genki 1 pdf: Betting on the Farm Patricia L. Maclachlan, Kay Shimizu, 2022-03-15 Japan Agricultural Cooperatives (JA), a nationwide network of farm cooperatives, is under increasing pressure to expand farmer incomes by adapting coop strategies to changing market incentives. Some coops have adapted more successfully than others. In *Betting on the Farm*, Patricia L. Maclachlan and Kay Shimizu attribute these differences to three sets of local variables: resource endowments and product-specific market conditions, coop leadership, and the organization of farmer-members behind new coop strategies. Using in-depth case studies and profiles of different types of farmers, *Betting on the Farm* also explores the evolution of the formal and informal

institutional foundations of postwar agriculture; the electoral sources of JA's influence; the interactive effects of economic liberalization and demographic pressures (an aging farm population and acute shortage of farm successors) on the propensity for change within the farm sector; and the diversification of Japan's traditional farm households and the implications for farmer ties with JA.

genki 1 pdf: Computational Mechanics '86 Genki Yagawa, Satya N. Atluri, 2013-11-11 It is often said that these days there are too many conferences on general areas of computational mechanics. mechanics. and numerical methods. While this may be true, the history of scientific conferences is itself quite short. According to Abraham Pais (in *Subtle is the Lord ...* • Oxford University Press, 1982, p.80), the first international scientific conference ever held was the Karlsruhe Congress of Chemists, 3-5 September 1860 in Karlsruhe, Germany. There were 127 chemists in attendance, and the participants came from Austria, Belgium, France, Germany, Great Britain, Italy, Mexico, Poland, Russia, Spain, Sweden, and Switzerland. At the top of the agenda of the points to be discussed at this conference was the question: Shall a difference be made between the expressions molecule and atom? Pais goes on to note: The conference did not at once succeed in bringing chemists closer together ... It is possible that the older men were offended by the impetuous behavior and imposing manner of the younger scientists (see references cited in Pais' book). It may be observed that history, in general, repeats itself. However, at ICCM-86 in Tokyo, roughly 500 participants from both the West and the East were in attendance; there were only scholarly exchanges; the young tried to learn from the more experienced, and a spirit of international academic cooperation prevailed.

genki 1 pdf: Martial Arts and the Body Politic in Meiji Japan Denis Gainty, 2013-08-22 In 1895, the newly formed Greater Japan Martial Virtue Association (Dainippon Butokukai) held its first annual Martial Virtue Festival (butokusai) in the ancient capital of Kyoto. The Festival marked the arrival of a new iteration of modern Japan, as the Butokukai's efforts to define and popularise Japanese martial arts became an important medium through which the bodies of millions of Japanese citizens would experience, draw on, and even shape the Japanese nation and state. This book shows how the notion and practice of Japanese martial arts in the late Meiji period brought Japanese bodies, Japanese nationalisms, and the Japanese state into sustained contact and dynamic engagement with one another. Using a range of disciplinary approaches, Denis Gainty shows how the metaphor of a national body and the cultural and historical meanings of martial arts were celebrated and appropriated by modern Japanese at all levels of society, allowing them to participate powerfully in shaping the modern Japanese nation and state. While recent works have cast modern Japanese and their bodies as subject to state domination and elite control, this book argues that having a body – being a body, and through that body experiencing and shaping social, political, and even cosmic realities – is an important and underexamined aspect of the late Meiji period. *Martial Arts and the Body Politic in Meiji Japan* is an important contribution to debates in Japanese and Asian social sciences, theories of the body and its role in modern historiography, and related questions of power and agency by suggesting a new and dramatic role for human bodies in the shaping of modern states and societies. As such, it will be valuable to students and scholars of Japanese studies, Japanese history, modern nations and nationalisms, and sport and leisure studies, as well as those interested in the body more broadly.

