolution of teens and media from the 1950s through 2010, this book examines the films, books, television shows, and musical artists that impacted American culture and shaped the coming of age experience for each generation. The teenage years are fraught with drama and emotional ups and downs, coinciding with bewildering new social situations and sexual tension. For these reasons, pop culture and media have repeatedly created entertainment that depicts, celebrates, or lampoons coming of age experiences, through sitcoms like *The Wonder Years* to the brat pack films of the 1980s to the teen-centered television series of today. *Coming of Age in Popular Culture: Teenagers, Adolescence, and the Art of Growing Up* covers a breadth of media presentations of the transition from childhood to adulthood from the 1950s to the year 2010. It explores the ways that adolescence is characterized in pop culture by drawing on these representations, shows how powerful media and entertainment are in establishing societal norms, and considers how American society views and values adolescence. Topics addressed include race relations, gender roles, religion, and sexual identity. Young adult readers will come away with a heightened sense of media literacy through the examination of a topic that inherently interests them.

carrie by stephen king pdf: What It Means to Be Human (Colour Edition) Taro Maeyashiki, 2025-09-21 This book, *What It Means to Be Human: Moral and Existential Questions in British and American Literature*, is a selective anthology of academic articles exploring the wide and complex field of American and British literature from the 17th to the 21st century, their moral, psychological, philosophical and sociological implications, and closer, deeper reading of a rich variety of texts. All chapters engage the reader in a conversation with particular works that throw light on both their own time and place and the issues that are always woven through the fabric of human life. The spiritual despair of Melville's Captain Ahab; the moral uncertainty of Twain's Huck Finn; the metaphysical skepticism of *The Mysterious Stranger*; the audacity of Charlotte Brontë's proclamation of female empowerment; Ian McEwan's painful reflection on guilt and the impossibility of redemption – these essays speak to the contradictions, discomfort and desire, both in individuals

and in the broader community, that literature reveals and engages with. Even more, it is the study of connections the collection makes between time and genre. Thus, it is easy to see how Melville's metaphysical preoccupations were countered by Thoreau's gentle yearning for simplicity. Salinger's alienation of youth could be read against Hawthorne's tragic dark allegories of faith and disenchantment. The psychological disintegration of *The Yellow Wallpaper* and the absurdity of existence in *The Sun Also Rises* are cited in the stories of spiritual revolt and social criticism. The Fool's ironic insight in Shakespeare's *King Lear* serves as a connotative precursor for the post-modernist fragmentation of the quest for truth as it emerges in the self-exploring wanderings of Holden Caulfield. The common thread that links this wide-ranging exploration of literary questions is the sense that, at its best, literature does not just mirror reality; it ruptures relations, displaces certainties, and wrestles us from complacency in our understanding of justice, love, freedom, and the precarious scaffolding of the self. These fictions never yield clear answers or definitive truths; rather, they leave us in a state of discomfort and uncertainty amid contradiction and moral ambiguity. Moreover, most importantly, they beckon us, always, to hear the thoughts of those seated at the intersection of art and ethics. I hope this volume will be a space for continued thought and dialogue, and a source of inspiration for the readers to return to the literary works to interrogate, resist, remember, and humanize.

Journalist Eleanor Morgan investigates the relationship between biochemistry, our bodies, and our mental health, including the context for this discussion: the historic culture of silence around women's bodies. As Morgan argues, we've gotten better at talking about mental health, but we still shy away from discussing periods, miscarriage, endometriosis, and menopause. That results in a lack of vital understanding for women, particularly as those processes are inextricably connected to our mental health; by exploring women's bodies in conjunction with our minds, Morgan urges for new thinking about our health. Examining the mythology of female hormones, the ways that culture shapes our perceptions of women's bodies, and the latest medical research, *Hysterical* skillfully paints a portrait of the modern landscape of women and health--and shows us how to navigate stigma and misinformation.

The trope of the black man always dies first still, however, haunts the genre. This book focuses on the latest cycle of diversity in horror fiction, starting with the release of *Get Out* in 2017, which inspired a new speculative turn for the genre. Using various critical frameworks like feminism and colonialism, the book also assesses diversity gaps in horror fictions, with an emphasis on marketing and storytelling methodology. Sidelined by liberal feminists and invisible to mainstream civil rights movements, Black femmes spent the Trump years doing what they so often do best: creating politically engaged art, entertainment, and ideas. In the first full-length study of Black queer, cis-, and trans-femininity, Omise'eke Natasha Tinsley argues that this creative work offers a distinctive challenge to power structures that limit how we color, gender, and explore freedom. Tinsley engages 2017–2020 Black femme cultural production that colorfully and provocatively imagines freedom in the stark white face of its impossibility. Looking to the music of Janelle Monáe and Kelsey Lu, Janet Mock's writing for the television show *Pose*, the fashion of Indya Moore and (F)empower, and the films of *Tourmaline* and *Juliana Huxtable*, as well as poetry and novels, *The Color Pynk* conceptualizes Black femme as a set of consciously, continually rescripted cultural and aesthetic practices that disrupts conventional meanings of race, gender, and sexuality. There is an exuberant defiance in queer Black femininity, Tinsley finds—so that Black femmes continue to love themselves wildly in a world that resists their joy.
