there there tommy orange pdf: *The Great Wave* Michiko Kakutani, 2024-02-20 An urgent examination of how disruptive politics, technology, and art are capsizing old assumptions in a great wave of change breaking over today’s world, creating both opportunity and peril—from the Pulitzer Prize-winning critic and author of the *New York Times* bestseller *The Death of Truth*. “In this dazzling and brilliant book, Michiko Kakutani explains the cascading chaos of our era and points to ways that we can regain some stability.”—Walter Isaacson, author of *Elon Musk* The twenty-first century is experiencing a watershed moment defined by chaos and uncertainty, as one emergency cascades into another, underscoring the larger dynamics of change that are fueling instability across the world. Since the global financial crisis of 2008, people have increasingly lost trust in institutions and elites, while seizing upon new digital tools to sidestep traditional gatekeepers. As a result, powerful new voices—once regarded as radical, unorthodox, or marginal—are disrupting the status quo in politics, business, and culture. Meanwhile, social and economic inequalities are stoking populist rage across the world, toxic partisanship is undermining democratic ideals, and the internet and AI have become high-speed vectors for the spread of misinformation. Writing with a critic’s understanding of cultural trends and a journalist’s eye for historical detail, Michiko Kakutani looks at the consequences of these new asymmetries of power. She maps the migration of ideas from the margins to the mainstream and explores the growing influence of outsiders—those who have sown

chaos and fear (like Donald Trump), and those who have provided inspirational leadership (like Ukraine's president Volodymyr Zelensky). At the same time, she situates today's multiplying crises in context with those that defined earlier hinge moments in history, from the waning of the Middle Ages to the transition between the Gilded Age and the Progressive Era at the end of the nineteenth century. Kakutani argues that today's crises are not only signs of an interconnected globe's profound vulnerabilities, but also stress tests pointing to the essential changes needed to survive this tumultuous era and build a more sustainable future.

there there tommy orange pdf: *On the Swamp* Ryan Emanuel, 2024-03-25 Despite centuries of colonialism, Indigenous peoples still occupy parts of their ancestral homelands in what is now Eastern North Carolina—a patchwork quilt of forested swamps, sandy plains, and blackwater streams that spreads across the Coastal Plain between the Fall Line and the Atlantic Ocean. In these backwaters, Lumbees and other American Indians have adapted to a radically transformed world while maintaining vibrant cultures and powerful connections to land and water. Like many Indigenous communities worldwide, they continue to assert their rights to self-determination by resisting legacies of colonialism and the continued transformation of their homelands through pollution, unsustainable development, and climate change. Environmental scientist Ryan E. Emanuel, a member of the Lumbee tribe, shares stories from North Carolina about Indigenous survival and resilience in the face of radical environmental changes. Addressing issues from the loss of wetlands to the arrival of gas pipelines, these stories connect the dots between historic patterns of Indigenous oppression and present-day efforts to promote environmental justice and Indigenous rights on the swamp. Emanuel's scientific insight and deeply personal connections to his home blend together in a book that is both a heartfelt and an analytical call to acknowledge and protect sacred places.

there there tommy orange pdf: Royally Wronged Constance Backhouse, Cynthia E. Milton, Margaret Kovach, Adele Perry, 2021-10-27 The Royal Society of Canada's mandate is to elect to its membership leading scholars in the arts, humanities, social sciences, and sciences, lending its seal of excellence to those who advance artistic and intellectual knowledge in Canada. Duncan Campbell Scott, one of the architects of the Indian residential school system in Canada, served as the society's president and dominated its activities; many other members – historically overwhelmingly white men – helped shape knowledge systems rooted in colonialism that have proven catastrophic for Indigenous communities. Written primarily by current Royal Society of Canada members, these essays explore the historical contribution of the RSC and of Canadian scholars to the production of ideas and policies that shored up white settler privilege, underpinning the disastrous interaction between Indigenous peoples and white settlers. Historical essays focus on the period from the RSC's founding in 1882 to the mid-twentieth century; later chapters bring the discussion to the present, documenting the first steps taken to change damaging patterns and challenging the society and Canadian scholars to make substantial strides toward a better future. The highly educated in Canadian society were not just bystanders: they deployed their knowledge and skills to abet colonialism. This volume dives deep into the RSC's history to learn why academia has more often been an aid to colonialism than a force against it. *Royally Wronged* poses difficult questions about what is required – for individual academics, fields of study, and the RSC – to move meaningfully toward reconciliation.

there there tommy orange pdf: Overdue Amanda Oliver, 2022-03-22 One part love letter, one part eulogy, *Overdue* tells the story of America's public library system . . . Amanda Oliver proves herself a vibrant new literary voice . . . This is a book for all book lovers. —Reza Aslan, author of *Zealot: The Life and Times of Jesus of Nazareth* When Amanda Oliver began work as a school librarian, fueled by a lifelong love of books and a desire to help, she felt qualified for the job. What she learned was that librarians are expected to serve as mediators and mental-health-crisis support professionals, customer service reps and administrators of overdose treatment, fierce loyalists to institutionalized mythology and enforced silence, and arms of state surveillance. Based on firsthand experiences from six years of professional work as a librarian in high-poverty neighborhoods of

Washington, DC, as well as interviews and research, *Overdue* begins with Oliver's first day at Northwest One, the DC Public Library branch where she would ultimately end her library career. Through her experience at this branch, Oliver highlights the national problems that have existed in libraries since they were founded, troublingly at odds with the common romanticization of the library as a shining beacon of equality: racism, segregation, and economic oppression. These fundamental American problems manifest today as police violence, the opioid epidemic, widespread inaccessibility of affordable housing, and a lack of mental health care nationwide—all of which come to a head in public library spaces. Can public librarians continue to play the many roles they are tasked with? Can American society sustain one of its most noble institutions? Libraries will not save us, but Oliver helps us imagine what might be possible if we stop expecting them to.