genki 1 pdf: Barrier-Free Instruction in Japan: Recommendations for Teachers at All Levels of Schooling Alexandra Burke, Davey Young, Melodie Cook, 2024-04-20 While English language learners with disabilities, especially those with specific learning difficulties (SpLDs) such as Dyslexia, Attention Deficit Hyperactivity Disorder (ADHD) and Autism Spectrum Disorder (ASD), may encounter barriers to their learning, few English language teachers (ELTs) are capable and confident in their ability to provide barrier-free learning environments. This book gives a general background on inclusive education internationally and in Japan and provides case studies of successful accommodations for language learners with disabilities in English language education. The book is essential reading for language teachers at all levels of education in Japan and parents of language learners with disabilities. In addition, it is an excellent resource for language teachers based in other countries who are interested in providing inclusive and supportive language

education.

genki 1 pdf: Financial Regulators and Macroprudential Policy Walter James, 2025-09-19 The 2008 global financial crisis was a rude awakening for financial regulators. In its wake, a novel approach called “macroprudential policy” became an important pillar of financial regulation to ensure the stability of the financial system. But in the decade after the crisis, financial regulators in different countries implemented macroprudential policies that varied widely in their stringency. This is a worrying gap since uneven regulation across borders and different financial sectors was a key driver of the 2008 crisis. What explains these cross-country, cross-sectoral, and temporal variations in macroprudential policy? This book answers this question through an in-depth comparative historical analysis of the banking and asset management sectors in the United States and Japan. By comparing two sectors of the financial industry in two diverse economies, we can observe consistent dynamics in the politics of regulatory reform that illuminate the causes of different policy stringencies. The subject matter of this book will appeal to researchers and students of finance, financial regulation, political economy, and the politics of regulation. Its theoretical and methodological underpinnings will be of interest to scholars of comparative politics, comparative sociology, historical institutionalism, and those interested in interview-based qualitative methods.

genki 1 pdf: Unravelling the Fukushima Disaster Mitsuo Yamakawa, Daisaku Yamamoto, 2016-11-10 The Fukushima disaster continues to appear in national newspapers when there is another leakage of radiation-contaminated water, evacuation designations are changed, or major compensation issues arise and so remains far from over. However, after five years, attention and research towards the disaster seems to have waned despite the extent and significance of the disaster that remains. The aftermath of Fukushima exposed a number of shortcomings in nuclear energy policy and disaster preparedness. This book gives an account of the municipal responses, citizen's responses, and coping attempts, before, during, and after the Fukushima crisis. It focuses on the background of the Fukushima disaster, from the Tohoku earthquake to diffusion on radioactive material and risk miscommunication. It explores the processes and politics of radiation contamination, and the conditions and challenges that the disaster evacuees have faced, reflecting on the evacuation process, evacuation zoning, and hope in a post-Fukushima environment. The book will be of great interest to students and scholars of disaster management studies and nuclear policy.

The papers are organized in topical sections such as management and application of open education resources, application of ICT in support of knowledge sharing, application of mobile devices and social media to knowledge sharing, knowledge sharing for teaching and learning.

genki 1 pdf: Gender, Culture, and Disaster in Post-3.11 Japan Mire Koikari, 2020-10-15 The Great East Japan Disaster – a compound catastrophe of earthquake, tsunami, and nuclear meltdown that began on March 11, 2011 – has ushered in a new era of cultural production dominated by discussions on safety and security, risk and vulnerability, and recovery and refortification. Gender, Culture, and Disaster in Post-3.11 Japan re-frames post-disaster national reconstruction as a social project imbued with dynamics of gender, race, and empire and in doing so Mire Koikari offers an innovative approach to resilience building in contemporary Japan. From juvenile literature to civic manuals to policy statements, Koikari examines a vast array of primary sources to demonstrate how femininity and masculinity, readiness and preparedness, militarism and humanitarianism, and nationalism and transnationalism inform cultural formation and transformation triggered by the unprecedented crisis. Interdisciplinary in its orientation, the book reveals how militarism, neoliberalism, and neoconservatism drive Japan's resilience building while calling attention to historical precedents and transnational connections that animate the ongoing mobilization toward safety and security. An important contribution to studies of gender and Japan, the book is essential

reading for all those wishing to understand local and global politics of precarity and its proposed solutions amid the rising tide of pandemics, ecological hazards, industrial disasters, and humanitarian crises.

