monologues from disney: Disney's Land Richard Snow, 2020-12-01 A propulsive and "entertaining" (The Wall Street Journal) history chronicling the conception and creation of the iconic Disneyland theme park, as told like never before by popular historian Richard Snow. One day in the early 1950s, Walt Disney stood looking over 240 acres of farmland in Anaheim, California, and imagined building a park where people "could live among Mickey Mouse and Snow White in a world still powered by steam and fire for a day or a week or (if the visitor is slightly mad) forever." Despite his wealth and fame, exactly no one wanted Disney to build such a park. Not his brother Roy, who ran the company's finances; not the bankers; and not his wife, Lillian. Amusement parks at that time, such as Coney Island, were a generally despised business, sagging and sordid remnants of bygone days. Disney was told that he would only be heading toward financial ruin. But Walt persevered, initially financing the park against his own life insurance policy and later with sponsorship from ABC and the sale of thousands and thousands of Davy Crockett coonskin caps. Disney assembled a talented team of engineers, architects, artists, animators, landscapers, and even a retired admiral to transform his ideas into a soaring yet soothing wonderland of a park. The catch was that they had only a year and a day in which to build it. On July 17, 1955, Disneyland opened its gates...and the first day was a disaster. Disney was nearly suicidal with grief that he had failed on a grand scale. But the curious masses kept coming, and the rest is entertainment history. Eight hundred million visitors have flocked to the park since then. In Disney's Land, "Snow brings a historian's eye and a child's delight, not to mention superb writing, to the telling of this fascinating narrative" (Ken Burns) that "will entertain Disneyphiles and readers of popular American history" (Publishers Weekly).

monologues from disney: Writing Organization Carl Rhodes, 2001-01-01 Carl Rhodes examines the implicit power of writing and authorship that is at play when people and organisations are (re)presented in research. To explore this, the book reports a research project in the area of organisational storytelling that investigates how people in one organisation used stories to (re)present their own learning experiences from the implementation of a quality management program. This research is written in three principal genres: autobiography, ethnography and a fictional short story. These (re)presentational strategies are reviewed to examine how different genres effect authority in different ways. Drawing extensively on the work of Mikhail Bakhtin and on writers associated with postmodernism and poststructuralism, the book offers a challenging discussion of what organisational research might be when the notion of the equivalence of reality and representation is radically questioned.

monologues from disney: *Monstrous Women in Comics* Samantha Langsdale, Elizabeth Rae Coody, 2020-04-20 Contributions by Novia Shih-Shan Chen, Elizabeth Rae Coody, Keri Crist-Wagner, Sara Durazo-DeMoss, Charlotte Johanne Fabricius, Ayanni C. Hanna, Christina M. Knopf, Tomoko Kuribayashi, Samantha Langsdale, Jeannie Ludlow, Marcela Murillo, Sho Ogawa, Pauline J. Reynolds, Stefanie Snider, J. Richard Stevens, Justin Wigard, Daniel F. Yezbick, and Jing Zhang Monsters seem to be everywhere these days, in popular shows on television, in award-winning novels, and again and again in Hollywood blockbusters. They are figures that lurk in the margins

and so, by contrast, help to illuminate the center—the embodiment of abnormality that summons the definition of normalcy by virtue of everything they are not. Samantha Langsdale and Elizabeth Rae Coody's edited volume explores the coding of woman as monstrous and how the monster as dangerously evocative of women/femininity/the female is exacerbated by the intersection of gender with sexuality, race, nationality, and disability. To analyze monstrous women is not only to examine comics, but also to witness how those constructions correspond to women's real material experiences. Each section takes a critical look at the cultural context surrounding varied monstrous voices: embodiment, maternity, childhood, power, and performance. Featured are essays on such comics as Faith, Monstress, Bitch Planet, and Batgirl and such characters as Harley Quinn and Wonder Woman. This volume probes into the patriarchal contexts wherein men are assumed to be representative of the normative, universal subject, such that women frequently become monsters.

monologues from disney: Latino TV Mary Beltrán, 2022-01-25 The history of Latina/o participation and representation in American television Whose stories are told on television? Who are the heroes and heroines, held up as intriguing, lovable, and compelling? Which characters are fully realized, rather than being cardboard villains and sidekicks? And who are our storytellers? The first-ever account of Latino/a participation and representation in US English-language television, *Latino TV: A History* offers a sweeping study of key moments of Chicano/a and Latino/a representation and authorship since the 1950s. Drawing on archival research, interviews with dozens of media professionals who worked on or performed in these series, textual analysis of episodes and promotional materials, and analysis of news media coverage, Mary Beltrán examines Latina/o representation in everything from children's television Westerns of the 1950s, Chicana/o and Puerto Rican activist-led public affairs series of the 1970s, and sitcoms that spanned half a century, to Latina and Latino-led series in the 2000s and 2010s on broadcast, cable, and streaming outlets, including *George Lopez*, *Ugly Betty*, *One Day at a Time*, and *Vida*. Through the exploration of the histories of Latina/o television narratives and the authors of those narratives, Mary Beltrán sheds important light on how Latina/os have been included—and, more often, not—in the television industry and in the stories of the country writ large.

