Key ICAO guidelines include:

- Biometric data inclusion
- Machine-readable zones (MRZ)

- Standardized photo dimensions

passport template for kids: *Operation Ganga* Tarun Pithode, 2023-07-18 As war clouds began to loom over Ukraine, thousands of Indian students living there found themselves in a precarious situation. Some students left Ukraine in time, but many remained in the hope that there would be no war, or if there was, it would not affect their studies. However, hope turned into disappointment when all foreign students were advised to leave. Operation Ganga was a campaign conducted by the Government of India to evacuate Indian citizens, mostly students, during the Russia-Ukraine War. The Government of India appealed to all the countries of Europe, the Indian diaspora, Indian embassies, the corporate world and social and religious organisations to provide all possible support in moving Indian students back home from the troubled area. Farish was studying medicine in Sumi. He and his friends were helped by people at the Indian embassy to move through the Ukraine border into Poland. From Poland, transit and food was provided free of cost by the Indian government. The repatriation of Farish is but one success story. Tarun Pithode chronicles of the sufferings of the students and their harrowing journeys, and the role of the Government of India and numerous Indians in rescuing them.

passport template for kids: *Saving Our Kids* Madonna King, 2023-08-30 The crime of sextortion has reached epidemic proportions, fuelled by both sex offenders and organised scammers targeting our most vulnerable online. Children are some of the internet's most prolific and most naive users, and increasing numbers are finding themselves caught in an evil web of networked manipulators. Up to 70 percent of all new sexual exploitation content online is victim-produced, and much of it follows the same script. An adult abuser tricks a child into thinking they are a peer, the child produces the content themselves and the abuser then blackmails their victim - for money or for more content. It's a script well-known to Detective Inspector Jon Rouse, who, for three decades, headed up Taskforce Argos, the expert arm of Queensland Police dedicated to hunting down online predators and rescuing children from abuse. In collaboration with Rouse, Madonna King tells the story of their investigations, from undercover cases to operations on a global scale, exploring what makes a victim and what makes an abuser, and distils the work that goes into bringing down

perpetrators. *Saving Our Kids* highlights the dangers lurking in every child's smartphone, web browser and computer game. It is the story of the tireless work of saving children from the online manipulation that is stealing their innocence, and raises awareness on how we can all protect the children in our lives.

Wall Street Journal Bestseller The pick of 2014's management books. -Andrew Hill, Financial Times One of the top business books of the year. -Harvey Schacter, The Globe and Mail Bestselling author, Robert Sutton and Stanford colleague, Huggy Rao tackle a challenge that determines every organization's success: how to scale up farther, faster, and more effectively as an organization grows. Sutton and Rao have devoted much of the last decade to uncovering what it takes to build and uncover pockets of exemplary performance, to help spread them, and to keep recharging organizations with ever better work practices. Drawing on inside accounts and case studies and academic research from a wealth of industries-- including start-ups, pharmaceuticals, airlines, retail, financial services, high-tech, education, non-profits, government, and healthcare-- Sutton and Rao identify the key scaling challenges that confront every organization. They tackle the difficult trade-offs that organizations must make between whether to encourage individualized approaches tailored to local needs or to replicate the same practices and customs as an organization or program expands. They reveal how the best leaders and teams develop, spread, and instill the right mindsets in their people-- rather than ruining or watering down the very things that have fueled successful growth in the past. They unpack the principles that help to cascade excellence throughout an organization, as well as show how to eliminate destructive beliefs and behaviors that will hold them back. Scaling Up Excellence is the first major business book devoted to this universal and vexing challenge and it is destined to become the standard bearer in the field.

passport template for kids: Tibetan Democracy Trine Brox, 2016-06-10 How do you govern 130,000 people from exile? Tibet - and the struggles of diaspora Tibetans - are elements of an ongoing and highly debated issue. The Dalai Lama's democratisation process during his time in India from 1959-2011, and the subsequent election of Lobsang Sangay as prime minister-in-exile, marked to the Tibetan people the move away from a seemingly feudal societal structure and traditional theocratic governance. Central to these Tibetan democracy aspirations is the 'freedom struggle' in

which Tibetans dream of an ideal politics which includes both Tibetans residing in Tibet and those in exile, with the ultimate goal of returning to a self-ruled Tibet. However, some have questioned whether the fight for democracy has helped or hindered a united and free Tibet. To elucidate this complex debate Trine Brox has undertaken extensive fieldwork investigating how democracy is viewed and practised amongst Tibetans in exile. In so doing, she explores how the Tibetans living in India imagine, organise and negotiate governance that is modern and democratic, but uniquely Tibetan. This is an important book for those with an interest in Tibet, diaspora communities and democracy.