genki 1 pdf: Japan's Quest for Nuclear Energy and the Price It Has Paid Noriko Hikosaka Behling, Thomas G. Behling, Mark C. Williams, Shunsuke Managi, 2019-03-27 Japan's Quest for Nuclear Energy and the Price it has Paid: Accidents, Consequences, and Lessons Learned for the Global Nuclear Industry identifies major accidents in Japan that have happened at different stages of the nuclear fuel cycle in Japan, assesses the underlying causes of nuclear accidents, and identifies other systemic problems in the nuclear industry. It provides recommendations on how government, industry and academic institutions can work together toward achieving a zero-accident safety culture. - Reviews the history of Japan's nuclear programs and commercial activities from the 1950s to the present - Describes the underlying causes of major accidents that have afflicted Japan's nuclear industry, along with consequences, including technical difficulties, costs and program delays - Outlines the evolution of nuclear policies promoted by competing bureaucracies and how these rivalries influenced program priorities and impeded safety

genki 1 pdf: Handbook of Research on Cross-Cultural Approaches to Language and Literacy Development Smith, Patriann, Kumi-Yeboah, Alex, 2015-08-04 With rapid technological and cultural advancements, the 21st century has witnessed the wide scale development of transnationalist economies, which has led to the concurrent evolution of language and literacy studies, expanding cross-cultural approaches to literacy and communication. Current language education applies new technologies and multiple modes of text to a diverse range of cultural contexts, enhancing the classroom experience for multi-lingual learners. The Handbook of Research on Cross-Cultural Approaches to Language and Literacy Development provides an authoritative exploration of cross-cultural approaches to language learning through extensive research that illuminates the theoretical frameworks behind multicultural pedagogy and its myriad applications for a globalized society. With its comprehensive coverage of transnational case studies, trends in literacy teaching, and emerging instructive technologies, this handbook is an essential reference source for K-20 educators, administrators in school districts, English as a Second Language (ESL) teachers, and researchers in the field of Second Language Acquisition (SLA). This diverse publication features comprehensive and accessible articles on the latest instructional pedagogies and strategies, current empirical research on cross-cultural language development, and the unique challenges faced by teachers, researchers, and policymakers who promote cross-cultural perspectives.

genki 1 pdf: Japanese Population Geographies II Yoshitaka Ishikawa, 2023-06-13 This is the first anthology that conveys in detail the actual situation of population geographies in Japan, a country facing some of the world's most serious demographic trends such as low fertility, population aging, and depopulation. The anthology consists of two volumes with the common title Japanese Population Geographies. All of the included entries are based on original Japanese papers written by leading geographers and published within the past few years, useful for understanding Japan's current population geographies. The first volume analyzes the postwar transition of internal migration, examining the structural changes of population in urban areas, and proposes a new measure different from the traditional resident population. This volume also presents an investigation of the retirement migration of baby boomers as well as displacement migration due to the 2011 Great East Japan Earthquake. The second volume's contents examine the residential choices of minority populations such as foreign residents and sexual minorities. It also discusses future prospects associated with mono-polar concentration into Tokyo, regional forecasting using population projections based on small-area units, and the importance of a politico-economic perspective in future research. Taken as a whole, this anthology offers the following two significant contributions. First, the excellent achievements obtained in Japan, which is experiencing serious demographic trends, reflect key developments within the context of the world's population geography. The second contribution is that the publication brings the latest insights and important

policy implications to countries that are facing various issues associated with decreasing fertility, aging population, and declining population.

