hope is the thing with feathers pdf: Flock Together B.J. Hollars, 2017-02-01 After stumbling upon a book of photographs depicting extinct animals, B.J. Hollars became fascinated by the creatures that are no longer with us; specifically, extinct North American birds. How, he wondered, could we preserve so beautifully on film what we've failed to preserve in life? And so begins his yearlong journey to find out, one that leads him from bogs to art museums, from archives to Christmas Counts, until he at last comes as close to extinct birds as he ever will during a behind-the-scenes visit at the Chicago Field Museum. Heartbroken by the birds we've lost, Hollars takes refuge in those that remain. Armed with binoculars, a field guide, and knowledgeable friends, he begins his transition from budding birder to environmentally conscious citizen, a first step on a longer journey toward understanding the true tragedy of a bird's song silenced forever. Told with charm and wit, *Flock Together* is a remarkable memoir that shows how "knowing" the natural world—even just a small part—illuminates what it means to be a global citizen and how only by embracing our ecological responsibilities do we ever become fully human. A moving elegy to birds we've lost, Hollars's exploration of what we can learn from extinct species will resonate in the minds

of readers long beyond the final page. Watch a book trailer for Hollars's newest book, *Midwestern Strange*.

hope is the thing with feathers pdf: From the Baobab to the Mosquito Letlhokwa George Mpedi, 2023-10-16 African leadership is in crisis. The legacy of colonialism has prevailed, while novel challenges such as the pandemic, substantial developmental setbacks, the scourge of corruption and troughs in growth have challenged the 'Africa Rising' narrative that once dominated. In a deeply fragmented and uncertain world, one might ask: 'What is the source of inspiration for leadership?' As leaders are faced with the seemingly insurmountable task of rebuilding Africa's economies, structures and systems, there is an argument to be made that leadership approaches should be uniquely and distinctly African. Letlhokwa George Mpedi draws inspiration from African culture and African approaches to challenge the prevailing systems. By exploring select proverbs and sayings, Letlhokwa identifies the tenets of successful and effective leadership. Traversing the ages, sourcing from indigenous practices, drawing from different regions and exploring diverse cultural references from the continent, he finds common threads to rethink the practice of leadership. *From the Baobab to the Mosquito* emphasises the value of collaboration and collective decision-making, reflecting the communal values that are at the heart of many African cultures. It offers a powerful reminder that leadership is not just about individual achievement, but about building strong relationships, fostering a sense of community, and making a positive difference in the lives of others. Through this collection of African concepts in a contemporary context, Letlhokwa George Mpedi sounds the call for authentic African leaders. Letlhokwa George Mpedi is the Vice-Chancellor and Principal of the University of Johannesburg and a Professor of Labour and Social Security Law at the same institution. Before his current position as Vice-Chancellor he served as Head of the Department of Practical Business Law, Vice-Dean, Executive Dean of the Faculty of Law, and Deputy Vice-Chancellor: Academic.

hope is the thing with feathers pdf: Hope Circuits Jessica Riddell, 2024-03-12 How do we model abundance and generosity – in teaching, in learning, in leading organizations, particularly non-profits – when dealing with fiscal austerity and other forms of scarcity thinking? *Hope Circuits* explores this question, presenting sophisticated ideas that support democratizing higher education for everybody. Written in a conversational style that draws upon Jessica Riddell's experience in governance, senior administration, and scholarship, the book is a how-to guide and thought leadership manifesto for developing the conceptual tools to seek solutions to higher education's most pressing issues. *Hope Circuits* aims to rewire mindsets, perspectives, and behaviours to in turn rewire and renew the systems within which university stakeholders learn, live, and work. It tackles this challenging feat by suggesting ten tools to build hope circuits, a concept borrowed from neuroscience. Riddell acknowledges that changing systems and deep cultures is not for the faint of heart; indeed, the more than 250 interviews conducted with thought partners for *Hope Circuits* expose how individuals who navigate complex systems regularly experience discomfort and even despair. In response, she shows us how to anchor a practice of hope in higher education with focus and intention, inviting others to adopt and adapt her approach.

