marriage contract template: Religious Plurality at Princely Courts Benjamin Marschke, Daniel Riches, Alexander Schunka, Sara Smart, 2024-04-01 Early modern European monarchies legitimized their rule through dynasty and religion, and ideally the divine right of the ruler corresponded with the confession of the territory. It has thus been assumed that at princely courts only a single confession was present. However, the reality of the confessional circumstances at court commonly involved more than one faith. Religious Plurality at Princely Courts explores the reverberations of biconfessional or multiconfessional intra-Christian situations at courts on dynastic, symbolic, diplomatic, artistic, and theological levels, exploring interreligious dialogue, religious change, and confessional blending. Incorporating perspectives across European studies such as domestic and international politics, dynastic strategies, the history of ideas, women's and gender history, as well as visual and material culture, the contributions to this volume highlight the dynamics and implications of religious plurality at court.

marriage contract template: *Islamic Divorce in North America* Julie Macfarlane, 2012-04-30 Policy-makers and the public are increasingly attentive to the role of shari'a in the everyday lives of Western Muslims, with negative associations and public fears growing among their non-Muslim neighbors in the United States and Canada. The most common way North American Muslims relate to shari'a is in their observance of Muslim marriage and divorce rituals; recourse to traditional Islamic marriage and, to a lesser extent, divorce is widespread. Julie Macfarlane has conducted hundreds of interviews with Muslim couples, as well as with religious and community leaders and family conflict professionals. Her book describes how Muslim marriage and divorce processes are used in North America, and what they mean to those who embrace them as a part of their religious and cultural identity. The picture that emerges is of an idiosyncratic private ordering system that reflects a wide range of attitudes towards contemporary family values and changes in gender roles. Some women describe pervasive assumptions about restrictions on their role in the

family system, as well as pressure to accept these values and to stay married. Others of both genders describe the gradual modernization of Islamic family traditions - and the subsequent emergence of a Western shari'a--but a continuing commitment to the rituals of Muslim marriage and divorce in their private lives. Readers will be challenged to consider how the secular state should respond in order to find a balance between state commitment to universal norms and formal equality, and the protection of religious freedom expressed in private religious and cultural practices.

marriage contract template: Bernard Shaw A. M. Gibbs, 2005-11-23 Bernard Shaw fashioned public images of himself that belied the nature and depth of his emotional experiences and the complexity of his intellectual outlook. In this absorbing biography, noted Shavian authority A. M. Gibbs debunks many of the elements that form the foundation of Shaw's self-created legend--from his childhood (which was not the loveless experience he claimed publicly), to his sexual relationships with several women, to his marriage, his politics, his Irish identity, and his controversial philosophy of Creative Evolution. Drawing on previously unpublished materials, including never-before-seen photographs and early sketches by Shaw, Gibbs offers a fresh perspective and brings us closer than ever before to the human being behind the masks.

marriage contract template: Culture under Cross-Examination Tim Kelsall, 2009-10-22 The international community created the Special Court for Sierra Leone to prosecute those who bore the greatest responsibility for crimes committed during the country's devastating civil war. In this book Tim Kelsall examines some of the challenges posed by the fact that the Court operated in a largely unfamiliar culture, in which the way local people thought about rights, agency and truth-telling sometimes differed radically from the way international lawyers think about these things. By applying an anthro-political perspective to the trials, he unveils a variety of ethical, epistemological, jurisprudential and procedural problems, arguing that although touted as a promising hybrid, the Court failed in crucial ways to adapt to the local culture concerned. Culture matters, and international justice requires a more dialogical, multicultural approach.

marriage contract template: Philosophising Experiences and Vision of the Female Body, Mind, and Soul: Historical Context and Contemporary Theory Musingafi, Maxwell Constantine Chando, Mafumbate, Racheal, Khumalo, Thandi Fredah, 2021-04-23 Much of our understanding of the world, our societies, and ourselves rests on theories and knowledge generated predominantly by men of certain nationalities and economic classes. This male-dominated and culturally specific theorizing and knowledge have generally resulted in the exclusion of women and other groups from the process of formal theorizing and knowledge building. Feminism argues that the male-dominated knowledge represents a skewed perception of reality and is only partial knowledge. Feminism is a generalized, wide-ranging system of ideas about social life and human experience developed from a woman-centered perspective. It treats women as the central subjects in the investigative process and seeks to see the world from the distinctive vantage points of women in the social world. The best way to empower women and better the situation for women is to take women's daily experiences and their informal theorizing into account and, on this basis, adopt feminist approaches to building theory and knowledge. *Philosophising Experiences and Vision of the Female Body, Mind, and Soul: Historical Context and Contemporary Theory* provides an overview and introduction to the study of feminist theory and practice in the social sciences. This book provides a starting point for further and more advanced study of the nexus of feminism, gender, and development and translates feminist theory and concepts into practice. The chapters investigate, in a historical context, mainstream and contemporary theories of feminism and gender studies. This book is ideal for post-graduate students of social science; researchers of development management, business management, public governance, and gender and development; activists; feminists; and practitioners, stakeholders, researchers, academicians, and students interested in feminist theory and knowledge building.

This book deconstructs the myth of the nuclear family by presenting the rich diversity of family lives in American history from the American Revolution to the twenty-first century. To tell this story, Jürgen Martschukat focuses on fathers and their relations to families and American society. Using biographical close-ups of twelve different characters, each embedded in historical context, *American Fatherhood* provides a much more realistic picture of how fatherhood has been performed within different kinds of families. Each protagonist covers a crucial period or event in American history, presents a different family constellation, and makes a different argument with regard to how American society is governed through the family.