genki 1 pdf: International Student Mobility in Japan Sachihiko Kondo, Yu Sengoku, Ryoko Nakano, Akito Okada, 2024-10-24 In light of the COVID-19 crisis, this edited volume explores the changing landscape of International Student Education in Japanese universities and the impact on global student mobility. Through analysing a wide range of data, the book engages historical, cultural, linguistic and pedagogical contexts relating to higher education in Japan. With a particular focus on Japanese tertiary education, the chapters provide comprehensive analysis from surveys and interviews conducted since 2020 amongst Japanese and non-Japanese Higher Education institutions (HEIs) on leadership styles, decision-making behaviours and perspectives on higher education practices in Japan. The authors also examine the challenges and impact on student mobility and international student education, and present future directions for the internationalisation of higher education in post-pandemic Japan. This book will appeal to researchers, educators and anyone with an interest in higher education development, international student mobility and language learning. Chapters 5 and 9 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons [Attribution-Non Commercial-No Derivatives (CC BY-NC-ND)] 4.0 license. The publication of these chapters as an open-access work was generously supported by the Japan Society for the Promotion of Science (JSPS) through the Grants-in-Aid for Scientific Research (KAKENHI) [Grant Number JP20KK0052].

genki 1 pdf: Medical Women in the Japanese Empire Hiro Fujimoto, Aya Homei, Ellen Gardner Nakamura, 2025-06-18 Fujimoto, Homei, and Nakamura bring together the perspectives of women engaging in professional medical work across the expanse of the modern Japanese Empire (1868-1945). Through translations of primary source documents in three East Asian languages, this collection provides a window into the experiences of women working in a variety of medical professions, including doctors, nurses, midwives, and nutritionists. The voices of these women, collected from books, magazines, diaries, roundtable discussions, and oral histories, speak of the challenges, hopes, triumphs, and at times despair that women faced in their medical studies and workplaces. While the women represent a kaleidoscope of political views both critical and supportive of the Japanese empire, this book demonstrates the significance of the Japanese nation and empire for many of these women. Their stories show how they pushed boundaries, traversed national or regional borders in search of medical opportunities, or attempted to carve out new spaces for women through their service as medical professionals. This work, which includes little studied sources never before accessible in English, will appeal to scholars and students of history, Asian studies, gender history/studies, and the history of science, technology, and medicine.

genki 1 pdf: *Japan's Relations with North Korea and the Recalibration of Risk* Ra Mason, 2014-04-29 North Korea's contemporary relations with Japan have been fraught with tension. Tactics employed by Pyongyang have included abductions of Japanese citizens, missile launches over Japanese territory, intrusions into Japanese sovereign waters, and nuclear tests in defiance of Japanese and international condemnation. In light of the security risk the DPRK poses, this book examines how the state, market, and society in Japan have framed North Korea as a salient evil, and have in turn constructed and manipulated the risks posed by their neighbour. Using the example of Japan's post-Cold War responses to North Korea, this book studies the concept of risk in international relations, and its interactive relationship with domestic civil society. It focuses on how security risks are identified and re-evaluated by policy makers, mass media, and civil society stakeholders, and in doing so disentangles the complex processes by which Japan has framed and recalibrated risks in response to the DPRK. By exploring how risks identified with Pyongyang's behaviour towards Japan have been mediated between the state, market, and society via mainstream discourse in Japan, Ra Mason highlights the way in which these processes are causally linked to key actors' conceptions of risk. Indeed, this book provides an original theoretical framework - distinguishing between risk and traditional threat perceptions - through which to address issues of national security and identity, as well as the norms which inform them. *Japan's Relations with North*

Korea and the Recalibration of Risk will be welcomed by students and scholars across a wide range of fields including Japanese politics, Asia-Pacific studies, international relations, and security studies.

genki 1 pdf: *Community Practices for Disaster Risk Reduction in Japan* Rajib Shaw, 2014-01-18 This book presents key lessons from community-based risk-reduction practices in Japan, a country that is often hit by disasters and that also has shown strong resilience in coping with those disasters. Japan has a strong governance system for disaster risk reduction. However, the Kobe earthquake of 1995 showed the importance of community involvement in disaster response as well as recovery. With several examples from different parts of Japan, the book elaborates on the importance of community-based risk reduction and the innovations required for sustaining some of the community approaches. The book has 13 chapters and is divided into three parts: (1) Evolution of community-based risk reduction in Japan; (2) Community-based risk-reduction issues; and (3) Case studies. The primary target groups for this book are students and researchers in the fields of environment, disaster risk reduction, and climate change studies. The book provides them with a good idea of the current research trends in the field and furnishes basic knowledge about these vital topics. Another target group comprises practitioners and policy makers, who will be able to apply the knowledge collected here to policy and decision-making.

