[Rodenberg's] stories of lives that are generally overlooked make for essential reading.--The Washington Post "Kin moved me, disturbed me, and hypnotized me in ways very few memoirs have. -Rosanne Cash A heart stopping memoir of a wrenching Appalachian girlhood and a multilayered portrait of a misrepresented people, from Rona Jaffe Writer's Award winner Shawna Kay Rodenberg. When Shawna Kay Rodenberg was four, her

father, fresh from a ruinous tour in Vietnam, spirited her family from their home in the hills of Eastern Kentucky to Minnesota, renouncing all of their earthly possessions to live in the Body, an off-the-grid End Times religious community. Her father was seeking a better, safer life for his family, but the austere communal living of prayer, bible study and strict regimentation was a bad fit for the precocious Shawna. Disciplined harshly for her many infractions, she was sexually abused by a predatory adult member of the community. Soon after the leader of the Body died and revelations of the sexual abuse came to light, her family returned to the same Kentucky mountains that their ancestors have called home for three hundred years. It is a community ravaged by the coal industry, but for all that, rich in humanity, beauty, and the complex knots of family love. Curious, resourceful, rebellious, Shawna ultimately leaves her mountain home but only as she masters a perilous balancing act between who she has been and who she will become. *Kin* is a mesmerizing memoir of survival that seeks to understand and make peace with the people and places that were survived. It is above all about family—about the forgiveness and love within its bounds—and generations of Appalachians who have endured, harmed, and held each other through countless lifetimes of personal and regional tragedy.

He could see that his real passion, classical music, was considered somehow subversive - not really American. That is why Mr Tackett's became such a haven for him. Away from the uninspiring pitch and the disapproving ear of his father at home, Phil found at his piano teacher's a sanctuary for his musical conspiracy with the universe to flourish. Katie Doheney was the victim of another sort of conspiracy - or so she was convinced from the first brush of her childhood logic with the real-life spectacle of death in a road accident and the image of the Hiroshima mushroom on television. The threat of nuclear holocaust stalked Katie's every moment. Meanwhile Katie stalked Phil Benson. By the time Phil was ready to go East and make everyone proud of him, no ordinary bond had grown up between Katie and himself. They understood each other's obsessions. Phil's keyboard was Katie's bomb shelter and from Cuban missile crisis to the raid on Tripoli the curious duet played on. Leigh Kennedy's disarming and irresistible novel follows Katie into unlikely matrimony and Phil into the arms of a gun-toting St Louis actress.
