Every minute, 100 hours of video is uploaded to YouTube. And the flow is ever-increasing. In this new era of media saturation, what do we mean by “the news”? Is “the most trusted name in news” today a veteran anchor on television or an undergraduate tweeting from Tahrir Square in Cairo? Tell Everyone spells out how our ability to create and share news is shaping the information we receive and depend on to make informed decisions, from choosing politicians to doing business. everyone s an author 3rd edition pdf: *Classroom Assessment in Multiple Languages* Margo Gottlieb, 2021-01-02 What if multilingual learners had the freedom to interact in more than one language with their peers during classroom assessment? What if multilingual learners and their teachers in dual language settings had opportunities to use assessment data in multiple languages to make decisions? Just imagine the rich linguistic, academic, and cultural reservoirs we could tap as we determine what our multilingual learners know and can do. Thankfully, Margo Gottlieb is here to provide concrete and actionable guidance on how to create assessment systems that enable understanding of the whole student, not just that fraction of the student who is only visible as an English learner. With *Classroom Assessment in Multiple Languages* as your guide, you'll: Better understand the rationale for and evidence on the value and advantages of classroom assessment in multiple languages Add to your toolkit of classroom assessment practices in one or multiple languages Be more precise and effective in your assessment of multilingual learners by embedding assessment as, for, and of learning into your instructional repertoire Recognize how social-emotional, content, and language learning are all tied to classroom assessment Guide multilingual learners in having voice and choice in the assessment process Despite the urgent need, assessment for multilingual learners is generally tucked into a remote chapter, if touched upon at all in a book; the number of resources narrows even more when multiple languages are brought into play. Here at last is that single resource on how educators and multilingual learners can mutually value languages and cultures in instruction and assessment throughout the school day and over time. We encourage you to get started right away. "Margo Gottlieb has demonstrated why the field, particularly the field as it involves the teaching of multilingual learners, needs another assessment book, particularly a book like this. . . . *Classroom Assessment in Multiple Languages* quite likely