monologues from disney: **Fables of Subversion** Steven Weisenburger, 1995 Drawing on more than thirty novels by nineteen writers, *Fables of Subversion* is both a survey of mid-twentieth century American fiction and a study of how these novels challenged the conventions of satire. Steven Weisenburger focuses on the rise of a radically subversive mode of satire from 1930 to 1980. This postmodern satire, says Weisenburger, stands in crucial opposition to corrective, normative satire, which has served a legitimizing function by generating, through ridicule, a consensus on values. Weisenburger argues that satire in this generative mode does not participate in the oppositional, subversive work of much twentieth-century art. Chapters focus on theories of satire, early subversions of satiric conventions by Nathanael West, Flannery O'Connor, and John Hawkes, the flowering of Black Humor fictions of the sixties, and the forms of political and encyclopedic satire prominent throughout the period. Many of the writers included here, such as Vladimir Nabokov, William Gaddis, Kurt Vonnegut, Robert Coover, and Thomas Pynchon, are acknowledged masters of contemporary humor. Others, such as Mary McCarthy, Chester Himes, James Purdy, Charles Wright, and Ishmael Reed, have not previously been considered in this context. Posing a seminal challenge to existing theories of satire, *Fables of Subversion* explores the iconoclastic energies of the new satires as a driving force in late modern and post-modern novel writing.

monologues from disney: Transmedia Character Studies Tobias Kunz, Lukas R.A. Wilde, 2023-03-31 *Transmedia Character Studies* provides a range of methodological tools and foundational vocabulary for the analysis of characters across and between various forms of multimodal, interactive, and even non-narrative or non-fictional media. This highly innovative work offers new perspectives on how to interrelate production discourses, media texts, and reception discourses, and how to select a suitable research corpus for the discussion of characters whose serial appearances stretch across years, decades, or even centuries. Each chapter starts from a different notion of how fictional characters can be considered, tracing character theories and models to approach character

representations from perspectives developed in various disciplines and fields. This book will enable graduate students and scholars of transmedia studies, film, television, comics studies, video game studies, popular culture studies, fandom studies, narratology, and creative industries to conduct comprehensive, media-conscious analyses of characters across a variety of media.

monologues from disney: A Few Words in Defense of Our Country Robert Hilburn, 2024-10-22 "Randy Newman is our great master of American song and storytelling.--Bruce Springsteen "At last, the biography that Randy Newman has long deserved. The emotional precision, the humor and sweep, the truths and secrets behind his remarkable body of work . . . it's all here in Robert Hilburn's heartfelt and indispensable account of America's finest songwriter. Leave it to Hilburn to pull back the curtain on the incredible life of Newman, a shy genius who clearly trusted him enough to point him in all the right directions. It's more than a great read, it's an invitation to re-visit Randy Newman's work with renewed appreciation for the man who uniquely defined the American Experience just when we needed it most."--Cameron Crowe The definitive biography of songwriter Randy Newman, told with his full cooperation, by acclaimed biographer and longtime Los Angeles Times music critic, Robert Hilburn Randy Newman is widely hailed as one of America's all-time greatest songwriters, equally skilled in the sophisticated melodies and lyrics of the Gershwin-Porter era and the cultural commentary of his own generation, with Bob Dylan and Paul Simon among his most ardent admirers. While tens of millions around the world can hum "You've Got a Friend in Me," his disarming centerpiece for Toy Story, most of them would be astonished to learn that the heart of Newman's legacy is in the dozens of brilliant songs that detail the injustices, from racism to class inequality, that have contributed to the division of our nation. Rolling Stone declared that a single Newman song, "Sail Away," tells us more about America than "The Star-Spangled Banner." And yet, his legacy remains largely undocumented in book form—until now. In A FEW WORDS IN DEFENSE OF OUR COUNTRY, veteran music journalist Robert Hilburn presents the definitive portrait of an American legend. Hilburn has known Newman since his club debut at the Troubadour in 1970, and the two have maintained a connection in the decades since, conversing over the course of times good and bad. Though Newman has long refused to talk with potential biographers, he now gives Hilburn unprecedented access not only to himself but also to his archives, as well as his family, friends, and collaborators. Bob Dylan, Paul Simon, John Williams, Linda Ronstadt, Don Henley, Bonnie Raitt, Chuck D, James Taylor, and New York Times' Pulitzer-winning columnists, Thomas Friedman and Wesley Morris, among others, contributed to the book. In addition to exploring Newman's prolific career and the evolution of his songwriting, A FEW WORDS IN DEFENSE OF OUR COUNTRY also dives into his childhood and early influences, his musical family that ruled Hollywood movie scores for decades, the relationships that have provided inspiration for his songs, and so much more. As thought-provoking and thorough as it is tender, this book is an overdue tribute to the legendary songwriter whose music has long reflected and challenged the America we know today.

monologues from disney: Cultural Studies, Education, and Youth Benjamin Frymer, John Broughton, Matthew Carlin, 2011-07-01 Cultural Studies, Education, and Youth: Beyond Schools, edited by Benjamin Frymer, Matthew Carlin, and John Broughton, addresses the new cultural landscapes which increasingly educate our youth. With essays from both emerging and established scholars, the book explores the ways media and popular culture have a growing impact on our youth, their identities, and everyday lives. In our highly mediated world, the nature of education has been dramatically transformed and taken way beyond the walls of our schools. Identities are formed, values learned, and relationships developed in the worlds of pop culture and media spaces. Each author brings a different lens to the study of education beyond the classroom. From the re-emergence of Che Guevara to the effects of an increasingly virtual culture, this collection critically attends to the changing nature of education and the impact of culture in the lives of youth. Cultural Studies, Education, and Youth: Beyond Schools raises significant questions and offers important insights for teachers, youth, scholars, and practitioners, alike.
