back to school bulletin board ideas 2023: Invisible Forces Pei Pei Liu, 2023-12-01 Explores the critical role that classroom educators play in supporting student motivation throughout the transition from high school to college. Educators consistently identify student motivation as a top concern, particularly during the transition to college, but often feel helpless to influence it. Some assume that students are simply motivated or not. Others are daunted by trying to shape an unobservable psychological phenomenon. *Invisible Forces* provides a framework for thinking of student motivation as a set of internal mindsets that are promoted or thwarted through a complex ecology of personal, classroom, institutional, and systemic factors. Using the method of portraiture, Pei Pei Liu brings this ecology to life. The book presents a series of four rich case studies of educators' efforts to support student motivation and the challenges they encounter in secondary and postsecondary writing classrooms. Attuned to the unique status of writing-based courses as a near universal academic experience throughout the transition from high school to college, these portraits shed light on different strategies, make a case for institutional support of instructors, and pave the way for greater alignment between secondary and postsecondary settings.

back to school bulletin board ideas 2023: The Butterfly Cage Rachel Zemach, 2023-04-26 A tender and perspective-shifting book that offers a rare level of understanding about the subtle and and no-so-subtle layers of internalized oppression and deep feelings and dilemmas of Deaf people, written by former Deaf teacher Rachel Zemach. This mesmerizing, funny, and disruptive narrative invites you to be a fly on the wall in a Deaf classroom at a hearing school, experiencing the immense frustration, unbridled joy, and indelible humor that arise for Deaf adults and children in a hearing environment. Rachel struggles with staff, administration, and aides who sabotage her efforts at every turn. The students contend with a principal who removes their textbooks, intercom announcements that are totally inaccessible and a system that renders them all defenseless against these dysfunctional and often absurd forces. You'll meet seven-year-old Laszlo, the brilliant, language-hungry boy who will capture your heart, and the political, fiercely intelligent elite members of the Deaf community who rally to change legislation after his life takes a shocking turn at age

sixteen when he makes a heart-wrenching decision.
