signing naturally units 1 6 pdf: A Family-Centered Signed Language Curriculum to Support Deaf Children's Language Acquisition Razi M. Zarchy, Leah C. Geer, 2023-08-24 Deaf children experience language deprivation at alarmingly high rates. One contributing factor is that most are born to non-signing hearing parents who face insurmountable barriers to learning a signed language. This Element presents a case for developing signed language curricula for hearing families with deaf children that are family-centered and focus on child-directed language. Core

vocabulary, functional sentences, and facilitative language techniques centered around common daily routines allow families to apply what they learn immediately. Additionally, Deaf Community Cultural Wealth (DCCW) lessons build families' capacity to navigate the new terrain of raising a deaf child. If early intervention programs serving the families of young deaf children incorporate this type of curriculum into their service delivery, survey data suggest that it is both effective and approachable for this target population, so the rates of language deprivation may decline.

signing naturally units 1 6 pdf: Sign Language Ideologies in Practice Annelies Kusters, Mara Green, Erin Moriarty, Kristin Snoddon, 2020-08-10 This book focuses on how sign language ideologies influence, manifest in, and are challenged by communicative practices. Sign languages are minority languages using the visual-gestural and tactile modalities, whose affordances are very different from those of spoken languages using the auditory-oral modality.

signing naturally units 1 6 pdf: Critical Perspectives on Plurilingualism in Deaf Education Kristin Snoddon, Joanne C. Weber, 2021-07-12 This book is the first edited international volume focused on critical perspectives on plurilingualism in deaf education, which encompasses education in and out of schools and across the lifespan. The book provides a critical overview and snapshot of the use of sign languages in education for deaf children today and explores contemporary issues in education for deaf children such as bimodal bilingualism, translanguaging, teacher education, sign language interpreting and parent sign language learning. The research presented in this book marks a significant development in understanding deaf children's language use and provides insights into the flexibility and pragmatism of young deaf people and their families' communicative practices. It incorporates the views of young deaf people and their parents regarding their language use that are rarely visible in the research to date.
