In most cases, they claim to have profound knowledge but in fact understand little and obscure almost everything. Most people are convinced that economics should be left to the 'experts', when they themselves are perfectly capable of understanding it. This book explains that mainstream economics serves the interests of the rich through its logical inconsistency and unabashedly reactionary conclusions. John F. Weeks exposes the myths of mainstream economics and explains in straightforward language why current policies fail to serve the vast majority of people in the United States, Europe and elsewhere. Their failure to serve the interests of the many results from their devoted service to the few.

As certain to make you laugh as it will start friendly arguments, The Final Four of Everything is the perfect book for know-it-alls, know-a-littles, and anyone with an opinion on celebrity mugshots, literary heroes, sports nicknames, or bacon. Bracketology is a unique way of organizing information that dates back to the rise of the knockout (or single elimination) tournament, perhaps in medieval times. Its origins are not precisely known, but there was genius in the first bracket design that hasn't changed much over the years. You, of course, may be familiar with the bracket format via the NCAA basketball tournament pairings each March. If you've ever watched ESPN or participated in a March Madness office pool, you know what a bracket looks like. The Final Four of Everything takes the idea one step further, and applies the knockout format to every category BUT basketball. In areas where taste, judgment, and hard-earned wisdom really matter, we've set out to determine, truly, the Final Four of Everything.

yes virginia there is a santa claus pdf: *Raven Rock* Garrett M. Graff, 2017-05-02 Now a 6-part mini-series called *Why the Rest of Us Die* airing on VICE TV! The shocking truth about the government's secret plans to survive a catastrophic attack on US soil—even if the rest of us die—is “a frightening eye-opener” (Kirkus Reviews) that spans the dawn of the nuclear age to today, and contains everything one could possibly want to know (The Wall Street Journal). Every day in Washington, DC, the blue-and-gold first Helicopter Squadron, codenamed “MUSSEL,” flies over the Potomac River. As obvious as the Presidential motorcade, most people assume the squadron is a travel perk for VIPs. They're only half right: while the helicopters do provide transport, the unit exists to evacuate high-ranking officials in the event of a terrorist or nuclear attack on the capital. In the event of an attack, select officials would be whisked by helicopters to a ring of secret bunkers around Washington, even as ordinary citizens were left to fend for themselves. “In exploring the incredible lengths (and depths) that successive administrations have gone to in planning for the aftermath of a nuclear assault, Graff deftly weaves a tale of secrecy and paranoia” (The New York Times Book Review) with details that read like they've been ripped from the pages of a pulp spy novel (Vice). For more than sixty years, the US government has been developing secret Doomsday strategies to protect itself, and the multibillion-dollar Continuity of Government (COG) program takes numerous forms—from its potential to evacuate the Liberty Bell from Philadelphia to the plans to launch nuclear missiles from a Boeing-747 jet flying high over Nebraska. Garrett M. Graff sheds light on the inner workings of the 650-acre compound, called Raven Rock, just miles from Camp David, as well as dozens of other bunkers the government built for its top leaders during the Cold War, from the White House lawn to Cheyenne Mountain in Colorado to Palm Beach, Florida, and the secret plans that would have kicked in after a Cold War nuclear attack to round up foreigners and dissidents and nationalize industries. Equal parts a presidential, military, and cultural history, *Raven Rock* tracks the evolution of the government plan and the threats of global war from the dawn of the nuclear era through the War on Terror.
