Doesn't have a lot of TIME to study. Wants to feel reassured that they KNOW the answers to the MOST commonly tested topics. This book was designed to get you up to speed FAST so that you can PASS the California permit test and get your driver's license without having to take the exam multiple times. Instead of studying with outdated materials filled with generic information and useless practice questions that aren't specific to California, our cheat sheet is broken down into specific categories that focus on the topics that are ACTUALLY TESTED ON THE EXAM. Based on our extensive research, these are the topics that are most likely to show up on the California permit test: Preparing to drive Driver and passenger safety California speed limits Driving skills California driving laws Sharing the road Traffic signals, and Road signs Each section contains bite-sized nuggets of information that are organized in a way that makes learning easy and prevents you from getting overwhelmed. Looking for California Permit Practice Tests? We've got you covered! At the end of the book, you'll find a full-length practice test that is designed to simulate the real CA DMV permit test. We've included detailed explanations and images to help you further your understanding of each concept. Want to know a SECRET? We put the section on road signs at the END of the book because they are LEAST likely to be tested. Most road signs are self-explanatory, so when they do show up on the permit test, they are usually the easiest questions to answer. If you have a limited amount of time to study, you shouldn't spend it memorizing road signs. Instead, we focus on the more difficult topics that are commonly tested (like California's Basic Speed Limit law and point system.) These are the topics that most people get wrong because they are buried in the handbook. We made it a point to highlight them and make them easy to understand so that you are PREPARED on test day. Stop using outdated, generic study materials and get our California-specific cheat sheet instead. Most people can get through our DMV study guide in about an hour or two. Then take the advanced CA permit practice test at the back to test your knowledge and feel confident that you are PREPARED on test day.