there there tommy orange pdf: The Cities We Need Gabrielle Bendiner-Viani, 2024-08-27 An expressive book of prose and photographs that reveals the powerful ways our everyday places support our shared belonging. Where would you take someone on a guided tour of your neighborhood? In *The Cities We Need*, photographer and urbanist Gabrielle Bendiner-Viani introduces us to the complex, political, and eminently personable stories of residents who answered this question in Brooklyn, New York, and Oakland, California. Their universal stories and Bendiner-Viani's evocative images illuminate what's at stake in our everyday places—from diners to churches to donut shops. In this culmination of two decades of research and art practice, Bendiner-Viani intertwines the personal, historical, and photographic to present us with placework, the way that unassuming places foster a sense of belonging and, in fact, do the essential work of helping us become communities. In this unique book, Bendiner-Viani makes visible how seemingly unimportant places can lay the foundation for a functional interconnected society, so necessary for both public health and social justice. *The Cities We Need* explores both what we gain in these spaces and what we risk losing as they are threatened by gentrification, large-scale development, and most recently the COVID-19 pandemic. Ultimately, Bendiner-Viani shows us how to understand ourselves as part of a shared society, with a shared fate; she shows us that everyday places can be the spaces of liberation in which we can build the cities we need.

What does it mean to till, plant, and nurture Christian community while awaiting growth in the rocky soil of secularity, in this West Coast land better known for its hipsters, baristas, and outdoor lifestyle? Each chapter is an attempt to dust for divine fingerprints at work within the church and wider culture, giving evidence of God's activity in our midst. there there tommy orange pdf: Writing Backwards Alexander Manshel, 2023-11-21 Finalist, 2025 SHARP Book History Book Prize, Society for the Study of the History of Authorship, Reading, and Publishing Contemporary fiction has never been less contemporary. Midcentury writers tended to set their works in their own moment, but for the last several decades critical acclaim and attention have fixated on historical fiction. This shift is particularly dramatic for writers of color. Even as the literary canon has become more diverse, cultural institutions have celebrated Black, Asian American, Latinx, and Indigenous novelists almost exclusively for their historical fiction. *Writing Backwards* explores what the dominance of historical fiction in the contemporary canon reveals about American literary culture. Alexander Manshel investigates the most celebrated historical genres—contemporary narratives of slavery, the World War II novel, the multigenerational family saga, immigrant fiction, and the novel of recent history—alongside the literary and academic institutions that have elevated them. He examines novels by writers including Toni Morrison, Viet Thanh Nguyen, Colson Whitehead, Julia Alvarez, Leslie Marmon Silko, Michael Chabon, Julie Otsuka, Yaa Gyasi, Ben Lerner, and Tommy Orange in the context of MFA programs, literary prizes, university syllabi, book clubs, and the National Endowment for the Arts. Manshel studies how historical fiction has evolved over the last half century, documenting the formation of the newly inclusive literary canon as well as who and what it still excludes. Offering new insight into how institutions shape literature and the limits of historical memory, *Writing Backwards* also considers recent challenges to the historical turn in American fiction.

there there tommy orange pdf: Ainu of Japan Resisting the Suppression of Languages Susan Samata, 2024-12-12 This volume shows that, by moving away from code models that foster restrictive perceptions of language as learned words and rules, and towards an ecolinguistics capable of integrating with concepts of embodied cognition, it is possible to recognise a broad range of connections with a language from which an individual or community has become estranged. Using the Ainu of Japan as an example and comparator, this book reviews historical and contemporary suppression of languages as a means of, or as a bi-product of, the suppression of their speakers. Preservation of the Ainu language, which had no written form, has been central to official culture promotion programs, but the language has steadily declined in use. The Ainu experience has much in common with that of communities taken over and suppressed by oppressive forces in other countries and spans rural and urban contexts. Susan Samata examines the historical, social and ecolinguistic contexts of Ainu, with particular emphasis on presentation and perception in daily life. She also considers how aspects of ecolinguistic theory may be mapped onto museum practices, television and cinema, popular literature, and the promotion of tourism. These are then compared to

the sociolinguistic situations of a selection of other languages and cultures in China, North America and Scandinavia. By highlighting points of similarity and dissimilarity, Samata demonstrates the factors that operate in the suppression of people and their languages and suggests ways in which the perspective described may support resistance to suppression and assimilation, not least in language teaching areas.

Zij gaan via niet-traditionele kanalen op zoek naar informatie en dragen zo bij aan de opkomst van een nieuwe generatie stemmen die voorheen als radicaal, onorthodox of marginaal werden beschouwd. In *De grote golf* gaat Pulitzerprijswinnaar Michiko Kakutani in op de gevolgen van deze nieuwe machtsverhoudingen. Ze toont hoe ideeën van de marge naar de mainstream verschuiven en onderzoekt de groeiende invloed van buitenstaanders. Tegelijkertijd plaatst ze de crises van vandaag in de context van crises die eerdere scharnierenmomenten in de geschiedenis bepaalden. Haar conclusie: de huidige instabiliteit toont niet alleen de kwetsbaarheid van onze wereld, maar wijst ons ook op de veranderingen die nodig zijn om dit tumultueuze tijdperk te overleven en een duurzame toekomst op te bouwen. Michiko Kakutani is voormalig hoofdredacteur boekrecensies bij The New York Times. Ze staat bekend om haar scherpe recensies, waarvoor ze in 1998 de prestigieuze Pulitzerprijs ontving.
