the maltese falcon pdf: The Political Sublime Michael J. Shapiro, 2018-03-15 In *The Political Sublime* Michael J. Shapiro formulates an original politics of aesthetics through an analysis of the experience of the sublime. Turning away from Kant's analysis of the sublime experience as a validation of the existence of a universal common sense, Shapiro draws on Deleuze, Lyotard, and Rancière to show how incomprehensible events and dilemmas provide openings for new political formations. He approaches the sublime through a range of artistic and cultural texts that address social crises and natural disasters, from the writing of James Baldwin and Ta-Nehisi Coates to the films of Ingmar Bergman and Spike Lee; these works suggest ways to channel the disruptive effects of the sublime into resistance to authority and innovative political initiative. Whether stemming from the threat of nuclear annihilation or the aftermath of an earthquake, the violence of racism and terrorism or the devastation of industrialism, sublime experience, Shapiro contends, allows for a rethinking of events in ways that reveal, redistribute, and create conditions of possibility for alternative communities of sense.

They address the legal and mental health professions' minimization of the horrific nature of child sexual abuse, explain how to assess pedophiles' treatability, and discuss cases of adolescent and adult predators. Also, developmental analysis of sexual predation is integrated with a review of judicial decisions regarding civil commitment and punishment of abusers. The authors suggest how courts, evaluators, and legislatures can preserve constitutional rights of sexual offenders while prioritizing protection of children.

the maltese falcon pdf: Portal John King, 2023-11-07 A New York Times Book Review Editors' Choice "A window to the soul of a great city." —Inga Saffron, Pulitzer Prize-winning architecture critic A two-time Pulitzer finalist explores the story of American urban design through San Francisco's iconic Ferry Building. Conceived in the Gilded Age, the Ferry Building opened in 1898 as San Francisco's portal to the world—the terminus of the transcontinental railway and a showcase of civic ambition. In silent films and World's Fair postcards, nothing said "San Francisco" more than its soaring clocktower. But as acclaimed architectural critic John King recounts in *Portal*, the rise of the automobile and double-deck freeways severed the city from its beloved structure and its waterfront—a connection that required generations to restore. King's narrative spans the rise and fall and rebirth of the Ferry Building. Rich with feats of engineering and civic imagination, his story introduces colorful figures who fought to preserve the Ferry Building's character (and the city's soul)—from architect Arthur Page Brown and legendary columnist Herb Caen to poet Lawrence Ferlinghetti and Senator Dianne Feinstein. In King's hands, the saga of the Ferry Building is a microcosm of a larger evolution along the waterfronts of cities everywhere. *Portal* traces the damage inflicted on historic neighborhoods and working dockyards by cars, highways, and top-down planning and "urban renewal." But when an earthquake destroyed the Embarcadero Freeway, city residents seized the chance to reclaim their connection to the bay. Transporting readers across 125 years of history, this tour de force explores the tensions impacting urban infrastructure and public spaces, among them tourism, deindustrialization, development, and globalization. *Portal* culminates with a rich portrait of San Francisco's vibrant esplanade today, visited by millions, even as sea level rise and earthquakes threaten a landmark that remains as vital as ever. A book for city lovers and visitors, architecture fans and pedestrians, *Portal* is essential reading for anyone interested in the

history of San Francisco and the future of American cities.

the maltese falcon pdf: *Pynchon's California* Scott McClintock, John Miller, 2014-11-01

Pynchon's California is the first book to examine Thomas Pynchon's use of California as a setting in his novels. Throughout his 50-year career, Pynchon has regularly returned to the Golden State in his fiction. With the publication in 2009 of his third novel set there, the significance of California in Pynchon's evolving fictional project becomes increasingly worthy of study. Scott McClintock and John Miller have gathered essays from leading and up-and-coming Pynchon scholars who explore this topic from a variety of critical perspectives, reflecting the diversity and eclecticism of Pynchon's fiction and of the state that has served as his recurring muse from *The Crying of Lot 49* (1965) through *Inherent Vice* (2009). Contributors explore such topics as the relationship of the "California novels" to Pynchon's more historical and encyclopedic works; the significance of California's beaches, deserts, forests, freeways, and "hieroglyphic" suburban sprawl; the California-inspired noir tradition; and the surprising connections to be uncovered between drug use and realism, melodrama and real estate, private detection and the sacred. The authors bring insights to bear from an array of critical, social, and historical discourses, offering new ways of looking not only at Pynchon's California novels, but at his entire oeuvre. They explore both how the history, geography, and culture of California have informed Pynchon's work and how Pynchon's ever-skeptical critical eye has been turned on the state that has been, in many ways, the flagship for postmodern American culture. the maltese falcon pdf: *Women at Work in Twenty-First-Century European Cinema* Barbara

Mennel, 2019-01-30 From hairdressers and caregivers to reproductive workers and power-suited executives, images of women's labor have powered a fascinating new movement within twenty-first-century European cinema. Social realist dramas capture precarious working conditions. Comedies exaggerate the habits of the global managerial class. Stories from countries battered by the global financial crisis emphasize the patriarchal family, debt, and unemployment. Barbara Mennel delves into the ways these films about female labor capture the tension between feminist advances and their appropriation by capitalism in a time of ongoing transformation. Looking at independent and genre films from a cross-section of European nations, Mennel sees a focus on economics and work adapted to the continent's varied kinds of capitalism and influenced by concepts in second-wave feminism. More than ever, narratives of work put female characters front and center--and female directors behind the camera. Yet her analysis shows that each film remains a complex mix of progressive and retrogressive dynamics as it addresses the changing nature of work in Europe.

Bracketology is a unique way of organizing information that dates back to the rise of the knockout (or single elimination) tournament, perhaps in medieval times. Its origins are not precisely known, but there was genius in the first bracket design that hasn't changed much over the years. You, of course, may be familiar with the bracket format via the NCAA basketball tournament pairings each March. If you've ever watched ESPN or participated in a March Madness office pool, you know what a bracket looks like. *The Final Four of Everything* takes the idea one step further, and applies the knockout format to every category BUT basketball. In areas where taste, judgment, and hard-earned wisdom really matter, we've set out to determine, truly, the Final Four of Everything.