hope is the thing with feathers pdf: Push Back the Dark Elizabeth M. Altmaier, 2017-01-09 Adults in your church, small group, or other Christian organization are silently suffering the tragic consequences of having been sexually abused as children or youth. Why aren't they coming forward for help? Their reluctance may be related to wounds given by the faithful-religious people they trusted, who said things like well, it wasn't rape or it's been thirty years--why is this such a big deal? Such responses from people with religious authority deepen victims' need to shrink into anxiety, depression, and self-degradation. This book offers you the tools needed to undertake caring ministry to adults suffering in the aftermath of childhood sexual abuse. Once you understand the scientific research on such topics as trauma memory, consequences of abuse, and forgiveness, you will appreciate how caring collaboration can create hope and healing. In these pages every reader will find helpful content that will take you from feeling out of your depth to knowing you are empowered to be an effective companion in God's transforming work in the lives of survivors of abuse.

hope is the thing with feathers pdf: Rhetorical Feminism and This Thing Called Hope Cheryl Glenn, 2018-11-12 Rhetoric and feminism have yet to coalesce into a singular recognizable field. In this book, author Cheryl Glenn advances the feminist rhetorical project by introducing a new theory of rhetorical feminism. Clarifying how feminist rhetorical practices have given rise to this innovative approach, *Rhetorical Feminism and This Thing Called Hope* equips the field with tools for a more expansive and productive dialogue. Glenn's rhetorical feminism offers an alternative to hegemonic rhetorical histories, theories, and practices articulated in Western culture. This alternative theory engages, addresses, and supports feminist rhetorical practices that include openness, authentic dialogue and deliberation, interrogation of the status quo, collaboration, respect, and progress. Rhetorical feminists establish greater representation and inclusivity of everyday rhetors, disidentification with traditional rhetorical practices, and greater appreciation for alternative means of delivery, including silence and listening. These tenets are supported by a cogent reconceptualization of the traditional rhetorical appeals, situating logos alongside dialogue and understanding, ethos alongside experience, and pathos alongside valued emotion. Threaded throughout the book are discussions of the key features of rhetorical feminism that can be used to negotiate cross-boundary mis/understandings, inform rhetorical theories, advance feminist rhetorical research methods and methodologies, and energize feminist practices within the university. Glenn discusses the power of rhetorical feminism when applied in classrooms, the specific ways it inspires and sustains mentoring, and the ways it supports administrators, especially directors of writing programs. Thus, the innovative theory of rhetorical feminism—a theory rich with tactics and potentially broad applications—opens up a new field of research, theory, and practice at the intersection of rhetoric and feminism.

hope is the thing with feathers pdf: Critical Hope Kari Grain, PhD, 2022-05-03 Introducing the 7 principles for practicing critical hope—because hope isn't something you have; it's something you do. Each person has a unique, ever-changing relationship to hope. Hope alone can be transformational—but in moments of despair, or when you're up against profound injustice, it isn't enough on its own. Hope without action is, at best, naive. At its worst, it tricks you into giving up the power and agency you have to change systems that cause suffering. Enter critical hope: a spark of passion, an abiding belief that transformation is not just possible, but vital. This is hope in action: a vibrant, engaged practice and a commitment to honoring transformative potential across a vast spectrum of experience. Dr. Kari Grain, PhD, offers 7 principles for practicing critical hope: Hope is necessary, but hope alone is not enough. Critical hope is not something you have; it's something you practice. Critical hope is messy, uncomfortable, and full of contradictions. Critical hope is intimately entangled with the body and the land. Critical hope requires bearing witness to social and historical trauma. Critical hope requires interruptions and invitations. Anger and grief have a seat at the table. The principles for practicing critical hope are not what you might think: they confront toxic positivity and take up discomfort, social injustices, and an ethos of hospitality toward anger and grief. But held in this same space is a love for connection—and an honoring of what makes you feel alive. Inspired by her global research, teaching experiences, and education curriculum taught at the University of British Columbia, Dr. Grain shows that to cultivate critical hope—and combat despair—you need to

show up with your whole self, in all its messy, passionate, vibrant complexity.
