good books in amharic: Insight Into Ethiopia Molla Tikuye, 2009 This book designed to give knowledge is written about Ethiopia, a nation with long time history known as a country of script and museum of history. For many intellectuals history of Ethiopia has become relevant to / cliché' or unique in African history. Materials covered in this book include transference of Ethiopian heritage to young generation, Sheba's and Ark's history, Amharic language and alphabet, information for tourists, and prayer for Ethio-econo-socio-political development. Since faith has power, life for a Christian is easy because God says in Luke 11:9-10: Ask and it shall be given to you. In the same token if Ethiopians pray according to John 15:16 and John 16:23-24 in the name of Jesus, to believe in the Cross and to unify the country nothing will prevent to transform their lives and to get answer for their prayer. I, Molla born and raised in Ethiopia/Wollo/ Woldia having a Bachelor's degree in history like to make research in my spare time. Whenever; I write I produce original works. I have submitted my writings in 1990, 1991 and 1994 to Institute of Ethiopian Studies, major research institute of Ethiopia. In those days my writings were about mighty conquerors. After I came to America I accepted Jesus as my personal Savior in 1995. Ever since I accepted Jesus, hungry for the Word of God, I jump for the glory of the Lord whenever; worship starts. As a result miracles in my life continue to flow. Now I am a nurse. Before six years prophesy came to me through Pastor Seifu Kebede (Divine Mission Ministry) that I would be author of books. These days I start to write books to show the greatness of God and the weakness of man.

good books in amharic: Growing a Seminary in Ethiopia: Carl E. Hansen, 2025-01-26 At the invitation of the Meserete Kristos Church, the author and his companion leave comfortable positions in Nairobi, Kenya, to assist in establishing a "Christian liberal arts college" in Ethiopia. They find a nation in abject poverty, slowly recovering from seventeen years of war and Marxist revolutionary misrule. They find a nascent church, growing at 17% per annum among a deeply depressed and disillusioned population. Stripped of all her institutions and physical assets by the former Dergue regime, the liberated church was starting over. Opening a small Bible institute in 1994, the church envisioned it becoming a tertiary-level college. This autobiographical memoir is a missionary story of expatriate participants attempting to relate to an established church in a culture vastly different than their own. They find that assisting local leadership to achieve their goals can be challenging, especially when visions change, and disagreements arise. It is a human story of cultural clashes, personality conflicts, misunderstandings, changing visions, adapting to changing external developments over a thirty-year period. It is a Christian story of "going the second mile," of repentance, of forgiveness, of reconciliation. It is a faith story, of relying upon God, of God's timing, of God's faithfulness in protection and provision. This is a success story; the small Bible institute becomes a seminary with thousands of graduates leading and blessing a vibrant growing church that is blessing the nation. The events of this story took place in the environs of Addis Ababa and Bishoftu, Ethiopia, over a thirty-year period, between 1994 and 2023.

good books in amharic: Ethiopian Scribal Practice 7 Steve Delamarter, Marilyn Heldman, Jeremy R. Brown, Sara Vulgan, 2014-11-17 There are many stories to tell about the Ethiopic manuscripts in the collection of the Mekane Yesus Seminary in Addis Ababa. The stories about the content of the manuscripts are told in the catalogue (EMTS volume 13). But this volume recounts

stories about the book culture that produced the manuscripts. One study provides a general introduction to Ethiopian Christian codicology and the scribal practices in evidence in the collection. Another focuses on the particular story of scribal errors and corrections. And a final study provides an art-historical account of all of the illuminations contained in the collection--even down to the crude drawings in pencil that adorn some pages. Books contain texts. But they are witnesses, first and foremost, to a particular people, at a particular place, at a particular moment in time, who had a particular way of making and using their books. The content of their books tells us about the community's past, about the authoritative texts from antiquity which they valued. But their book culture tells us about their present, about the history of the reception of those works among these people in order to articulate in the present their identity and ethos.