genki 1 pdf: *Framing in Sustainability Science* Takashi Mino, Shogo Kudo, 2019-11-12 This open access book offers both conceptual and empirical descriptions of how to “frame” sustainability challenges. It defines “framing” in the context of sustainability science as the process of identifying subjects, setting boundaries, and defining problems. The chapters are grouped into two sections: a conceptual section and a case section. The conceptual section introduces readers to theories and concepts that can be used to achieve multiple understandings of sustainability; in turn, the case section highlights different ways of comprehending sustainability for researchers, practitioners, and other stakeholders. The book offers diverse illustrations of what sustainability concepts entail, both conceptually and empirically, and will help readers become aware of the implicit framings in sustainability-related discourses. In the extant literature, sustainability challenges such as climate change, sustainable development, and rapid urbanization have largely been treated as “pre-set,” fixed topics, while possible solutions have been discussed intensively. In contrast, this book examines the framings applied to the sustainability challenges themselves, and illustrates the road that led us to the current sustainability discourse.

genki 1 pdf: *Global Education Inc* Stephen J. Ball, 2012 Using the approach of 'policy sociology' and the methods of social network analysis, Stephen Ball explores the policy activities of edu-businesses, neo-liberal advocacy networks and policy entrepreneurs, and of social enterprises and 'new' philanthropy.

genki 1 pdf: *Modern Early Childhood Teacher Education: Theories and Practice* Badea, Mihaela, Suditu, Mihaela, 2024-01-22 Early childhood education is the decisive period of a student's life experience where the foundations for lifelong learning are laid. A dynamic interplay of individual and collective experiences unfolds within its organized environment, fostering holistic growth, development, and the safeguarding of young minds. The significance of these formative years cannot be overstated; they are a cornerstone of education, shaping more than half of an individual's future learning trajectory. In a world driven by international imperatives and national priorities, the establishment of robust early education policies has emerged as a pressing need within the broader Early Childhood Development program. *Modern Early Childhood Teacher Education: Theories and Practice* delves into the multifaceted tapestry of early school education, dissecting its historical underpinnings while navigating the complexities of contemporary educational paradigms. The book unfurls a comprehensive exploration of diverse global early schooling systems, dissecting their historical trajectories and contemporary challenges. It assumes the role of a scholarly guide, not only for practicing early education teachers but also for aspiring educators preparing to embark on their journey into the realm of pre-school and primary education. Additionally, it stands as a forum for the global exchange of pedagogical insights, fostering a community of academics, researchers,

and practitioners committed to advancing the field of early education. The pages of this book resonate with the echoes of critical topics such as contemporary challenges in early schooling systems, innovative teaching resources tailored for young learners, the intricate nuances of digital education in the formative years, and the pivotal role of early education as a catalyst for broader educational and cultural policies.

genki 1 pdf: Japan's Nationalist Right in the Internet Age Jeffrey J. Hall, 2021-04-07 Japan's nationalist right have used the internet to organize offline activism in increasingly visible ways. Hall investigates the role of internet-mediated activism in Japan's ongoing historical and territorial disputes. He explores the emergence of two right-wing activist organizations, Nihon Bunka Channel Sakura and Ganbare Nippon, which have played a significant role in pressure campaigns against Japanese media outlets, campaigns to influence historical memorials, and campaigns to assert Japan's territorial claim to the Senkaku/Diaoyu Islands. Taking a multi-disciplinary approach, he analyses how activists maintained cohesion, raised funds, held protests that regularly drew hundreds to thousands of participants, and used fishing boats to land activists on disputed islands. Detailing events that took place between 2004 and 2020, he demonstrates how skilled social actors built cohesive grassroots protest organizations through the creation of shared meaning for their organization and its supporters. A valuable read both for scholars seeking insight into the dynamics surrounding Japan's history disputes and territorial issues, as well as those seeking to compare Japanese right-wing internet activism with its counterparts elsewhere.
