house of mango street pdf: Fight Like a Girl Laura Barcella, 2019-08-01 Nearly every day there's another news story or pop cultural anecdote related to feminism and women's rights. #YesAllWomen, conversations around consent, equal pay, access to contraception, and a host of other issues are foremost topics of conversation in American (and worldwide) media right now. Today's teens are encountering these issues from a different perspective than any generation has had before, but what's often missing from the current discussion is an understanding of how we've gotten to this place. *Fight Like a Girl* will familiarize readers with the history of feminist activism, in an effort to celebrate those who paved the way and draw attention to those who are working hard to further the cause of women's rights. Profiles of both famous and lesser-known feminists will be featured alongside descriptions of how their actions affected the overall feminist cause, and unique portraits (artist's renderings) of the feminists themselves. This artistic addition will take the book beyond simply an informational text, and make it a treasure of a book.

house of mango street pdf: Against Creative Writing Andrew Cowan, 2022-09-13 The rise of Creative Writing has been accompanied from the start by two questions: can it be taught, and should it be taught? This scepticism is sometimes shared even by those who teach it, who often find themselves split between two contradictory identities: the artistic and the academic. *Against Creative Writing* explores the difference between ‘writing’, which is what writers do, and Creative Writing, which is the instrumentalisation of what writers do. Beginning with the question of whether writing can or ought to be taught, it looks in turn at the justifications for BA, MA, and PhD courses, and concludes with the divided role of the writer who teaches. It argues in favour of Creative Writing as a form of hands-on literary education at undergraduate level and a form of literary apprenticeship at graduate level, especially in widening access to new voices. It argues against those forms of Creative Writing that lose sight of literary values – as seen in the proliferation of curricular couplings with non-literary subjects, or the increasing emphasis on developing skills for future employment. *Against Creative Writing*, written by a writer, is addressed to other writers, inside or outside the academy, at undergraduate or graduate level, whether ‘creative’ or ‘critical’.

house of mango street pdf: *Unsettling* Gilberto Rosas, 2023-03-28 Analyzes how border and immigration enforcement culminated in a mass shooting in El Paso, Texas. Honorable Mention for the American Ethnological Society Senior Book Prize On August 3, 2019, a far-right extremist committed a deadly mass shooting at a major shopping center in El Paso, Texas, a city on the border of the United States and Mexico. In *Unsettling*, Gilberto Rosas situates this devastating shooting as the latest unsettling consequence of our border crisis and currents of deeply rooted white nationalism embedded in the United States. Tracing strict immigration policies and inhumane border treatment from the Clinton era through Democratic and Republican administrations alike, Rosas shows how the rhetoric around these policies helped lead to the Trump administration's brutal crackdown on migration—and the massacre in El Paso. Rosas draws on poignant stories and compelling testimonies from workers in immigrant justice organizations, federal public defenders, immigration attorneys, and human rights activists to document the cruelties and indignities inflicted on border crossers. Borders, as sites of crossings and spaces long inhabited by marginalized populations, generate deep anxiety across much of the contemporary world. Rosas demonstrates how the Trump administration amplified and weaponized immigration and border policy, including family separation, torture, and murder. None of this dehumanization and violence was inevitable, however. The border zone in El Paso (which translates to the Pass) was once a very different place, one marked by frequent and inconsequential crossings to and from both sides—and with more humane immigration policies, it could become that once again.

house of mango street pdf: *Children of Globalization* Ricardo Quintana-Vallejo, 2020-12-10 *Children of Globalization* is the first book-length exploration of contemporary Diasporic Coming-of-age Novels in the context of globalized and de facto multicultural societies. Diasporic Coming-of-age Novels subvert the horizon of expectations of the originating and archetypal form of the genre, the traditional Bildungsroman, which encompasses the works of Johann Wolfgang von Goethe, Charles Dickens, and Jane Austen, and illustrates middle-class, European, enlightened, and overwhelmingly male protagonists who become accommodated citizens, workers, and spouses whom the readers should imitate. Conversely, Diasporic Coming-of-age Novels have manifold ways of defining youth and adulthood. The culturally-hybrid protagonists, often experiencing intersectional oppression due to their identities of race, gender, class, or sexuality, must negotiate what it means to become adults in their own families and social contexts, at times being undocumented or otherwise unable to access full citizenship, thus enabling complex and variegated formative processes that beg the questions of nationhood and belonging in increasingly globalized societies worldwide.

house of mango street pdf: *Fictions of Integration* Naomi Lesley, 2017-03-03 This book examines how children's and young adult literature addresses and interrogates the legacies of American school desegregation. Such literature narrates not only the famous battles to implement desegregation in the South, in places like Little Rock, Arkansas, but also more insidious and less

visible legacies, such as re-segregation within schools through the mechanism of disability diagnosis. Novelizations of children's experiences with school desegregation comment upon the politics of getting African-American children access to white schools; but more than this, as school stories, they also comment upon how structural racism operates in the classroom and mutates, over the course of decades, through the pedagogical practices depicted in literature for young readers. Lesley combines approaches from critical race theory, disability studies, and educational philosophy in order to investigate how the educational market simultaneously constrains how racism in schools can be presented to young readers and also provides channels for radical critiques of pedagogy and visions of alternative systems. The volume examines a range of titles, from novels that directly engage the Brown v. Board of Education decision, such as Sharon Draper's *Fire From the Rock* and Dorothy Sterling's *Mary Jane*, to novels that engage less obvious legacies of desegregation, such as Cynthia Voigt's *Dacey's Song*, Sharon Flake's *Pinned*, Virginia Hamilton's *The Planet of Junior Brown*, and Louis Sachar's *Holes*. This book will be of interest to scholars of American studies, children's literature, and educational philosophy and history.

house of mango street pdf: *A Translational Turn* Marta E. Sánchez, 2019-05-17 No contemporary development underscores the transnational linkage between the United States and Spanish-language América today more than the wave of in-migration from Spanish-language countries during the 1980s and 1990s. This development, among others, has made clear what has always been true, that the United States is part of Spanish-language América. Translation and oral communication from Spanish to English have been constant phenomena since before the annexation of the Mexican Southwest in 1848. The expanding number of counter-national translations from English to Spanish of Latinx fictional narratives by mainstream presses between the 1990s and 2010 is an indication of significant change in the relationship. *A Translational Turn* explores both the historical reality of Spanish to English translation and the "new" counter-national English to Spanish translation of Latinx narratives. More than theorizing about translation, this book underscores long-standing contact, such as code-mixing and bi-multilingualism, between the two languages in U.S. language and culture. Although some political groups in this country persist in seeing and representing this country as having a single national tongue and community, the linguistic ecology of both major cities and the suburban periphery, here and in the global world, is bilingualism and multilingualism.
